MAINROAD PASSED WITH HONOURS QUALITY MANAGEMENT SYSTEM'S MONITORING AUDIT

Lisbon, January 7 2013 - Mainroad, a reference player in the national market regarding the Outsourcing of Information Technology (IT), has just obtained an excellent result in the Quality Management System's Monitoring Audit. The audit was performed during the month of December in the Lisbon and Porto offices and in the Norteshopping and Carnaxide Data Centres.

To Raquel Ladeira, Quality Manager in Mainroad, "this renovation confirms our efforts and concerns in terms of bettering ourselves and continually improving our processes and work methods. We're very pleased with the results of this audit, which was conducted by the renowned SGS Portugal and did not identify any non-conformity in the performance of Mainroad's activity. The level of the services offered, client tracking, organization and hygiene of the Data Centres were some of the strongest points highlighted, showing Mainroad's commitment to becoming a partner synonymous of excellence.

###

About Mainroad

Mainroad, a leader in Outsourcing of Information Technology, supports its clients and makes more efficient use of their technological infrastructure. Offering a complete range of services of IT Managed Services, IT Security and Business Continuity, supported by its own redundant Data Centres, Mainroad ensures the maximum availability of systems and networks that support the critical business processes of its clients, and has an end-to-end offer supported by the most recent models, including a complete and robust offer of Cloud Computing arising from a partnership with some of the main players in the market (Fujitsu and SAP, amongst others).

As a result of this specialization, Mainroad is also the right partner for the tailoring of systems, networks and technological processes to the dynamic needs of its clients' businesses, through consultancy services and IT Service Management and IT Performance tools, always in line with the objectives of efficiency and ITIL best practice.
