B.3***What are the key risks that are specific to the Issuer?***

- Risk Relating to the Issuer and Guarantor**

Holders of Securities issued by the Issuer bear the credit risk of the relevant Issuer and/or the Guarantor, that is the risk that the relevant Issuer and/or the Guarantor is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under Securities are to be calculated. If the Issuer and/or the Guarantor is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss.

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSBV, also impact MSBV:

- Risks relating to the financial situation of Morgan Stanley**

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley. Morgan Stanley's results of operations may be adversely affected by the COVID-19 pandemic.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

- **Risks relating to the operation of Morgan Stanley's business activities**

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), which could adversely affect its businesses or reputation. A cyber-attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk. Further, the expected replacement of London Interbank Offered Rate and replacement or reform of other interest rates could adversely affect Morgan Stanley's business, financial condition and results of operations.

- **Legal, Regulatory and Compliance Risk**

Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations.

- **Other risks relating to Morgan Stanley's business activities**

Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition.

Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The UK's withdrawal from the EU could adversely affect Morgan Stanley.

Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions.

C.3.4 *Most material risk factors pertaining to the Guarantor*

The most material risk factors pertaining to Morgan Stanley are listed under section B.3 “*What are the key risks that are specific to the Issuer?*” above.

C.4 *What are the key risks that are specific to the Securities?*

- The Securities are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.
- The terms of certain Securities differ from those of ordinary debt securities because the Securities will not pay interest and, on maturity, depending on the performance of the Relevant Underlying, may return less than the amount invested or nothing.
- An Issuer may amend the terms and condition of the Securities, the Guarantee and the deed of covenant dated 17 July 2013 (as amended or supplemented from time to time) in relation to, amongst others, the Securities, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders.
- An investment in the Securities bears the risk that the Issuer or the Guarantor is not able to fulfil its obligations in respect of such Securities at maturity or before maturity of the Securities. In certain circumstances, holders may lose all or a substantial portion of their principal or investment. The Issuer has the right to withdraw the offering of the Securities and cancel the issuance of the Securities prior to the end of the subscription period for any reason. Reasons for the cancellation of the offer include, in particular: (i) adverse market conditions, as determined by the Issuer in its reasonable discretion (such as, for example, increased equity market volatility and increased currency exchange rate volatility); or (ii) that the number of applications received at that time is insufficient, in the Issuer’s opinion, to make an economically viable issuance.
- The market price of Securities may be very volatile. Further, investors in Securities will receive no interest and payment of principal may occur at a different time or in a different currency than expected. The Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Underlying the greater the effect on yield.
- The Determination Agent may determine that a Disruption Event has occurred and such events can affect the Relevant Underlying and lead to adjustments and/or early redemption of the Securities.
- Amounts payable on the Securities are limited by the cap on value/performance of the Relevant Underlying applicable to the Securities.
- “Benchmarks” are subject to recent national, international and other regulatory reforms, which could have a material impact on any Securities linked to a “benchmark” index, including in any of the following circumstances: (i) certain “benchmarks” may be discontinued, or (ii) the administrator(s) of a “benchmark” may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU benchmarks. Depending on the particular “benchmark” and the applicable terms of the Securities, the occurrence of such a circumstance may lead to such benchmark being deemed replaced with an alternative benchmark selected by the Determination Agent, adjustment to the terms and conditions of the Securities or early redemption of the Securities. Any of the above consequences could have a material adverse effect on the value of and return on any such Securities.

<ul style="list-style-type: none"> Indices are comprised of a synthetic portfolio of other assets, and its performance may be dependent on the performance of such assets. The Issuer or its affiliates are not liable for the actions or omissions of the sponsor of an Index, any information concerning the Index, the performance of such Index or use thereof in connection with the Securities. Payment of the redemption amount on the Securities is conditional on the value or performance of the Relevant Underlying being greater than or equal to a specified barrier value, and if such condition (a "barrier condition") is not satisfied, then a lower amount is payable than would otherwise have been payable on the Securities.

B.3

Vilka nyckelrisker är specifika för Emittenten?

- Risker relaterade till Emittenten och Garanten**

Innehavare av Värdepapper emitterade av Emittenten bär kreditrisken för den relevanta Emittenten och/eller Garanten, som är risken att den relevanta Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, oavsett hurvida sådana Värdepapper är kapitalskyddade eller principalskyddade eller hur kapitalbelopp, räntebelopp eller andra betalningar enligt sådana Värdepapper ska beräknas. Om Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, kommer det ha en betydande negativ påverkan på investerarens avkastning på Värdepapperen och en investerare kan förlora hela sin investering.

Samtliga betydande tillgångar för MSBV är åtaganden för (eller värdepapper emitterade av) ett eller flera företag inom Morgan Stanley-Koncernen. Om något av dessa företag inom Morgan Stanley-Koncernen drabbas av förluster avseende någon av dess verksamheter (oavsett om dessa verksamheter är relaterade till MSBV eller inte) kan förmågan hos sådant företag att fullgöra sina åtaganden gentemot MSBV, försämrats och därigenom exponera innehavare av värdepapper emitterade av MSBV mot risk för förlust.

De följande nyckelriskerna påverkar Morgan Stanley, och eftersom Morgan Stanley är det yttersta holdingmoderbolaget för MSBV, påverkar de även MSBV:

- Risker relaterade till Morgan Stanleys finansiella ställning**

Morgan Stanleys verksamhetsresultat kan väsentligen påverkas av marknadsfluktuationer och av globala och ekonomiska händelser och andra faktorer, inklusive förändringar i tillgångsvärdering. Att inneha stora och koncentrerade positioner

exponerar Morgan Stanley för stora förluster. Dessa faktorer kan resultera i förluster för en position eller portfölj som ägs av Morgan Stanley. Morgan Stanleys verksamhetsresultat kan påverkas negativt av COVID-19-pandemin.

Morgan Stanley är exponerat för risken att tredje parter som är skuldsatta till företaget inte kommer uppfylla sina åtaganden, såväl som att ett förfall av en stor finansiell institution negativt kan påverka finansiella marknader. Sådana faktorer ger upphov till risken för förlust som uppstår när en låntagare, motpart eller emittent inte uppfyller sina finansiella åtaganden gentemot Morgan Stanley.

Likviditet är essentiellt för Morgan Stanleys verksamhet och Morgan Stanley förlitar sig på externa källor för att finansiera en betydande del av sin verksamhet. Morgan Stanleys lånekostnader och tillgång till skuldkapitalmarknader är beroende av dess kreditbetyg. Morgan Stanley är ett holdingbolag, har ingen verksamhet och är beroende av dess utdelning, distribution och andra betalningar från dess dotterföretag. Vidare har Morgan Stanleys likviditet och finansiella ställning historiskt varit, och kan i framtiden vara, negativt påverkad av amerikanska och internationella marknader och ekonomiska händelser. Som en följd av det föregående, finns det en risk att Morgan Stanley kan vara oförmöget att finansiera sin verksamhet på grund av förlorad tillgång till kapitalmarknaderna eller svårigheter att avyttra sina tillgångar.

- **Risker relaterade till bedrivandet av Morgan Stanleys verksamhet**

Morgan Stanley är föremål för operationella risker, inklusive misslyckande, avbrott eller annan störning av dess verksamhet eller säkerhetssystem eller de för Morgan Stanleys tredje parter (eller dess tredje parter), vilket negativt kan påverka dess verksamhet eller rykte. En cyberattack, informations- eller säkerhetsavbrott eller teknisk störning kan negativt påverka Morgan Stanleys förmåga att utöva sin verksamhet, hantera sin riskexponering eller resultera i avslöjande eller olaglig användning av konfidentiell eller proprietär information och i övrigt negativt påverka dess verksamhetsresultat, likviditet och finansiella ställning, såväl som orsaka en skada på dess rykte.

Morgan Stanleys riskhanteringsstrategier, modeller och processer kanske inte är till fullo effektiva vad avser lindring av dess riskexponering i alla marknadsmiljöer eller mot alla typer av risk. Vidare kan förväntat utbyte av London Interbank Offered Rate och utbyte eller reformering av andra räntesatser negativt påverka Morgan Stanleys verksamhet, finansiella ställning och verksamhetsresultat.

- **Juridisk, regulatorisk och regelefterlevnadsrisk**

Morgan Stanley är föremål för risker avseende juridiska eller regulatoriska sanktioner, betydande finansiella förluster inklusive böter, straff, domar, skadestånd och/eller förlikning, eller förlust av rykte som det kan lida som ett resultat av dess oförmåga att efterleva lagar, förordningar och regler, relaterade till självregleringsorganisationers standarder och uppförandekoder tillämpliga på dess verksamhet. Morgan Stanley är även föremål för kontraktuell och kommersiell risk, såsom risken att en motparts prestationsåtaganden inte kommer vara möjliga att verkställa. Vidare är Morgan Stanley föremål för regler och förordningar för att motverka penningtvätt, korruption och terroristfinansiering.

- **Andra risker relaterade till Morgan Stanleys verksamhet**

Morgan Stanley möter stark konkurrens från andra bolag som erbjuder finansiella tjänster, vilket kan leda till prissättningspress som kan påverka dess avkastning och lönsamhet betydande negativt. Vidare kan automatiserade handelsplatser negativt påverka Morgan Stanleys verksamhet och kan öka konkurrensen.

Morgan Stanley är föremål för åtskilliga politiska, legala, skatterättsliga, franchise och andra risker som ett resultat av dess internationella verksamhet (inklusive risker avseende nationalisering, expropriation, priskontroller, kapitalkontroller, börskontroller, ökad beskattning och avgifter samt andra restriktiva myndighetsåtgärder, såväl som utbrott av fientlighet eller politiskt och myndighetsrelaterad instabilitet) vilken negativt kan påverka dess verksamhet på många sätt. Storbritanniens utträde ur EU kan negativt påverka Morgan Stanley.

Morgan Stanley kan vara oförmöget att till fullo fänga det förväntade värdet från avyttringar, joint ventures, minoritetsposter eller strategiska allianser.

Tillämpligheten av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att främja en ordnad upplösning av stora finansiella institutioner kan utgöra en större risk för förlust för Morgan Stanleys värdepappersinnehavare och för Morgan Stanley för andra restriktioner.

C.3.4 *De mest väsentliga riskfaktorerna som hänför sig till Garanten*

De mest väsentliga riskfaktorerna som hänför sig till Morgan Stanley finns angivna i avsnitt B.3 "Vilka nyckelrisker är specifika för Emittenten?" ovan.

C.4 *Vilka nyckelrisker är specifika för Värdepapperen?*

- Värdepapperen är inte insättningar eller sparkonton och är inte försäkrade av vare sig det amerikanska bolaget för insättningsförsäkring (U.S. Federal deposit insurance corporation), UK Financial Services Compensation Scheme eller något annat regeringsorgan eller -funktion eller insättningskyddsarrangemang någonstans. Värdepapperen utgör inte heller något åtagande för, och garanteras inte heller, av någon bank.
- Villkoren för vissa Värdepapper kan skilja sig från de för vanliga skuldinstrument eftersom Värdepapperen inte kommer att betala ränta och, vid förfallodagen, beroende på utvecklingen för den Relevanta Underliggande, kan återbetala mindre än det investerade beloppet eller ingenting.

- En Emittent kan justera villkoren för Värdepapperen, Garantin och deed of covenant daterad den 17 juli 2013 (så som justerad eller förändrad från en tid till en annan) avseende, bl.a., Värdepapperen utan Värdepappersinnehavarens samtycke om, enligt dess uppfattning, sådana justeringar som inte är betydande till nackdel för Värdepappersinnehavare.
- Investerares kan förlora hela eller en betydande del av sin investering om värdet/utvecklingen för den Relevanta Underliggande inte rör sig i den förväntade riktningen.
- Handel på andrahandsmarknaden för Värdepapperen kan vara begränsad. Vidare, om Värdepapperen handlas via en eller flera elektroniska handelssystem och dessa system blir delvis eller helt otillgängliga, så kan det påverka investerarens förmåga att handla med Värdepapperen.
- En investering i Värdepapperen bär risken att Emittenten eller Garantin inte kan uppfylla sina skyldigheter avseende sådana Värdepapper vid förfalldagen eller före Värdepapperets förfalldag. Under vissa omständigheter kan innehavarna förlora hela eller en betydande del av sitt ursprungliga kapital eller investering.
- Emittenten har rätt att dra tillbaka erbjudandet av Värdepapperen och avbryta emissionen av Värdepapperen före teckningsperiodens utgång av någon anledning. Skälen för annullering av erbjudandet inkluderar särskilt: (i) ogynnsamma marknadsförhållanden, som bestämts av Emittenten i sitt rimliga gottfinnande (till exempel ökad volatilitet på aktiemarknaden och ökad valutakursvolatilitet); eller (ii) att antalet ansökningar som mottagits vid den tiden inte är tillräckligt, enligt Emittentens åsikt, för att göra en ekonomiskt genomförbar emission.
- Värdepapperens marknadskurs kan vara mycket volatil. Vidare kan investerare i Värdepapperen få ingen ränta och betalning av kapital kan inträffa vid en annan tidpunkt eller i en annan valuta än väntat. Den Relevanta Underliggande kan vara föremål för betydande fluktuationer som kanske inte korrelerar med förändringar i räntesatser, valutor eller andra index. Tidpunkten för förändringar i en Relevant Underliggande kan påverka den faktiska avkastningen för investerare, även om den genomsnittliga nivån överensstämmer med deras förväntningar. Generellt sett, desto större förändring i Relevant Underliggande desto större är effekten på avkastningen.
- Fastställelseagenten kan fastställa att en Avbrottshändelse har inträffat och sådana händelser kan påverka den Relevanta Underliggande och leda till justeringar och/eller förtida inlösen av Värdepapperen.
- Belopp som ska betalas avseende Värdepapperen är begränsade av tak på värde/utveckling för den Relevanta Underliggande tillämplig för Värdepapperen.
- "Referensvärden" är föremål för nyligen genomförda nationella, internationella och andra regleringsreformer, som kan ha en väsentlig påverkan på Värdepapper relaterade till ett "referensvärdes"-index, inklusive i någon av följande omständigheter: (i) vissa "referensvärden" kan avslutas, eller (ii) administratörerna för ett "referensvärde" kanske inte får tillstånd/registrering eller kan inte lita på ett av de system som är tillgängliga för icke-EU-referensvärden. Beroende på det specifika "referensvärdet" och de tillämpliga villkoren för Värdepapperen kan förekomsten av en sådan omständighet leda till att ett sådant referensvärde bedöms ersatt med ett alternativt referensvärde valt av Fastställelseagenten, anpassning till villkoren för Värdepapperen eller förtida inlösen av Värdepapperen. Vilken som helst av ovanstående konsekvenser kan ha en väsentlig negativ inverkan på värdet på och avkastningen från sådana Värdepapper.
- Index består av en syntetisk portfölj med andra tillgångar, och dess utveckling kan vara beroende av utvecklingen för sådana tillgångar. Avkastning på Värdepapper speglar inte en direktinvestering i underliggande aktier eller andra tillgångar som ingår i index. En förändring av sammansättningen av index eller nedläggande av ett index kan negativt påverka marknadsvärdet på Värdepapperen. Värdepapperen säljs inte och marknadsförs inte av något index eller av någon sponsor till sådant index. Emittenten och dess närstående är inte ansvariga för åtgärder eller försummelser från sponsorn av ett index, någon information avseende sådant index, utvecklingen för sådant index eller användningen av indexet i samband med Värdepapperen.
- Betalning av inlösenbeloppet för Värdepapperen är villkorad av att värdet på eller utvecklingen för den Relevanta Underliggande är större än eller lika med ett angivet barriärvärde, och om sådant villkor (ett "barriärvillkor") inte uppfylls, ska ett lägre belopp betalas än det annars skulle ha betalats avseende Värdepapperen.
