The Great Amazon River Expedition

Explore the World's Largest Rainforest on a Private Voyage to the Amazon Headwaters

As the riverboat chugs its way up the chocolate-colored channel, fringed with dense rainforest, the primeval depths of the Upper Amazon beckon. Our focus is the Pacaya Samiria National Reserve at the mighty river's headwaters, a 5-million-acre mosaic of flooded and dry forest, islands and tea-colored creeks laden with tannins. Containing some of the greatest biodiversity on Earth, it shelters the largest wildlife populations in the Amazon Basin. Explore by excursion boat and on foot, looking for pink river dolphins, monkeys, sloths, macaws and butterflies. Lagoons covered in giant lily pads teem with fish and caiman, while scores of marsh birds hunt from shore. Visit local villages, and learn about conservation challenges as we follow hundreds of miles of Amazon tributaries aboard a deluxe ship built for exploring the river system's farthest reaches.

Trip Highlights

Voyage to the Amazon Headwaters

Journey all the way to the tributary headwaters to explore Peru's Pacaya Samiria National Reserve, a vast protected realm of exceptional biodiversity

Cruise Aboard a Private Luxury Riverboat

Travel in air-conditioned comfort aboard our chartered riverboat—generous en suite cabins have panoramic windows for private nature viewing

Explore the Rainforest in Search of Wildlife

With expert naturalist guides, scout for jungle wildlife like scarlet macaws, sloths and monk saki monkeys, and look for rare pink river dolphins

The Great Amazon River Expedition Itinerary

Explore the World's Largest Rainforest on a Private Voyage to the Amazon Headwaters

Itinerary at a Glance

Day 1	Lima
Day 2	Lima / Iquitos / Nauta
Day 3	Pahuachiro Creek / Fundo Casual Trail / Nauta Caño Creek
Day 4	Amazon Natural Park / Pacaya Samiria National Reserve
Day 5	Ucayali & Marañon Confluence / Yarapa River / San Jose de Paranapura
Day 6	Belluda Caño Creek / Dorado River
Day 7	Pacaya River / Supay Cocha
Day 8	Ucayali River / Marañon River
Day 9	Nauta / Iquitos / Lima

Day 1

Lima

Begin your expedition into the Peruvian Amazon

- Arrive in Lima and enjoy dinner at your hotel before tomorrow's flight into the Amazon Basin

Arrive in Lima, where our local representative meets you at the airport to transfer you to our hotel. Our location near the airport provides convenient access for tomorrow morning's flight to Iquitos. Enjoy dinner on your own this evening.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 2

Lima / Iquitos / Nauta

Enter the Upper Amazon by private riverboat

- Fly across the Andes to Iquitos, reachable only by air or water
- Sleep aboard your deluxe riverboat, chartered exclusively for Nat Hab guests
- Cruise the Marañon upstream toward the Amazon headwaters from the open top deck

From Peru's capital, we fly east across the spine of the Andes to land in Iquitos. Accessible only by air or water, this once-booming rubber town is now one of the largest cities in the Amazon Basin. Transfer to Nauta, a small riverside town on the banks of the Marañon River, one of the major tributaries of the Upper Amazon. Here, we board our deluxe riverboat, chartered exclusively for Nat Hab guests. Cruising slowly upstream, bound for the Amazon headwaters, enjoy panoramic views from the open-air top deck and sip cocktails made with regional fruits and Pisco, Peru's famous national brandy, as our Expedition Leaders provide an overview of the journey ahead. These legendary waters, known as the "river sea," thrum with small boats heading to market, while the skies overhead are animated with birdlife. Once darkness falls, head back topside to look for stars overhead in the tropical night sky.

Day 3

Pahuachiro Creek / Fundo Casual Trail / Nauta Caño Creek

Search for Amazon wildlife from first light to after dark

- Set out at sunrise by skiff on a blackwater creek to look for monkeys
- Walk a forest trail searching for sloths, poison dart frogs and leafcutter ants
- Scan the banks by spotlight after dark for black caiman and fishing bats

Early risers are rewarded with abundant bird and animal life on a morning skiff excursion along Pahuachiro Creek. We set out at sunrise, when wildlife is most active in the tropics. The blackwater creek, while clear, is the color of dark tea, an effect of the tannins deposited by rich vegetation along the banks. Along this small tributary, we frequently observe a variety of monkeys including squirrel, monk saki and brown capuchin, as well as a host of birds: large-billed terns, laughing falcons, blue-gray tanagers, snowy egrets, horned screamers, tiger herons, short-tailed parrots, parakeets and perhaps the flashy scarlet macaw. It's important to know at the outset, though, that the prolific wildlife of the Amazon is skilled at hiding: It takes an expert eye to locate animals sheltered by the dense vegetation. That's where our seasoned guides come in! After breakfast, explore the Fundo Casual trail, walking deep into the forest in search of sloths, birds and more. Look closely for brightly colored poison dart frogs, leafcutter ants and other intriguing small creatures along our path.

Cruising on to Nauta Caño Creek, we explore marshes, side streams and oxbow lakes along this small river while searching for many different birds and animals. We may even spy a three-toed sloth nestled in a cecropia tree. As the sun sinks below the canopy, an exciting adventure awaits: a chance to witness the transformation of the rainforest at nightfall. An orchestra of sounds evolves as nocturnal creatures awaken, with crickets and night birds providing a percussive rhythm. In the darkness, our guides use powerful spotlights to search for wildlife. Black caiman, frogs, common potoo, black-crowned night heron, pauraques, spectacled owls and nighthawks are commonly spotted along the banks, while fishing bats swoop down to scoop fish from the water.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 4

Amazon Natural Park / Pacaya Samiria National Reserve

Explore a vast Amazon sanctuary teeming with hidden life

- Walk the rainforest to look for tapirs and howler monkeys
- Paddle a kayak or skiff into Pacaya Samiria, Peru's largest protected reserve
- Pass giant kapok and strangler fig trees that shelter hidden wildlife

This morning, stop at Amazon Natural Park for a rainforest stroll. Serenaded by the wildlife symphony coming from the dense vegetation, we scout for howler and titi monkeys, tapirs, sloths and a wide range of birds. The terra firma forest is filled with layers of fascinating flora, including walking palms and trees festooned with epiphytes. Later this afternoon, as we travel farther up the Marañon River, options for exploration await. With six double sit-on-top kayaks, plus open skiffs, choose your mode for investigating a virtually unvisited section of Pacaya Samiria National Reserve, where the Yanayacu and Pucate rivers meet. Established in 1982 to preserve the exceptional biodiversity of the northern Amazon wilderness, this 5-million-acre sanctuary is Peru's largest protected area. Giant kapok and strangler fig trees along the banks shelter a multitude of wildlife, and our Expedition Leaders explain the various micro-ecosystems found here in one of the most pristine parts of the reserve. After dark, head up to the top deck to listen to the symphony of night sounds in the forest.

Day 5

Ucayali & Marañon Confluence / Yarapa River / San Jose de Paranapura

Discover where the Amazon River begins

- Explore by skiff the confluence where two rivers form the Amazon
- Watch for pink and gray river dolphins from skiffs or kayaks
- Meet Indigenous villagers and a local shaman versed in medicinal rainforest plants

Awaken in the confluence of the Ucayali and Marañon rivers where they join to form the main stem of the mighty Amazon River. We explore the confluence on an early-morning skiff ride. Back on board for breakfast, we cruise into the Ucayali River to reach the mouth of a remote tributary of the Upper Amazon, the Yarapa River. Once there, board skiffs or kayaks to watch for colorful birds such as the plum-throated cotinga, and look for pink and gray river dolphins that sometimes slice gracefully through the water alongside us. These freshwater cetaceans are highly social, friendly and intelligent. According to local lore, the dolphins turn into humans during celebrations to steal handsome men or pretty women from their villages.

Later, we disembark for a short skiff ride to San Jose de Paranapura, a riverside village where we meet Indigenous residents whose culture has been present here for centuries. At the arts and crafts market, we can purchase items that support the community and empower women artisans. Sales indirectly help preserve local fauna, since income generated decreases the pull of illegal hunting. We also visit with the prestigious local shaman, known throughout the region as a healer and spiritual guide for residents living throughout the area's remote reaches. Learn the uses for various medicinal plants sourced from the largest pharmacy in the world—the Amazon rainforest—then return to the boat for dinner.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 6

Belluda Caño Creek / Dorado River

Search the world's largest rainforest with expert guides

- Look up for saki and squirrel monkeys foraging high in the canopy
- Scout the treetops for endangered scarlet macaws and other rainforest birds
- Spotlight the dark forest for owl monkeys, the world's only nocturnal monkey

This morning we visit Belluda Caño Creek near Yanallpa, home to the Ribereño people, Indigenous dwellers in the rainforest for centuries. This small tributary is a prime location to look for pink river dolphins. Plying the water in open skiffs, we have a chance for close encounters with these rare creatures, if we're lucky. In the forest canopy above, look for saki monkeys foraging for their next meal in small family groups. Navigating small waterways off the Dorado River inside the Pacaya Samiria Reserve, we are immersed in the verdant recesses of the world's largest rainforest. As we glide slowly along, search for birds such as snail kites, festive parrots, olive-spotted hummingbirds, wood creepers and endangered scarlet macaws. Squirrel monkeys move in large, noisy troops overhead while iguanas laze in the sun. At every turn, our guides reveal the secrets of the rainforest, helping us spot creatures we would never see on our own, given the amazing camouflage of so many masterfully adapted species. After dark, scan the riverbanks from our skiffs for spectacled caiman, frogs and owls. Keep an eye peeled, too, for owl monkeys—the world's only nocturnal monkey—resting in the forest canopy in preparation for their next forage.

Day 7

Pacaya River / Supay Cocha

Explore the wild heart of Peru's greatest rainforest reserve

- Reach the mirrored forest, a flooded maze of lagoons, streams and islands
- Listen for red howler monkeys whose eerie calls carry for miles
- Paddle into Supay Cocha, a lagoon teeming with fish beneath the canopy

This morning, we reach the Pacaya River at the heart of the Pacaya Samiria Reserve. This vast flooded landscape, known as the "mirrored forest," covers 10,000 square miles at the headwaters of the Amazon and is home to Peru's greatest concentration of wildlife. We set out to explore this emerald realm of trees, vines, streams, lagoons and islands. Overhead, look for macaws, black-collared hawks, prehistoric hoatzin birds and capuchins, and listen for red howler monkeys with their eerie call that reverberates through the canopy for miles. We begin to get a sense of the layered richness of the reserve's mixed habitats: its 85 lakes are home to 250 fish species, while it protects 132 species of mammals (most are very elusive), 150 reptile and amphibian species, and 450 different kinds of birds. The reserve also contains the largest variety of flora in Peru, including huge bromeliads and 22 orchid species. This afternoon, take another skiff or kayak excursion into Supay Cocha, a lagoon teeming with fish. Watch for troops of squirrel monkeys, sloths and plenty of birds, including black- and white-tailed trogons and paradise tanagers.

Day 8

Ucayali River / Marañon River

Meet the Cocama people of the Upper Amazon

- Cruise a quiet tributary at dawn, watching for fishing herons and cormorants
- Visit a Cocama village to learn how women dye handicrafts with rainforest materials
- Stargaze from the ship's open observation deck under black Amazon skies

On a morning skiff excursion along one of the tributaries of the Ucayali River, we hope to observe egrets, herons, hawks and long-legged neotropical cormorants fishing for breakfast, as wattled jacanas compete for food with spiders, and grasshoppers and butterflies hop and flutter along the edges of freshwater swamps and marshes. In the afternoon, we return to the Marañon River upstream from the confluence to visit Amazonas village. The residents are part of the Cocama ethnic group—the original inhabitants of this part of the world. During our visit, we learn about the natural dyes that the women of the village use to dye handicrafts made from rainforest materials such as palm fibers, roots, seeds and tree bark—items we can purchase from the local craft market at the end of our visit. We also meet other community members who share with us their roles in village life. Back aboard the ship, head up to the observation deck for a last night of stargazing under black Amazon skies.

Ready to Book? Call an Adventure Specialist at 800-543-8917

Day 9

Nauta / Iquitos / Lima

Return to Lima after your Amazon expedition

- Tour the Aquarium of the Amazon, a research center for more than 300 ornamental fish species
- Fly to Lima for your onward journey home

Disembark in Nauta this morning, then, en route to Iquitos, stop for a tour of Acuario del Amazonas—the Aquarium of the Amazon—a research center helping to preserve the biodiversity of the Peruvian Amazon through the study and conservation of more than 300 species of ornamental fish. Ideally located in an area where natural springs flow year-round, the center is dedicated to creating a long-term balanced ecosystem that enhances the environment and serves the local economy. Through ongoing education and hands-on training, local fishermen learn to establish and maintain sustainable ornamental fish aquaculture, while local citizens learn about conservation principles and practices. We then fly together to Lima. For your convenience, we have booked overnight hotel rooms at a comfortable airport hotel. Relax in your own private space until your overnight flight home, or take advantage of the opportunity for a full night's stay and depart the following morning.

Please Note: *This itinerary is meant as a guideline and can change due to weather conditions, internal flight schedules and river water levels. On some occasions, these conditions may require us to deviate from our intended itinerary, in which case we will provide the best available alternative. And we'll make a great adventure of it!*

Discover the Difference in a Nat Hab Amazon Expedition

The Great Amazon River Expedition

Exploring the Amazon rainforest is an entrancing adventure for any nature lover. This vibrant ecosystem is also one of Earth's most threatened. That's why WWF, our conservation travel partner, is focusing some of its most important work on protecting this globally important environment. Here are some key reasons to choose Nat Hab as your exploration partner in the Amazon:

1 **The Finest Vessels on the River**

You won't find a riverboats of higher quality. Custom-designed for navigating the Amazon and its tributaries, built in a classic style distinctive to this region and beautifully finished with contemporary comforts, our privately-chartered riverboats features generous cabins with panoramic windows for surveying the passing rainforest and wildlife.

2 **A Maximum of 30 Guests for a More Intimate Experience**

While some Amazon ships carry 100 passengers or more, the *Delfin II* and the *Zafiro* offers a much more personalized experience. We charter the ship exclusively for our travelers. Its compact size means we can tie up at the bank to easily embark small skiffs for excursions to observe wildlife at close range. We also meet with local *ribereño* people in riverside villages along our route in an authentic and non-commercialized context.

3 **Cruise all the Way to the Amazon Headwaters**

Amazon itineraries vary—compare carefully. Our main focus is the largest protected realm in Peru (and second largest in the entire Amazon Basin), the WWF-supported Pacaya Samiria National Reserve. This 5-million-acre wetland at the headwaters of the mighty river is replete with wildlife—you won't find a richer experience of rainforest biodiversity.

4 **The Best Guide-to-Guest Ratio You'll Find**

While the ship operates with three local naturalist guides on every voyage, we also travel with two Nat Hab Expedition Leaders, whose expertise and depth of knowledge in the Amazon greatly enhance your interpretive experience. Our Amazon guides average at least 10 years' experience in the region, and that means they'll be able to help you spot elusive wild creatures that are otherwise virtually invisible in the rainforest's shadowy depths. Your Expedition Leaders also provide an added level of service and personalized attention. **Read our Expedition Leader bios** and traveler comments regarding the quality of our renowned leaders.

5 **Our Quality-Value Guarantee Ensures Your Superior Amazon Cruise**

Natural Habitat Adventures offers an exclusive guarantee, which clearly states that we will meet the lofty expectations we set forth in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company. **Read our important promise for yourself!**

6 **Feel Good About Your Carbon-Neutral Journey**

We care deeply about our planet, as we know you do. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

Ready to Book? Call an Adventure Specialist at 800-543-8917

7 **Natural Habitat Adventures is WWF's Travel Partner**

Because of our commitment to environmentally friendly travel, as well as the exceptional quality of our adventures, World Wildlife Fund—the world's leading environmental conservation organization—has named Natural Habitat Adventures as its worldwide travel partner, a designation that makes us exceedingly proud!

See https://www.nathab.com/south-america/amazon-river-cruise/dates-fees for the latest pricing details.

Included

Trip price includes: Accommodations aboard our private luxury Amazon ship, services of Nat Hab's professional Expedition Leader(s), local guides and boat crew, all meals from breakfast on Day 2 through lunch on final day, local beer and house wine with lunch and dinner on board, some gratuities, airport transfers on Day 1 and final day, room at the Lima airport hotel on first and final days (may also be used for overnight stay free of charge), all activities and entrance fees, all taxes, permits and service fees.

Not Included

Travel to and from the start and end point of your trip, some alcoholic beverages, some gratuities, passport and visa fees (if any), optional activities, items of a personal nature (phone calls, laundry, etc.), airline baggage fees, airport and departure taxes (if any), required medical evacuation insurance, optional travel protection insurance.

Internal air: All flights within the itinerary (this will be listed separately on our invoicing).

Important Information About This Trip

This trip spends a full week exploring the Pacaya Samiria National Reserve, the largest protected area in Peru at 8,000 square miles. Located at the headwaters of the Amazon River where the two major tributaries meet to form the mighty main river, the remote region is home to some of the densest populations of wildlife in the entire Amazon rainforest, including threatened

Ready to Book? Call an Adventure Specialist at 800-543-8917

or endangered species such as pink river dolphin, blue-and-yellow macaw, owl monkey and three-toed sloth. Few Amazon expeditions offer this much time or depth in the reserve.

Please Note: *This itinerary is meant to be a guideline. Activities may vary at different times of year according to water level and conditions.*

Mandatory Insurance

Since the areas we travel to are remote and wild (that's why we go there!), we require that all guests have, at minimum, medical evacuation insurance for this program. This is for the safety of all guests. We require that your chosen independent insurance plan includes at least $250,000 in medical evacuation coverage.

To protect your investment and to provide peace of mind while you travel, we also strongly recommend purchasing comprehensive travel insurance. Plans may cover everything from medical treatment to trip cancellations and delays and lost luggage. Please contact our office if you would like more information about the medical evacuation and comprehensive travel insurance policies we offer by calling 800-543-8917.

Getting There & Getting Home

This trip begins and ends in Lima. Because this is a long international journey with significant travel time, **we recommend that you arrive the night before Day 1** to rest from your travels and begin the trip refreshed. For guests who come in early, recommended hotels will be included in your pre-departure materials.

If you plan to arrive on Day 1, you may arrive in Lima at any time, as there are no scheduled activities until later in the itinerary.

You may depart Lima any time after 8 pm on the final day, and most international flights typically leave late in the evening.

Our Natural Habitat Adventures Travel Desk can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights' accommodations, you may occasionally find special web rates or lower fares online.
