How to allocate your right carrier

Routing Order Europe for shipment of goods from Norway to Germany

TRANSPORT ORDER

Transport regulation for goods shipment on behalf of Siemens FCA (free carrier)

For goods purchased by Siemens under the delivery condition FCA 'Free Carrier' (i.e., Siemens bears the transport costs), we kindly request that you observe the following shipping instructions

IN GENERAL:

Please note the following:

- The Siemens order or purchase order number must be indicated in the freight documents without fail.
- Freight charges from the supplier will not be accepted.
- For FCA shipments, it is mandatory to provide the freight forwarder with the ORGID (address identifier) of the ordering Siemens unit.
- The separately indicated SOR (Siemens Organization Reference) of the freight-paying Siemens unit must be provided to the forwarder by the supplier.

These are the requirements for the identification for the Siemens freight release so that the goods shipment can be carried out. If the OrgID and SOR number are not known, they must be requested from the ordering Siemens unit.

Dangerous Goods Shipments:

- For shipments containing dangerous goods, the supplier is obliged to provide the forwarder with the required data (UN-No./Class) for dangerous goods when placing the order.
- The supplier is responsible for the transport packaging, marking, and labeling for the commissioned mode of transport.

ATTENTION:

If the shipment of goods does not originate from the supplier's originally commissioned country, it is mandatory for the supplier to consult the relevant Siemens unit to ensure the use of the nominated transport service provider for that country.

Non-compliance with this transport control for the shipment of goods will result in the ordering Siemens unit invoicing the additional costs incurred for freight and administrative expenses.

How to allocate your shipment to the right transport mode

Characteristics Parcel shipment

- Express/parcel deliveries EOB / time-precise deliveries (before 09:00h, before 10:00 h, before 12:00 h).
- Time delivery with time option needs a release of the ordering Siemens department
- Standard < 70 kg per package: length x width x height 120 cm x 80 cm x 80 cm
- Exceptions > 70 kg per package:- maximum 300 kg per package- length x width x height: 300 cm x 120 cm x 160 cm

Restrictions Parcel	
Length	120 cm
Weight	80 cm
Hight	80 cm
max. weight per package / colli	32 kg

Express/Parcel

Characteristics Groupage

Schenker:

- 1 kg - 3000 kg
- and does not exceed GRP restrictions
- Attention: Unconsolidated shipments < 32 kg have to be processed via the nominated parcel service provider (Characteristics Parcel-Provider)

Schenker:

Groupage restriction per one package / colli	
Length	≤ 240 cm
Width	≤ 180 cm
Hight	≤ 220 cm
Weight	≤ 1200 kg
Max. Volume	≤ 3 cbm
Max. Ldm	2,4 Ldm

Groupage

Characteristics LTL

- Single Shipment ≥ 1000,1 kg, or
- Single Shipment < 1000,1 kg with reloading ban and/or stacking restriction, or
- Individual shipments < 1000.1 kg that exceed the groupage criteria (see Groupage restriction).

LTL

Characteristics FTL

- Standard deliveries for FTL transports = complete loads: max. load per truck type 24000 kg

FTL

How to allocate your carrier from Norway to Germany

Express/Parcel	Groupage	LTL= Less than Truckload	FTL= Full Truck Load
