

Teledermatology Code Quick Reference

MEDICARE

Communicating parties	Communication Method	Example	HCPCS/CPT Code	CPT descriptor	Modifier Needed?	Place Of Service Code
Telecommunication Triage (virtual check-in)						
New/Established patient initiated with the physician or non-physician clinician	Synchronous telecommunication (the virtual encounter can be performed via telephone or other telecommunications device)	The dermatologist triages a patient initiated online, real-time, audio-video, two-way communication to determine if an in-office visit is necessary.	G2012	Brief communication technology-based service e.g., virtual check-in, by a physician or other qualified healthcare professional who can report evaluation and management services, provided to an established patient, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion	95	11
			G2252	11-20 minutes, established patients only	95	11
Non Face-to-Face (virtual)						
Physician or non-physician clinician and new/established patient interaction	Synchronous teledermatology service The virtual encounter must be of an amount and nature that would be sufficient to meet the key components and/or requirements of the same service when rendered via a face-to-face interaction.	Online encounter initiated by a patient using real-time, audio-video, two-way communication with the dermatologist for reassurance regarding a seborrheic keratosis.	99202-99215	Office or other outpatient visit for the evaluation and management of a new or established patient (Virtual visits can also be based on medical decision making or time rather than documentation of history and/or physical exam in the medical record.)	95	11
New/Established patient initiated with the physician or non-physician clinician	Asynchronous or store-and-forward technology* Asynchronous or store-and-forward technology Requires use of a HIPAA-compliant secure platform, (e.g., EHR portals, secure email, or other digital applications), which allows digital communication with the physician.* *During COVID-19 Public Health Emergency, this requirement is waived.	Patient submits an image of a lesion to the dermatologist via email or other electronic technology. Dermatologist reviews the image and responds to the patient with diagnosis and treatment plan. Patient submits an image of a lesion to the dermatologist via email or EHR portal. Dermatologist reviews the image and responds to the patient with diagnosis and treatment plan.	G2010	Remote evaluation of recorded video and/or images submitted by an established patient (e.g., store-and-forward), including interpretation with follow-up with the patient within 24 business hours, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment	95	11
			99421	Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes	95	11
			99422	11-20 minutes	95	11
			99423	21 or more minutes	95	11
New/Established patient or guardian with the physician or non-physician clinician	Telephone	Patient or guardian calls the dermatologist to discuss a problem.	99441	Telephone evaluation and management service by a physician or other qualified health care professional who may report evaluation and management services provided to an established patient, parent, or guardian not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion	95	11
			99442	11-20 minutes of medical discussion	95	11
			99443	21-30 minutes of medical discussion	95	11
Physician-to-physician	Telephone (verbal) and internet or electronic health record (EHR portal)	An internist contacts the dermatologist requesting a consultation for a patient being seen. The dermatologist communicates verbally with the internist and submits a written report to the requesting physician.	99446	Interprofessional telephone/Internet/electronic health record assessment and management service provided by a consultative physician, including a verbal and written report to the patient's treating/requesting physician or other qualified health care professional; 5-10 minutes of medical consultative discussion and review	95	11
			99447	11-20 minutes of medical consultative discussion and review	95	11
			99448	21-30 minutes of medical consultative discussion and review	95	11
			99449	31 minutes or more of medical consultative discussion and review	95	11
Physician or non-physician clinician	Majority (greater than 50%) of the services is provided via Internet or EHR portal	An internist contacts the dermatologist requesting a consultation for a patient being seen. The dermatologist submits a written report to the requesting physician.	99451	Interprofessional telephone/Internet/electronic health record assessment and management service provided by a consultative physician, including a written report to the patient's treating/requesting physician or other qualified health care professional, 5 minutes or more of medical consultative time	95	11
			99452	Interprofessional telephone/Internet/electronic health record referral service(s) provided by a treating/requesting physician or other qualified health care professional, 30 minutes	95	11
