Golden Circle Tours

Reykjavik Excursions offer a wide selection of guided Golden Circle tours for those who want to see the best of Iceland.

The well known Golden Circle mainly consists of 3 sites: Geysir geothermal area where hot springs are in abundance, geysers explode and pools of mud bubble, Gullfoss, the queen of Icelandic waterfalls and last but not least Þingvellir National Park, where Iceland's most important historical events have taken place as well as being a designated UNESCO World Heritage Site.

For those who want to add something different to the Golden Circle tour; a one-hour snowmobile ride on Langjökull glacier, a one-hour ATV ride, horse riding or steam bathing at Laugarvatn Fontana are ideal additions to a perfect day.

A must do when in Iceland!

Northern Lights Tours

There is nothing more breathtaking than seeing the northern lights dancing in the sky.

The northern lights are caused by the interaction of particles from the sun with the upper atmosphere near the North Pole. That creates this wonderful light effect, known as the aurora borealis (northern lights).

The northern lights are a spectacular natural phenomenon, often seen dancing around in fantastic colours across the Icelandic Arctic sky.

A sight not to be missed!

If you don't see any lights you can join our RE62 Northern Lights Tour for free.

These tours depend on weather and sightings are not guaranteed. Indicated return times can vary.

The locations visited differ from tour to tour since we go where the best conditions are to see the northern lights each evening.
