

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials"), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market identified above. Any distributor should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

11 OPERATIONAL INFORMATION

Intended be held in a manner which would allow Eurosystem eligibility:

No. Whilst the designation is specified as “no” at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognized as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

The Specified Denomination means EUR 1,000. The Maturity Date of the Notes is 29 August 2029.

Clearing Systems: The Notes will be accepted for clearance through Euroclear Finland

Rights attached to the Notes

Governing law – The Notes are governed by English law.

The return of the Notes is calculated by reference to an index (the **Underlying Reference(s)**).

Description of the Underlying Reference(s):

| i | Underlying | Bloomberg Code | Index Type | Index Sponsor |
|---|--|----------------|-----------------------|------------------------------|
| 1 | iEdge Nordea Bank Abp Decrement 0.8 EUR GTR Series 1 Index | IDNDA1 Index | Single-Exchange Index | Scientific Beta (France) SAS |

Return on the structured notes will be calculated based on the following payoff formula: **Autocall**

Autocall is a product that may be automatically redeemed before the maturity of the Notes if the performance of the Selection is above a threshold. In such case, the Notes are redeemed at par, with any positive interest amount also payable.

The Automatic Early Redemption of the product is triggered on any Valuation Date indexed "t" where:

$$\text{AutoCallCondition}(t) = 1$$

$$\text{AutoCallCondition}(t) = 1 \text{ if } \text{BasketPerf}_1(t) \geq R(t)$$

$$= 0 \text{ if not}$$

where:

R(t) means each Valuation Date indexed "t", "t" ranging from 1 to 24: Not Applicable; Not Applicable; Not Applicable; 100.0000 %; 100.0000%; 100.0000 %; and Not Applicable

If "R(t)" is specified as being Not Applicable, then $\text{AutoCallCondition}(t) = 0$ in any event.

BasketPerf₁(t) = $\text{BasketPerf}(t)$ for each Valuation Date indexed "t", "t" ranging from 1 to 24.

BasketPerf(t) means for a date "t", the performance of the Selection. Its value is determined by the Calculation Agent in accordance with the Local Performance formula and equals to $\text{BasketPerf}(t)$ of such formula.

Local Performance formula means: $\text{BasketPerf}(t) = \text{LocalBasketPerf}(t)$

LocalBasketPerf(t) is calculated on the date "t" in accordance with the **Weighted** formula. **Weighted** formula means the weighted average of the Individual Performances of each Underlying in the Selection, as calculated by the Calculation Agent in accordance with the following formula:

$$\text{LocalBasketPerf}(t) = \sum_{i=1}^n \omega^i \times \text{IndivPerf}(i, t)$$

where: ω^i means the weighting of the Underlying "i" as specified in the table "Underlying Reference" above. n means the number of the Underlyings in the Selection.

In the *Weighted* formula, *IndivPerf(i,t)* is, for the date "t" and each Underlying indexed "i", "i" ranging from 1 to 1, a term calculated in accordance with the *European Individual Performance formula*

European Individual Performance formula means: $\text{IndivPerf}(i,t) = \frac{\text{Price}(i,t)}{\text{Reference Price}(i)}$, where **Price(i, t')** means, for the date "t'" the Price of the Underlying indexed "i".

Price means the level of the Underlying indexed "i" as determined by the Calculation Agent as of the scheduled closing time on the relevant exchange.

Reference Price (i) means for the Underlying indexed "i", the price of such Underlying indexed "i", as determined by the Calculation Agent as of the scheduled closing time on 17 August 2023.

In this case, the automatic early redemption amount per Note payable on the Payment Date indexed "t" (for the avoidance of doubt, same index "t" with $\text{AutocallCondition}(t)=1$) is equal to:

$$\begin{aligned} & \text{Calculation Amount} \times (100\% + \text{AutoCallCoupon}(t)) \\ & \text{AutoCallCoupon}(t) = \text{Coupon}_1(t) + \text{Vanilla}_2(t) \times \text{UpsideCondition}(t) \\ & \text{Vanilla}_2(t) = \text{Coupon}_2(t) + G_2(t) \times \text{Min}(\text{Cap}_2(t), \text{Max}(\text{BasketPerf}_2(t) - K_2(t), \text{Floor}_2(t))) \\ & \text{UpsideCondition}(t) = 1 \text{ if } \text{BasketPerf}_3(t) \geq H(t) \\ & \quad = 0 \text{ if not} \end{aligned}$$

where:

Coupon₁(t) means for each Valuation Date indexed "t", "t" ranging from 1 to 24: Not Applicable; Not Applicable; Not Applicable; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; XX%*t; and Not Applicable.

XX% will be determined on the Strike Date, subject to a minimum of 4.00%. The Issuer will as soon as practical after the Strike Date publish a Notice specifying such amount so determined. This Notice may be viewed on the website of NATIXIS (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>).

For each Valuation Date indexed "t", "t" ranging from 1 to 24: **Coupon₂(t)** means 0.0000% for all Valuation Dates; **G₂(t)** means 0.0000% for all Valuation Dates; **Cap₂(t)** means 0.0000% for all Valuation Dates; **Floor₂(t)** means 0.0000% for all Valuation Dates; **K₂(t)** means 0.0000% for all Valuation Dates. **H(t)** is Not Applicable for all Valuation Dates. If "H(t)" is specified as being Not Applicable, then $\text{UpsideCondition}(t) = 0$ in any event; **BasketPerf₂(t)** means **BasketPerf₁(t)** for all Valuation Dates; and **BasketPerf₃(t)** means **BasketPerf₁(t)** for all Valuation Dates.

If the automatic early redemption is not triggered, the Final Redemption Amount per Note is equal to:

$$\begin{aligned} & \text{Calculation Amount} \times (100\% + \text{FinalCoupon} - \text{Vanilla} \times \text{DownsideCondition} \\ & \quad \times (1 - \text{UpsideCondition}_4)) \end{aligned}$$

Where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_5(T)), \text{Floor}))$$

$$\text{DownsideCondition} = 1 \text{ if } \text{BasketPerf}_6(T) < B$$

$$= 0 \text{ if not}$$

And

$$\text{FinalCoupon} = (\text{Coupon}_3 \times (1 - \text{DownsideCondition})) + (\text{Vanilla}_4 \times \text{UpsideCondition}_4)$$

$$\text{Vanilla}_4 = \text{Coupon}_4 + G_4 \times \text{Min}(\text{Cap}_4, \text{Max}((\text{BasketPerf}_4(T) - K_4), \text{Floor}_4))$$

$$\text{UpsideCondition}_4 = 1 \text{ if } \text{BasketPerf}_7(T) \geq H_4$$

$$= 0 \text{ if not}$$

Where:

Calculation Amount means EUR 1,000. **Coupon₃** will be determined on the Strike Date, subject to a minimum of 48%. **Coupon₄** will be determined on the Strike Date, subject to a minimum of 48.00%. The Issuer will as soon as practical after the Strike Date publish a Notice specifying such amount so determined. This Notice may be viewed on the website of NATIXIS (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>).

Most material risk factors pertaining to the Guarantor

The key risks in relation to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparties risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. Financial markets' significant fluctuations in a sometimes exceptionally volatile environment caused, among others, by a major inflationary shock, leading central banks to implement a policy of rapidly raising key interest rates or to the geopolitical context could generate significant losses in NATIXIS' capital market and asset management activities;
3. Should NATIXIS fails to comply with applicable laws and regulations, NATIXIS could be exposed to heavy fines and other administrative, arbitral and criminal sanctions likely to have a material adverse impact on its financial position, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates and adverse economic conditions in NATIXIS' main markets could adversely impact NATIXIS' businesses, financial environment, revenues, results, outlook, capital and financial performance.

What are the key risks that are specific to the Notes?

The key risks that are significant for the assessment of the Notes are set out below:

General risk factors

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): The Noteholders may suffer losses should Natixis (as **Guarantor**) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms. In case of resolution proceedings, the noteholders could face non-payment under the Guarantee or receive an amount lower than the amount expected.

Risk of early redemption in the event of illegality, changes in taxation, force majeure or significant alteration event: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that the Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of the underlying asset(s) (the **Underlying(s)**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, the Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk of low or no returns: The amounts of interest payable by the Issuer are linked to or make reference to changes in the Underlying(s). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying(s). If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the above-mentioned formula or indexation provisions, investors may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to a "benchmark": The indices that are considered as "benchmarks" are governed by regulatory guidelines and reform proposals at national and international levels. These reforms could have effects on the methodology of some benchmarks or the continuation of such benchmarks, which may be discontinued. Such changes could have a material adverse effect on the value and the interest amounts and/or redemption amounts due in respect of Notes whose interest amounts and/or redemption amounts are linked to or make reference to that particular benchmark.

Risks relating to the occurrence of an Administrator/Benchmark Event: There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs whose effect is that certain fallback provisions shall apply (an **Administrator/Benchmark Event**). Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating investor losses resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that Noteholder consent shall not be required for application of any adjustment. If, following the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms. The above-described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying. In such cases, the Calculation Agent may, at its discretion, either (i) calculate the level of the Underlying in accordance with the formula for and method of calculating the Underlying last in effect prior to such event, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value and the interest amounts and/or redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging positions and/or materially increased cost of hedging: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the price, value or level of the relevant Underlying(s). In the event of a change in law or a hedging disruption, increased cost of hedging it may become unlawful or impracticable or materially more costly for the Issuer to hold or otherwise deal with such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent may, at the request of the Issuer, at its discretion, either to adjust certain terms of the Notes, at its discretion, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the value of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the value level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the value level of the affected Underlying(s) which may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and the Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a noteholder's interests as an investor in the Notes.

An up-front commission could be paid up to 5.00% (all taxes included) of the nominal. This commission can be paid either by an up-front fee or by an appropriate discount on the issue price. The commission is paid on the Issue date.
