D2	5	First Resources	PT Ketapang Agro Lestari	PT Ketapang Agro Lestari	Indirect via third party traders	Sime Darby	Dec-19	Mighty Earth Rapid Response Report 21	Deforestation - 8ha	Dec-21	PT Ketapang Hijau Lestari - High Carbon Stock assessment at PT Ketapang Hijau Lestari was completed in 2017 by a registered organization with HCSA. Based on third-party trader's monitoring, there was no land clearing at HCS area identified. FAP Agri has also published their NDPE policy in October 2019. No longer in Sime Darby's Supply Chain.	CLOSED CASE
D4	1	Wilmar International Limited	-	-	Indirect via third party traders	Wilmar	Oct-18	Sept 2018 - Greenpeace - The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Nov-18	Wilmar published its two-year progress report covering: Olam has engaged with Wilmar and part of that engagement includes meeting with Wilmar on 11th Oct 2018 Key updates are: Oct 2018 1. Wilmar will develop a system that will accurately monitor land use change across countries we source palm oil from. The system will use near real-time satellite monitoring that will provide independent verification of compliance with their NDPE policy. 2. The output of the monitoring will be shared independently 3. Monitoring will cover both areas that supply to Wilmar and areas linked to its suppliers. 4. Timeline of action is available here 1. Wilmar will develop a system that will accurately monitor land use change across countries we source palm oil from. The system will use near real-time satellite monitoring that will provide independent verification of compliance with their NDPE policy. 2. The output of the monitoring will be shared independently 3. Monitoring will cover both areas that supply to Wilmar and areas linked to its suppliers.	CLOSED CASE
D4	2	Wilmar International Limited	-	-	Indirect via third party traders	Wilmar	Oct-18	Sept 2018 - Greenpeace - The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Nov-18	Wilmar has issued a joint statement with Aid Environment as well as supported by Unilever and Mondelez on the following: • Starting Jan 2019, Wilmar will implement a "Suspend then engage" procedure on the basis of verified proof. • Since May 2018, group level maps has been a condition for trade for all new suppliers. These maps will be uploaded to Aidenvironment supplier group mapping platform • A "Reengagement Protocol" will be published specifying the time-bound process to engage suppliers that have been suspended, including the terms and conditions to resume sourcing. Full details on the action plan is available - here	CLOSED CASE
D4	3	Wilmar International Limited	-	-	Indirect via third party traders	Wilmar	Oct-18	Sept 2018 - Greenpeace - The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Dec-18	Wilmar continues to implement its action plan as well as monitoring.	CLOSED CASE
D4	4	Wilmar International Limited	-	-	Indirect via third party traders	Wilmar	Oct-18	Sept 2018 - Greenpeace - The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Oct-19	Outspan Malaysia continue to monitor the implementation of its action plan. In addition, they have asked Wilmar to apply its NDPE Policy to companies which are possibly clearing for non-palm related as long at the company is a supplier to Wilmar. Direct supplies from Wilmar to Outspan Malaysia are to be monitored.	CLOSED CASE
D4	5	Wilmar International Limited	-	-	Indirect via third party traders	Wilmar/Sime Darby/BLC/Fuji Oil Europe	Oct-18	Sept 2018 - Greenpeace - The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Jul-22	Sime Darby/BLC/Fuji Oil Europe - have connections within their supply chain. Wilmar Grievance List shows 2 Cases under Greenpeace, The Final Countdown Report. Both ases are in Case Closed Status: Eastern Eden Estate, a subsidiary of Jaya Tiasa re: deforesting allegations - Wilmar started its engagement with Jaya Tiasa on the adoption of NDPE Policy since late 2015. In early 2016, the supplier had publiclly committed to adhere to Wilmar's NDPE Policy. When the allegation of non-compliance was brought to their attention, and immediately reached out to Jaya Tiasa for clarification. The supplier clarified that they remain fully committed to the NDPE policy, and there were no new land clearing activities. With reference to the Greenpeace report, the clearance happened outside their concession area. Jaya Tiasa has also shared their group wide concession map with Wilmar for ongoing monitoring. Gilford Ltd - a subsidiary of Rimbunan Hijau (PNG) Group - Wilmar has initiated engagement with Rimbunan Hijau since early September 2018 to seek clarification on allegation of deforestation at their Papua New Guinea site. Wilmar does not source from Gilford Ltd but their parent company Rimbunan Hijau is associated with suppliers in Malaysia. A meeting was held on 7 September 2018 to further discuss the issues. On 20 September 2018, Gilford Ltd has subsequently provided a written commitment in adhering to the NDPE policy and committed to moratorium of land clearing prior to all necessary assessments, including the HCV and HCS assessment. Gilford has also shared their group wide concession maps with Wilmar for ongoing monitoring.	CLOSED CASE

D14	1	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Jul-20	Sime Darby Plantation Berhad stated their intention to engage with Liberty Shared.	CLOSED CASE

Overall, attempts have been made by SD to engage with the CBP, they have not had the opportunity to provide an explanation and neither has SDP been provided details of the allegation by LS	CLOSED CASE
D14	3	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Dec-20	SD has appointed audit firm PricewaterhouseCoopers (PwC) and an independent international non-governmental organisation (NGO) specialising in migrant worker rights to further strengthen its human rights compliance.	CLOSED CASE
D14	4	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Mar-21	SD has appointed Impactt Ltd to conduct a third party labour assessment based on the ILO's 11 indicators of force labour of its Malaysian plantations. The assessment is expected to be completed by May 2021. They have also established an Expert Stakeholder Human Rights Assessment Commission. In addition, SD has commenced legal proceedings for discovery of critical information against Duncan Jepson on 9 March 2021 to obtain important information pertaining to a complaint filed by Jepson with the Securities Commission of Malaysia, in which he alleged wrongful disclosures in SDP's Sustainability Report 2019. Jepson is and was at all material times, the managing director of Liberty Shared a non governmental organisation (NGO)	CLOSED CASE
D14	5	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Jul-21	SD has updated us that the assessments have been delayed due to Covid.	CLOSED CASE
D14	6	Sime Darby	-	-	Direct /Indirect	ISF	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Sep-21	ISF - The evaluation by Impactt Ltd was expected to be completed in June 2021. On 15th July 2021, SDP has dissolved the Commission after the resignation of Andy Hall and Professor Justine Nolan. Impactt Ltd, however, will commit to completing the assessment but progress has been delayed due to continuing Covid-19 restrictions. Internal operations to address the issue remain active as SDP is using their Human Rights Charter and ILO indicators to look into several areas of potential improvement. ISF continues to engage SDP for the latest updates and will be monitoring the case closely.	CLOSED CASE

D15	2	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://apnews.com/article/palm-oil-abuse-investigation-cosmetics-2a209d60c42bf0e8fcc6f8ea6daa11c7	AP news alleged rape & abuse/Liberty Shared	Jan-21	Jan-21: Allegations of human right and labor abuses at FGV Holdings Berhad Plantations ("FGV") were first reported by the Wall Street Journal in 2015. This led to the Roundtable on Sustainable Palm Oil ("RSPO") initiating a legal and operational audit of FGV's recruitment and employment processes in 2018, and ultimately two petitions being filed in 2019 to U.S. Customs and Border Protection ("CBP") requesting the exclusion of FGV palm oil and palm oil products produced with forced and child labor pursuant to 19 U.S.C. 1307. BLC is committed to promoting healthy, safe, and legal working conditions. This includes prohibiting forced labor in any form; specifically, prison labor, indentured labor and bonded labor. BLC hires employees who meet local minimum-age requirements. In addition to meeting Bunge's global standards, BLC operations must comply with all applicable local laws, rules and regulations. Because of BLC's strong stance against forced labor, BLC stopped sourcing palm oil and palm oil products from FGV, and for our indirect supply BLC ensured that our suppliers are likewise following this prohibition. BLC will continue to engage with FGV over the allegations and monitor progress for remediation. Only once FGV can demonstrate that the allegations are properly addressed and the US CBP has lifted the WRO, BLC will re-assess its position on FGV.	CLOSED CASE

CLOSED CASE

D15	4	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://apnews.com/article/palm-oil-abuse-investigation-cosmetics-2a209d60c42bf0e8fcc6f8ea6daa11c7	AP news alleged rape & abuse/Liberty Shared	Jul-23	July 23 Bunge's Grievance List update stated - Tier 1 supplier reports that they have regular and on-going engagements with FGV and on November 2019, FGV announced their affiliation with Fair Labor Association (FLA) to develop a comprehensive social compliance and remediation programme in accordance with FLA's code of conduct which is based on ILO Standards and internationally accepted Good Labor Practices. FGV published an Action Plan following 10 FLA principles. - The first Progress update dated September 2020 is available on BLC Grievance List - The second Progress updated is available on BLC Grievance List - The third Progress update is available on BLC Grievance List - FGV has updated their sustainability policy and released a specific commitment on Respecting Human Rights - FGV has also made public the procedures for responsible recruitment and Supplier Code of Conduct FGV informed Bunge's Tier 1 supplier that they have formed a steering Committee consisting of Senior Management to monitor and oversee the resolution process of US CBP WRO, and their appointment of ELEVATE Ltd, a leading labor rights organization to assess and audit FGV's operations against the compliance of 11 ILO Indicators of Forced Labor. FGV informed stakeholders that ELEVATE has completed the site assessment of its operations in November 2022 and that they are in the midst of developing an implementing a remediation plan based on the outcomes of ELEVATE's assessment. The implementation of remediation will be verified by ELEVATE. In parallel, BLC also engaged FGV directly to seek progress update on the enhanced sustainability governance and ethical & fee free recruitment practices implemented, including measures taken to identify critical control points throughout the recruitment process. On remediation of worker paid fees, FGV is committed to remediate such fees to both, current and former workers, that did not benefit	CLOSED CASE
D15	5	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://apnews.com/article/palm-oil-abuse-investigation-cosmetics-2a209d60c42bf0e8fcc6f8ea6daa11c7	AP news alleged rape & abuse/Liberty Shared	Dec-23	Dec-23: Bunges Grievance List states - FGV has successfully completed the third & final phase of its recruitment fees reimbursement on September 2023. A total of RM 72.2 million has been disbursed to almost 20,000 migrant workers employed by FGV. All 3 phases of reimbursement is currently being verified by ELEVATE as the independent firm appointed by FGV. Additionally, ELEVATE will also verify the implementation of other aspects of FGV's overall commitments to combat and mitigate Forced Labor in its operations, aligned with the ILO's 11 indicators on Forced Labor- this will take place in the first quarter of 2024, following which FGV will make its submission to the USCBP in June 2024. (No further updates as at June 2024).	CLOSED CASE
D15	6	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fgvholdings.com/press_release/fgv-submits-petition-to-us-cbp-to-modify-wro/?pagen=1	AP news alleged rape & abuse/Liberty Shared	Jul-24	Bunges Grievance List states that as of July 2024: FGV released a statement informing stakeholders that it has submitted its petition to the United States Customs and Border Protection (USCBP) for the modification of the Withhold Release Order (WRO). (No further updates as at August 2024).	CLOSED CASE
D15	7	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fgvholdings.com/press_release/fgv-submits-petition-to-us-cbp-to-modify-wro/?pagen=1	AP news alleged rape & abuse/Liberty Shared	Sep-24	Bunges Grievance List States - Following FGV's announcement in July on the submission of FGV's petition to US CBP to modify the WRO, Bunge commenced direct engagement with FGV to better understand the outcome of the independent verification assessment of LRQA and the various processes it has undergone towards instituting enhancements in eradicating forced labor in its operations, overall improved governance and monitoring of the implementation of LRQA's recommendations aligned with the 11 ILO indicators on Forced Labor. Bunge observed several good practices that FGV has adopted that are aligned with the ILO standards, including the process and methodology towards reimbursement of recruitment fees, examples of how FGV implements the employer pays principle in practice and a high-level overview of the capacity building programmes and safeguards it has deployed at these migration corridors. Bunge will continue to monitor the announcement from US CBP of any changes to the WRO modification against FGV and until such changes, FGV will not enter our flows into North America. We will continue to maintain engagement for progress with FGV on a regular basis. (no further updates as at February 2025).	CLOSED CASE
D15	8	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fgvholdings.com/press_release/fgv-submits-petition-to-us-cbp-to-modify-wro/?pagen=1	AP news alleged rape & abuse/Liberty Shared	Mar-25	Bunges Grievance List States - In November 2024, Bunge participated in FGV's general stakeholder engagement session where the below efforts were highlighted and FGV welcomed stakeholders' input. • Total sum of recruitment fees identified for remediation and the progress of the remediation, involving active and former workers. • Positive impacts on recently recruited workers that undergone FGV enhanced ethical and fee free recruitment. • FGV's overall compliance to the ILO indicators on Forced Labor, enhancements and safeguards introduced in child protection initiatives, grievance management and a wide array of amenities upgrades, including their ongoing effort to upgrading worker welfare and accommodation, providing satellite internet connectivity. In February 2025, FGV publicly reported that it is actively engaging US Customs and Border Protection (US CBP), including promptly responding to US CBP's additional request for clarification on Malaysian legislation governing overtime working hours. FGV is reported to have provided the clarifications and resubmitted its petition to the US CBP on February 15th. Separately, Bunge was made aware that FGV has engaged with the human rights activist which alleged several claims regarding to the treatment of migrant workers, in particular to work permit renewals and inability to return to their home country: • FGV has provided its clarification and rebuttal, in addition to responding to Business and Human Rights Resource Centre's query, noting that the delays in work permit renewal was regrettable but beyond FGV's control, due to a backlog in the government's Immigration Department's processing of applications and the issuance of check-out memos. • Following this allegation, FGV conducted an internal investigation and subsequently engaged with the Malaysian Immigration Department, requesting urgent and expedited processing of the remaining	CLOSED CASE
D15	9	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fgvholdings.com/press_release/fgv-submits-petition-to-us-cbp-to-modify-wro/?pagen=1	AP news alleged rape & abuse/Liberty Shared	Apr-25	Bunge's Grievance List states: Bunge has completed its review of FGV's ongoing efforts and progress towards eliminating and combating forced labor through the various enhancements made in ethical and fee free recruitment, remediation of recruitment fees and strengthened governance of its overall human rights and decent work agenda enshrined in its Group Sustainability Policy. Whilst FGV is currently prohibited to enter Bunge's North American supply chain in light of the Withhold Release Order, exposure to FGV may be present in other supply chains that does not correlate with North America. Bunge will continue to monitor FGV's actions and petition progress with the US CBP and hold FGV accountable for any actions that goes contrary to Bunge's Human Rights commitments.	CLOSED CASE

Jul-21	Sime Darby's Grievance Register states as at 22 November 2021 - IOI updated us that the planned independent assessment was completed in October 2021. All forced labour indicators, including allegations raised by Finnwatch have been assessed. A draft interim report has also been shared with IOI. Additionally, in consultation with their Sustainability Advisory Panel (SAP), IOI is currently finalising an action plan based on key outcomes from the Sustainability Consultation Forum (SCF). On 13 January 2022, IOI published a further update on outcomes and action plans arising from the Sustainability Consultation Forum, which includes active engagement with relevant stakeholders to develop solutions for responsible recruitment practices. IOI is also participating in the National Action Plan on Forced Labour (NAPFL) 2021-2025 and setting up a working group to find the best approach to legalise undocumented workers in Sabah. (No further updates as at end of April 2024). Not within the **ofi** supply chain since June 2024.	CLOSED CASE

D17	6	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	Migrant workers' rights in oil palm estates in Malaysia (finnwatch.org)	Finnwatch - Migrant Workers' Rights in Oil Palm Estates in Malaysia CASE: IOI Group, Mekassar	Jun-21	Fuji Oil Group Grievance List states - Following the allegations made by Finnwatch, IOI has reached out to the respective parties and conducted a formal investigation to the matter. Some of these actions include: 1. Investigation into the mistreatment of the labour workers - of which IOI has taken disciplinary action against the supervisor and a formal apology is issued to the workers. 2. Investigation into lack of issuance of PPE - of which IOI has found to be well documented and issued regulary in accordance with IOI's operating proceedure. 3. Investigation into the illegal fees collected by a named person - to which IOI has suspended the recruitment agency and had reported the findings to the authority and the Indian Embassy for futher formal investigation. 4. Investigation into the living situation of the labour workers - of which IOI has action plans to conduct rennovation, new guidelines for providing basic amenities to workers at all estates and formed guidelines on "worker's work verfication" to enable to verify their working hours.	CLOSED CASE

No land clearing in the same period from PT Uniseraya	Dec-21	PT SMN came into Sime Darby's supply chain via third party traders with relevant NDPE policies and procedures. Current updates on their progress include: -PT SMN has denied allegations of deforestation in national parks. -Upon investigation insufficient evidence was found to substantiate the allegations. -It was confirmed that PT SMN's sources of FFB does not include concessions indicated by Eyes on the Forest. -100% traceability to plantation for supplies is expected to be achieved by end July 2019. This will allow them to demonstrate that supplies do not originate from Tesso Nilo and Bukit Tigapuluh national parks. Update February 2020: -PT SMN have achieved 100% traceability to plantations to prove they are not sourcing FFB from illegal sources. Reinstated from Closed Cases.	CLOSED CASE

ID1	21	RGE Royal Golden Eagle/ Apical	PT Inti Indosawit Subur Ukui 1 and 2 (PT IISU 1 and 2) - Asian Agri PT Inti Indosawit Subur Muara Bulian Mill	PT Inti Indosawit Subur Ukui 1 and 2 (PT IISU 1 and 2) - Asian Agri PT Inti Indosawit Subur Muara Bulian Mill	Indirect via third party traders	Bunge	May-18	(Eyes on the Forest - Enough is Enough 2015 Report) Allegations: • Illegal FFB sourced from Tesso Nilo National Park ("TNNP") • Deforestation on peatlands with moderate to deep peat. • Landsat 8 images dated 19 Oct 2017 indicated land clearing in PT Triomas during Aug 2016 – Oct 2017 totalling 110 ha. No land clearing in the same period from PT Uniseraya		Mar-23	Mar-23 Bunge updated its Grievance Register, and states: Asian Agri (a subisdiary of RGE) communicated through their webpage that was contacted by Eyes on the Forest on 21 May 2018 to seek clarification of its finding. In response to the letter, Asian Agri had sent a letter to EoF on 25 May 2018 to provide clarification and evidence to the finding of EoF that PT Inti Indosawit Subur (Ukui 1) received 1.5 ton of FFB from TNTN on 17 June 2017. Asian Agri had immediately conducted a site visit on 23 May 2018 and traced the reported supply chain to gather insights as well as reviewed the 17 June 2017 supply report to confirm the data. Asian Agri have taken measures since then by suspending the Delivery Order (DO) holder of the reported truck on 24 May 2018. On Asian Agri's Grievance List, this cased has been listed as closed. Bunges Grievance Register further states 'Asian Agri is committed to producing sustainable and responsible palm oil. The company have a system in place to ensure that procurement processes and parties involved in their supply chain adhere to their sustainability policy and traceability commitments. They have a Traceability MasterDatabase of their entire third party supply chain which enables them to monitor the source of incoming supply. The farmers sign a statement with them that bind FFB suppliers to source only from legal areas and to prevent the inclusion of illegal FFBs in their supply to their mills. Asian Agri achieved 100% FFB traceability to plantation since 2017'.	CLOSED CASE

ID28	1	Bumitama Group	PT Andalan Sukses Makmur	PT Andalan Sukses Makmur	Indirect via third party traders	Wimar	Jan-20	Mighty Earth Rapid Response Report 23	Deforestation - 129ha	Mar-20	Wilmar stated that Bumitama conducted ground checking and verified that this is not a result of land clearing but a fire scar from forest fires that occurred in the area in September 2019. These areas are owned by the local community and thus enclaved from the management of the company are a part of the set aside areas of 2,500 hectares (about 36% of PT ASMR's permit) that were excluded from the company plantation development plans and were set-aside for conservation based on the rapid HCS assessment and peat delineation study conducted in April 2014 (12 September 2014 announcement). The fires were tackled by Bumitama's fire-response personnel. Two teams of 24 men were dispatched to the site,. However, the forest terrain, lack of access roads and peat soil made it very difficult extinguish. Once put out, both incidents were recorded and reported accordingly to relevant local authorities, as well as to the RSPO under the hotspot monitoring scheme. Direct purchasing from Wilmar by Olam Edible Oils and not **ofi** Group.	CLOSED CASE

ID76	2	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Mar-21	We are waiting for confirmation that the development is not HCS forest	CLOSED CASE
ID76	3	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Dec-21	SIPEF notes that from the evidence provided, none of the reported cleared areas overlap with either the HCV or any of the HCS areas. SIPEF also informed ourthird party trader that the area cleared is covered by rubber vegetation. Status of the PT AMR peer review (area I & II) has been completed and the result is already available publicly at the HCSA website.	CLOSED CASE
ID76	4	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby/Bunge	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Jan-22	Wilmar Reported Mar-21: Global Witness report on SIPEF's PT Tolan Tiga Indonesia land dispute remains committed to legal compliance and believes that the HGU represents the highest form of legal authority for land use. The company has the legal right to use this land as per its HGU, which has been renewed twice since the original issuance.Jan-21:RSPO NPP for PT AMR was concluded in August 2014, at a time where integrated HCV-HCS assessments was not a requirement. Standalone HCSA assessment for PT AMR was conducted after the ratification of the current RSPO standard, which is still under review by HCSA secretariat. The RSPO No Deforestation Task Force has issued a guidance document "Interpretation of Indicator 7.12.2 and Annex 5" which guides growers with the transition to integrated HCV-HCS assessment. As per guidance in Annex 5, clearing is allowed to proceed in areas that are identified as "Low Risk" within a Land Use Risk Identification (LURI), in parallel where stand alone HCSA assessment is conducted per the HCSA methodology. PT AMR's LURI was conducted by an independent assessor and accepted by RSPO in April 2020. The clearing detected by Mighty Earth are all within areas identified as "Low Risk' as per RSPO approved LURI. None of the areas identified for conservation and HCS within PT AMR has been cleared. SIPEF remains committed to its No Deforestation Commitments. The RSPO Annex 5 guidance was followed to ensure no HCS forest would be cleared in the ongoing development.	CLOSED CASE
ID76	5	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby/Bunge	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Jan-22	Sime Darby PT Agro Muara Rupit is not specifically in our supply chain, however other mills affiliated with SIPEF are. Supplies from SIPEF came into our supply chain via third party traders who have NDPE policies and commitments. SIPEF responded to the allegations, stating that the development detcetd by Mighty Earth has not undergone an Integrated HCV-HCS Assessment given it relates to a NPP of 2014 and it was not required at the time. A Land Use Risk Identification (LURI) was conducted by an independent assessor and accepted by the RSPO in April 2020. The LURI shows that all of the clearings identified by Mighty Earth are wholly within the area identified as 'Low Risk'.	CLOSED CASE

ofi3	1	The Capitol Group	PT MPHS	Medco Papua Hijau Selaras	Indirect via third party traders	Fuji Oil Europe	Mar-16	Mighty Earth Rapid Response 27, 28 & 29	286, 35.08, 31 & 245 ha deforestation	Apr-22	As according to their direct supplier, a HCV-HCS has already been conducted by qualified assessor, where the assessment was finalised in February 2019. When the allegation of deforestation was brought to Medco Papua Hijau Selaras's (MPHS) attention in March 2020, the company has planned for a field verification to investigate the matter. However, due to the restrictive movement imposed by the government of Indonesia to curb the spread of covid-19, MPHS's key personnel was stranded at the estates and unable to proceed with the field investigation. When the situation became conducive for travelling in June 2020, MPHS has immediately conducted the field verification and the assessment report is currently underway. MPHS has committed to peer review and will publish its HCS/HCV report on the HCV Network website once it is ready. From September 2020 onwards, they have observed strict moratorium. Meanwhile, PT MPHS committed to rehabilitate the affected areas, as identified in the HCV and HCS assessment reports. Working together with Balai Pengawas Daerah Aliran Sungai (BPDAS) since November 2020, PT MPHS also committed to plant 30,000 trees as part of their rehabilitation plan. Still pending completion of HCSA peer review, estimated by Q2 2021. Sep-21: There were some delays in the finalisation of integrated reports due to worsening of COVID-19 pandemic, where it was finally been submitted to the HCVRN on 11 July 2021. In the meantime, they have also prepared management plans for HCV/HCS areas, therefore protecting these areas while preventing similar incidences from reoccurring. Their direct supplier will continue to monitor and engage PT MPHS closely, while continuing to guide them through the peer review process as well as in developing a rehabilitation plan. We have reached out to our Tier 1 Supplier and are awaiting further information on their investigations.	CLOSED CASE

ofi16	2	Fangiono Agro Plantation	Pt Karangjuang Hijau Lestari (PT KHL) & Pt Bulungan Hijau Perkasa (PT BHP). Shadow Company links with First Resources	Karangjuang Hijau Lestari	Indirect via third party traders	Bunge	Jan-23	https://www.youtube.com/watch?v=h5S75NCcYXcwhsch	Forest Peoples Programme Report - shows allegations of long standing land conflict & human rights violations	Feb-23	Feb - 23: Bunge have reported that their Tier 1 supplier would rely on RSPO complaints system investigations into group ownership links between First Resources and Fangiono Agro Plantation (FAP) to avoid duplication of efforts. Their Tier 1 supplier expects FAP Agri to comply with their NDPE policy. They indicated that PT Karangjuang Hijau Lestari (KHL) has provided evidence that it reached an agreement in 2015 to develop plasma scheme for the affected village (including Desa Bebanas and Desa Sujau) where it overlapped with the company's HGU area. In 2011, the community of Desa Sujau received monetary compensation to release rights over the land and to nullify the previous agreement for plasma development. PT KHL and Desa Sujau reached a mutually agreed compensation sum and the payment was given to the nominated community representatives. The community of Desa Bebanas requested PT KHL to provide financial assistance as part of the social responsibility in addition to the compensation of land areas belong to Desa Bebanas and plasma development, a mutually agreed payment was given to the nominated community representatives. PT KHL has evidence to substantiate this statement. Community members continued to occupy cultivated areas within KHL's HGU area and illegally harvest FFB. Various efforts to engage community have been undertaken but were unsuccessful and police reports were filed as the last resort. In a letter dated Jan 7th 2021, the Customary Leader gave a mandate to PT KHL to restrict access to the concession, and to refer to local laws for further action if necessary. The Bebanas community have sold the plasma area to other individual landowners. PT KHL have submitted a letter February 16th 2021 to the Regional People's Representative Council (DPRD) to notify them of this situation. PT KHL has shared evidence with Bunge's Trading Partner related to the agreement with the community, land survey and compensation payment. The individuals referred in the FPP report, from Desa Sujau, have illegally encroached and worked the lands within PT KHL's HGU. In order to resolve the issue, agreements have been reached to compensate for the costs of land development with the exception of those found guilty of illegally harvesting FFB. With regards to the environmental issues reported by FFP, reference was made to the 2015 KOMNAS HAM report that referred to PT Bulungan Hijau Perkasa (BHP), not PT KHL. FAP has also responded that PT BHP does not have environmental or legality issues as alleged in the report. (No further updates as at July 2023). Not within **ofi** supply chain since June 2024.	CLOSED CASE

ofi16	3	Fangiono Agro Plantation	Pt Karangjuang Hijau Lestari (PT KHL) & Pt Bulungan Hijau Perkasa (PT BHP). Shadow Company links with First Resources	Karangjuang Hijau Lestari	Indirect via third party traders	Bunge	Jan-23	https://www.youtube.com/watch?v=h5S75NCcYXcwhich	Forest Peoples Programme Report - shows allegations of long standing land conflict & human rights violations	Aug-23	Bunge's Grievance List update states that in May 2023, Forest Peoples Programme (FPP) outlined in a letter areas of concerns from responses of Fangiono Agro Plantation (FAP) and other involved companies, to the matter between FAP (PT Karangjuang Hijau Lestari, PT KHL and PT Bulungan Hijau Perkasa, PT BHP) and the Dayak Agabag. In this letter, it also requested PT KHL to share copies of the plasma agreements with the communities of Sujau and Bebenas. Their Tier 1 supplier initiated engagement with FAP to seek clarification on the issues raised by FPP. FAP has provided the information as follows: * PT KHL & PT BHP Obtained a Location Permit in 1999. In 2003, using the FPIC process, they carried out a series of mapping with the local communities and an agreement was reached in 2004 on final concession boundries. However, since 2008, the people of Sujau, Bebanas, and Melasu Baru started moving out of their traditional settlements, which originally were situated outside of PT KHL's HGU area, into the HGU area. This was due the development of the Trans-Kalimantan Road network that cuts through PT KHL's HGU. On the matter related to Tetaban village, FAP has also clarified that the Aki Bangkangan is a cultural site located in the cemetery area near Tetaban village that is outside of the FAP's HGU area. FAP has indicated that it does not have any intention to encroach or disturb the site in any way. The area concerned is situated within the concession of PT Adindo Hutani Lestari, which is an HTI company. * The agreement on the Plasma scheme is entered into by the Company and the plasma farmer cooperative. The selection of the recipients of plasma is determined through musyawarah (consensus) by the community.Once agreed, the list of plasma recipients is proposed in a Letter of Prospective Farmers for Land Candidates (Calon Petani Calon Lahan) to be recognized by District Head (Bupati). Legally, the process related to plasma scheme has to be managed by a cooperative, representing plasma farmers. The agreement document was copied to the cooperative. * The plasma agreement document was signed in two copies. Both FAP (PT KHL and PT BHP) and the cooperative have a copy of plasma agreement document. FAP stated that if the community wants to obtain a copy of the plasma agreement, they can do so by requesting from cooperative's management. PT KHL and PT BHP reaffirmed its openness to discussions with the community and cooperative's management. *PT KHL is operating legally as they obtained land use permit (HGU) since 2004. As part of the HGU legality process, PT KHL has provided compensation for land acquisition. Furthermore, PT KHL will not force	CLOSED CASE

Shadow Company links with First Resources	Karangjuang Hijau Lestari	Indirect via third party traders	Bunge	Jan-23	https://www.youtube.com/watch?v=h5S75NCcYXcwhich	Forest Peoples Programme Report - shows allegations of long standing land conflict & human rights violations	Feb-25	Bunge's Grievance List states: Fangiono Agro Plantation (FAP) is not a direct supplier to Bunge; however, as a matter of interest towards NDPE commitments of our indirect supply chain, Bunge studied FAP's corporate annual and sustainability reports and confirms that it does not have any involvement in Sugar Cane cultivation in Papua nor are the companies alleged by Pusaka Bentala Rakyat Foundation linked to FAP in any bourse listing as an affiliate nor a direct subsidiary. Bunge considers this particular allegation unfounded and ineligible as a grievance. (No further updates as at April 2025). Not within the **ofi** supply chain since June 2024.	CLOSED CASE
ofi17	1	CCM Group (PT Central Cipta Murdaya)	Pt Sebuku Inti Plantation/Hardaya Inti Plantations	-	Indirect via third party traders	Bunge	Feb-23	https://www.mightyearth.org/wp-content/uploads/RR-Report-41_final_a.pdf	Mighty Earth Report 41 shows satellite imagery of forest loss/clearance of 32 ha between Dec 21 and Nov 22	Mar-23	March 2023 - Bunge updated their Grievance Register, and stated that 'Inside the concession PT Sebuku Inti Plantation, forest clearing was detected in 974 ha between 2016 and 2022'. Bunges Tier 1 Supplier concluded its investigation and confirmed that the land clearing happened at shrub area. CCM Group has submitted all relevant information including field investigation, report consists of site photos of the vegetation condition of the area. The case is considered close as there's no violation to the NDPE policy.	CLOSED CASE
ofi18	1	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	Mar-23	Indonesian palm oil linked to illegal deforestation, land rights violations (foe.org)	Friends of the Earth US & Indonesia - Allegations re longstanding land rights abuses & environmental & human rights abuses	Mar-23	**ofi** have reached out to Bunge as Astra Agro Lestari have several mills listed in their most recent Mill List. Allegations are from Report dated 23 March 2023 - relating to long standing land rights abuses and environmental destruction in operations undertaken without proper legal permits. The investigation affirms the claims of local farmers, whose complaints trace back to 2005, that some 16,000 acres of their lands have been illegally occupied by three subsidiaries of Astra Agro Lestari. Bunge's last update on this case, in their Grievance Register, was October 22 stating - PT AAL is committed to work towards the resolution of the case and more information related to their action plan will be provided in due course. In the meantime, Bunge's Grievance Register states that they will continue engaging PT AAL and all other relevant stakeholders in working towards resolution of the cases.	CLOSED CASE

ofi18	10	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	44986	Indonesian palm oil linked to illegal deforestation, land rights violations (foe.org)	Friends of the Earth US & Indonesia - Allegations re longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement . The Verification Report.	45536	AAL shared with Bunge that they commit to regularly publish their progress towards implementing the action plan following the independent verification report from EcoNusantara. Please find AAL's first progress update here. AAL informed Bunge that the key in implementation has always been to be inclusive and adhering to the principles of Free, Prior and Informed Consent of the communities, and in consultation with stakeholders within the area of their operation. Furthermore, AAL is still willing to work with interested parties to actively participate in resolving any grievances and their commitments stated in the action plan. EcoNusantara continues to play a key role in facilitating this. Bunge will continue to engage AAL directly and keep track of the milestones and action plan deliverables (no further updates as at October 2024).	CLOSED CASE
ofi18	11	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	44986	Indonesian palm oil linked to illegal deforestation, land rights violations (foe.org)	Friends of the Earth US & Indonesia - Allegations re longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement . The Verification Report.	45597	Bunges Grievance List states - Bunge received direct feedback from AAL on the various allegations asserted by Friends of the Earth's latest article "Lack of Progress". AAL assures stakeholders that the action plan jointly developed with EcoNusantara aims to address all the concerns of stakeholders in the long term and AAL further invites FoE and WALHI to re-commence direct engagement and where possible, third-party mediation. AAL has the interest of the people at heart and recognizes that FPIC is an extensive process which requires full participation from the communities, hence they have planned a series of activities to engage stakeholders surrounding their operations, local CSO, academia and any stakeholder interested to resolve the grievances that have been raised. Despite the claims, AAL asserts that at no point has the company nor AAL employees and its consultants blocked or ordered the exclusion of any part of any community to attend the village meetings. The open invitation was sent by the village heads themselves with no coordination or at the behest of AAL, nor did AAL instructed the village heads to restrict any stakeholder from attending the meeting. AAL categorically denies any allegation that AAL instructed the arrest or criminalization of any community members (no further updates as at December 2024).	CLOSED CASE

ofi22	3	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	ISF	45323	Startling Alert/Earthworm	Land encroachment with land clearing & subsequent new planting.	45352	ISF Grievance List states: Kretam has responded to ISF regarding the satellite reports that one of the alert areas is within a land owned by Kretam while the other alert area is not under Kretam's land title. Kretam has conducted an initial investigation and site visit and identified that a third party had encroached into Kretam's landbank with an occurrence of land clearing and subsequent new planting. Kretam has shared the initial site visit report and upholds their NDPE commitments to responsible sourcing being an RSPO-certified member with Masang Estate also being an RSPO-certified entity. After engaging relevant stakeholders and identifying the responsible party for the encroachment, a meeting was held with all involved parties on 27th March 2024 to discuss the matter. Both parties agree to conduct joint mapping to establish demarcation and clear boundary markings of their respective lands. They also agreed to carry out rehabilitation and planting of selected jungle trees to restore and address the environmental degradation of the alert area. Kretam will conduct monthly surveillance at the alert area to monitor the progress and prevent future encroachments. ISF will also continue to monitor this progress.(No further updates as at April 2025) .	CLOSED CASE
ofi22	4	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	Bunge	45323	Startling Alert/Earthworm	Land encroachment with land clearing & subsequent new planting.	45352	Bunge's Grievance Log updated states: Deforestation alert (in 2 areas) regarding land clearing situated within the proximity of Kretam's Masang estate after 31st December 2015 (cut-off date for NDPE).Kretam responded to Bunge that one of the alert detections falls within land owned by Kretam whilst the other falls outside its legal boundaries. During initial investigation and site visit at the alert area, Kretam identified that a third party had encroached into Kretam's landbank and the occurrence of land clearing and subsequent new planting was not conducted by Kretam. Kretam shared its site visit report with Bunge and re-affirms its commitment to responsible and sustainable oil palm cultivation, as they are members of the RSPO and Masang estate is part of its RSPO IP supply base. Due to the seriousness of the issue, Kretam has escalated this land encroachment as a civil matter to local authorities to investigate and take action. (Updated end of March 2024).	CLOSED CASE
ofi22	5	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	Bunge	45323	Startling Alert/Earthworm	Land encroachment with land clearing & subsequent new planting.	45383	Bunge's Grievance Log states Kretam held a consultative meeting with the smallholders involved in the encroachment of Kretam's land bank and shared these points: * Smallholders that encroached into Kretam's land accepted Kretam's site investigation findings and acknowledged that the land clearing did indeed encroached into Kretam's land bank. * Both parties agreed to conduct participatory mapping for boundary demarcation in April 2024, in order to establish clear boundary markings to prevent future disputes. * Smallholder agreed to cease all further clearings on Kretam's land bank and in parallel, Kretam commits to conduct monthly patrolling and surveillance to monitor progress and prevent further encroachment. * Lastly, Kretam commits to rehabilitate the areas cleared by the smallholder with selected native tree speices, in consultation with stakeholders by Q3 2024. (No further updates as at April 2025). Not within the **ofi** supply chain since June 2024.	CLOSED CASE

ofi22	6	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	ISF	45323	Startling Alert/Earthworm	Land encroachment with land clearing & subsequent new planting.	45383	ISF Grievance List states: In April 2024, the relevant party consisting of smallholders acknowledged encroaching on Kretam's land following site investigations and agreed to halt further clearing activities. Both parties have conducted participatory mapping in April 2024 to clearly demarcate boundaries and avoid future conflicts. Kretam will conduct monthly patrols to monitor the area and prevent further encroachment, and it has committed to rehabilitating the affected land with native tree species, in consultation with stakeholders by Q3 2024.(No further updates as at July 2026) .	CLOSED CASE
ofi22	7	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	ISF	45323	Startling Alert/Earthworm	Land encroachment with land clearing & subsequent new planting.	46204	ISF stated - No further updates since their rehabilitation plan, but we continued to monitor their progress via mutual stakeholders on the case. ISF has not sourced from Kretam or its mills since early 2024.	CLOSED CASE
ofi23	1	Abdi Budi Mulia (ABM Group)	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	45413	MightyearthRR-Report-44	Tree Cover Loss between 2019 - 2023 (11630 ha) & Dec 2023 - April 24 (113 ha) - Deforestation Alerts - Source Global Forest Watch	44713	Abdi Budi Mulia Pks 1 is shown in Q4 2023 Mill list (Group Sumber Tani Harapan), Bunge's Grievance List states that several of their Tier 1 suppliers have engaged with ABM (PT Kalimantan Hamparan Sawit) on the detected deforestation. ABM responded indicating that they are developing the landbank as part of the government mandated plasma obligation for local communities. However since the indications of deforestation continues to occur, several Tier 1 suppliers have deemed ABM to be in non-conformance to Zero Deforestation commitments and have suspended purchase of palm products from ABM until such time when ABM can fulfill and comply with NDPE commitments. Bunge will communicate similar expectations to all Tier 1 suppliers. (No further updates as at July 2024)	CLOSED CASE
ofi23	2	Abdi Budi Mulia (ABM Group)	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	45413	MightyearthRR-Report-44	Tree Cover Loss between 2019 - 2023 (11630 ha) & Dec 2023 - April 24 (113 ha) - Deforestation Alerts - Source Global Forest Watch	45505	Bunge's Grievance List states that some of their tier 1 suppliers have confirmed that they have applied its leverage with Abdi Budi Mulua/Kalimantan Hamparan Sawit to conduct integrated HCV = HCS assessment and a Stop Work Order in place for the plasma development. Bunge will continue to monitor the implementation and NDPE commitment of ABM/KHS via its Tier 1 supplier. (No further updates as at April 2025). Not within the **ofi** supply chain since June 2024.	CLOSED CASE
ofi24	1	Sumber Tani Agung	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	45413	MightyearthRR-Report-44	Tree Cover Loss between 2019 - 2023 (11630 ha) & Dec 2023 - April 24 (113 ha) - Deforestation Alerts - Source Global Forest Watch	45444	Pt Kalimantan Hamparan Sawit is not named in Q4 2023 Mill Listings, however Sumber Tani Agung (STA) is. MERRR 44 suggests that Pt Kalimantan Hamparan Sawit was a 3rd party supplier of STA in 2021/22, assuming trade of FFB. Bunge's Grievance List for Sumber Tani Agung was last updated in June 22 and states - Tier 1 supplier confirmed that they are connected indirectly to PT Sawit Sukses Sejati (PT SSS) through Sumber Tani Agung (STA). They have engaged with their direct supplier who shared that PT SSS was no longer a consistent supplier to STA before the allegation. There were some FFB deliveries to STA in 2022 due to some operational issues, however, STA have ceased sourcing from PT SSS after the ME39 allegation. (no further updates as at August 2024) .	CLOSED CASE
ofi24	2	Sumber Tani Agung	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	45413	MightyearthRR-Report-44	Tree Cover Loss between 2019 - 2023 (11630 ha) & Dec 2023 - April 24 (113 ha) - Deforestation Alerts - Source Global Forest Watch	45505	Bunge state on their grievance list - Mighty Earth report alleges that Sumber Tani Agung (STA) used to buy FFB from Abdi Budi Mulia (ABM)/PT Kalimantan Hamparan Sawit (KHS) in 2022. However, in 2023 ME could not find any evidence from the annual report that it had such a similar transaction with ABM. The 2022 annual report of STA shows that KHS was a third-party supplier of STA in 2021 and 2022. Mighty Earth assumes that this was for the trade in Fresh Fruit Bunches (FFB) of palm oil. STA's 2023 Annual Report shows no recorded sales in 2023. No data is published for the first quarter of 2024. Bunge will continue to monitor the implementation and NDPE commitment of ABM/KHS via its Tier 1 supplier (No further updates as at April 2025). Not within the **ofi** supply chain since June 2024.	CLOSED CASE

Named by Mighty Earth as having connections to NSS. Bunges Grievance List states, NSS Group (PT BSP) shared a map which describes none of their concessions, either the alleged clearance, are inside peatland area. Also, their Tier 1 Supplier reports that PT PMM is committed to the NDPE principles and has previously conducted an integrated HCV + HCS assessment and subsequent developments have always been limited to the "Go" areas determined by the aforementioned assessments. PT PMM also admitted that there was an irregularity found in the recent development detected by Might Earth that resulted in clearing on areas that was not subject under a HCV + HCS assessment. In a letter dated 12th July 2024, PT PMM committed to Bunge's Tier 1 supplier with the below. 1. The Company will immediately stop land clearing in the Company's concession area that has not yet been studied in HCS/HCV. 2. The Company will immediately carry out an (additional) HCS/HCV study in the targeted areas for further development followed by an integrated peer review process by HCVRN. 3. Land development will resume after the (additional) HCS/HCV study is completed for the area that declared as the "Go" area. The company guarantees that it will follow all changes that occur in the peer process review if there is any and necessary. 4. The Company acknowledges the calculation of the Company's responsibility for the aforementioned deforestation and will use it as the basis for a recovery plan program if needed according to the results of the HCS/HCV study." Bunge will continue to monitor PT PMM's compliance through it Tier 1 supplier. (No further updates as at February 2025).	CLOSED CASE

Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). More detail can be consulted in Tier 1 supplier's ineligible grievance listing (case no. 90). (No further updates as at January 2025).	CLOSED CASE

ofi25	5	Double Dynasty	Mutiara Pelita Genaan Plantation Sdn Bhd	-	Indirect via third party traders	Bunge	45505	Mighty Earth RR Report 45	Tree Cover Loss between Jan 23 & June 24 (140 ha)	45536	Bunge's Grievance List states: Regarding allegations of Mighty Earth Rapid Response Report 45, our Tier 1 supplier has shared that land clearing was not carried out by Double Dynasty. The land clearing occurred outside Mutiara Pelita Genaan Plantation's project area. There has been no new land development for by Mutiara Pelita Genaan since 2015. The concession is a "Pelita Project", which is a common private-government-smallholder collaboration in Sarawak, Malaysia. Pelita project involves the State government of Sarawak and it is one of the State's community development project to improve community livelihood. Pelita Project is a three-way JV collaboration, where the private sector holds 60% of the shares, 30% owned by Native Customary Rights (NCR) landowners taking part in the project through the capitalisation of their land. The remaining 10% shares are owned by government agency, Sarawak's Land Custody and Development Authority (LCDA). Generally, the procurement of the NCR lands will be undertaken by Pelita Holdings, a wholly owned subsidiary of LCDA, a statutory body under the Ministry of Rural and Land Development, Sarawak. Majority of the NCR/native lands consist of mix of shifting agricultural land, fruit trees, regenerating forest or secondary forest, subject to the land use history of the native lands. In cases where the NCR landowners refused to take part in the Pelita Project, the company will not conduct any land development on the plot of land as the NCR owners remained as the legal owner of the area. The detected deforestation in the report happened in such area where there was no participation in the Mutiara Pelita Genaan Plantation project by these NCR ownersSpecifically for the case of Mutiara Pelita Genaan Plantation, the approved perimeter for this project is 13,000 ha, but less than 6000 ha was surrendered by NCR landowners for development following the principle of FPIC. The remaining 55% of the land was not developed by Mutiara Pelita Genaan Plantation as the land was not surrendered to them. Double Dynasty is currently suspended. Whilst some Tier 1 suppliers may not have imposed similar suspension on Double Dynasty, Bunge will continue to monitor the progress of Double Dynasty corrective actions plans regarding older allegations, as they are currently making progress on the recovery plan. (No further changes as at January 2025).	CLOSED CASE

The next reporting will be in July. However, they stated - None of these cases are linked to Fuji Oil-Olam supply chain. We are linked through other supply chain such as China. We are currently engaging our tier 1 suppliers for the case verification and update. Then Received this : •Based on the latest received updates, the land was initially cleared back to 2001-2007. It was left with no action until 2024. Believed to be regrowth bushes. •The clearing was stopped and the company is currently conducting HCS.HCV assessment for further consideration and decision. •Pending HCS/HCV result/report.
