

If there was an Ultra-Millionaire Tax in 2020 how much tax would Jeff Bezos owe? **\$5.7 BILLION!!!!** We think it's time to collect. Send Jeff a postcard made from an Amazon box and let him know it's time for him to pay his fair share. It's easy, cut a 4" x 6" rectangle from an Amazon box, write your message, address it to: Jeff Bezos 410 Terry Avenue North Seattle, WA 98109-5210 greetings Jeff! It's time for you to pay your fair share.

\$1 Billion = 1,000 x \$1 Million
Jeff Bezos is worth 186 Billion Dollars!

Fair is fair!

Sen. Elizabeth Warren

"The ultra-rich and powerful have rigged the rules in their favor so much that the top 0.1% pay a lower effective tax rate than the bottom 99%. We need a wealth tax to make sure ultra-millionaires pay their fair share. That's how we can invest big in infrastructure, attack climate change head on, and invest in education and universal child care. That is how we build a future for every family."

BILLIONAIRES SHOULD'N'T EXIST

We Make **BILLIONAIRES' TEARS**

Is tax justice a feminist issue? You bet it is. Ensuring women's rights and gender equality requires revenue to invest in public services, sustainable infrastructure, and social protection. American women spend almost twice as much time performing unpaid care and domestic work than men. If paid minimum wage it would total \$1.5 trillion a year. When there isn't enough revenue to provide essential public services, it is mostly women who make up the difference. Women who will then have less time and resources to pursue an education, paid employment, healthcare, and rest. By fairly re-distributing wealth and income, we build women's power.

LET'S BUILD OUR FEMINIST FUTURE!

The Ultra-Millionaire Tax Act would tax a person's net worth between \$50 million and \$1 billion at 2% annually. For those with more than \$1 billion in wealth, it would tax anything above \$1 billion at 3% annually.
