The value of the Securities is linked to the positive or negative performance of a basket of underlying Shares. An increase in the value of all of the underlying Shares will have a positive effect on the value of the Notes, and a decrease in the value of one or more underlying Shares will have a negative effect on the value of the Notes.

The redemption and interest amounts payable on the Securities are dependent on the value or performance of the worst performing underlying Share reaching a threshold or barrier and a small increase or decrease in the value or performance of such worst performing underlying Share near to the threshold or barrier may lead to a significant increase or decrease in the return of the Securities.

The final redemption amount payable on the Notes is linked to the performance of the worst performing underlying Share and, in such circumstances, Noteholders may not receive the amount initially invested, and may receive a significantly lesser amount.

B.3 *What are the key risks that are specific to the Issuer?*

- **Risk Relating to the Issuer and Guarantor**

Holders of Securities issued by the Issuer bear the credit risk of the relevant Issuer and/or the Guarantor, that is the risk that the relevant Issuer and/or the Guarantor is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under Securities are to be calculated. If the Issuer and/or the Guarantor is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss.

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSBV, also impact MSBV:

- **Risks relating to the financial situation of Morgan Stanley**

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley. Morgan Stanley's results of operations may be adversely affected by the COVID-19 pandemic.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

- **Risks relating to the operation of Morgan Stanley's business activities**

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), which could adversely affect its businesses or reputation. A cyber-attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary

information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk. Further, the expected replacement of London Interbank Offered Rate and replacement or reform of other interest rates could adversely affect Morgan Stanley's business, financial condition and results of operations.

- **Legal, Regulatory and Compliance Risk**

Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations.

- **Other risks relating to Morgan Stanley's business activities**

Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition.

Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The UK's withdrawal from the EU could adversely affect Morgan Stanley.

Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions.

VALUE DETERMINATION TERMS

Value Determination Terms for determining Initial Reference Value, Final Reference Value and Relevant Underlying Value of a Share in respect of a relevant day: The Determination Agent will determine the value of the relevant Share as of the scheduled weekday closing time of the exchange in respect of such Share.

Disruption Events and Extraordinary Events: The following disruption events apply in relation to each Share: Change in Law, Hedging Disruption, Loss of Stock Borrow and Increased Cost of Hedging. The following extraordinary events apply in relation to each Share: Merger Event, Tender Offer, Nationalisation, Delisting and Insolvency

Disruption Events and Extraordinary Events can affect the Basket Shares and lead to adjustments (including substitution of a Share) and/or early redemption of the Securities. The Determination Agent shall determine whether the Securities or any exchanges or price sources are affected by such events on a relevant date of valuation, and may make adjustments to the Securities, or take any other appropriate action, to account for relevant adjustments or events in relation to any Share. In addition, in certain circumstances, the Issuer may redeem or terminate the Securities early following any such event. In this case, in relation to each Security, the Issuer will pay an amount (which amount may, in certain circumstances, be the fair market value of the Securities) which may be less than the nominal value or face value.

Tax Redemption: The Securities may be redeemed early for tax reasons at an amount (determined by the Determination Agent, acting in good faith and in a commercially reasonable manner) equal to the fair market value of such Security on such day as is selected by the Determination Agent acting in good faith and in a commercially reasonable manner.

Events of Default: If an Event of Default occurs, the Securities may be redeemed prior to their Maturity Date at the Early Redemption Amount if the Securityholders of not less than 25.00 per cent. in aggregate principal amount of such Securities give written notice to the Issuer declaring the Securities to be immediately due and payable.

The Events of Default applicable to the Securities are as follows:

- (i) non-payment of any amount of principal or any amount of interest (in each case, within 30 days of the due date) in respect of the Securities; and
- (ii) the Issuer becomes insolvent or is unable to pay its debts as they fall due, or an administrator or liquidator is appointed in respect of the Issuer or the whole or a substantial part of its undertaking, assets and revenues (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), or the Issuer takes any action for a composition with or for the benefit of its creditors generally, or an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for 60 days after the date on which such order is made or effective resolution is passed.

Early Redemption Amount: The Early Redemption Amount will be determined by the Determination Agent to be the amount a qualified financial institution (being a financial institution organised under the laws of any jurisdiction in the USA, European Union or Japan and which satisfies certain credit ratings requirements, which the Determination Agent selects for this purposes at the time when the Early Redemption Amount is to be determined) would charge to assume all of the Issuer's obligations in respect of the Securities or to undertake obligations that would have the effect of preserving the economic equivalent of any payments by the Issuer to the Securityholder with respect to the Securities.

Governing Law: The Securities will be governed by English law.

Limitations to the rights:

Prescription. Claims for principal and interest on redemption in respect of the Securities shall become void unless the relevant security certificates are surrendered for payment within 10 years of the due date for payment.

C.1.4	<i>Rank of the Securities in the Issuer's capital structure upon insolvency</i>
--------------	---

The Securities constitute direct and general obligations of the Issuer ranking *pari passu* among themselves.

C.1.5	<i>Restrictions on free transferability of the Securities</i>
--------------	---

Interests in the Securities will be transferred in accordance with the procedures and regulations of the relevant clearing system, subject to restrictions on sale of the Securities into certain jurisdictions. The Securities cannot be offered or sold in the U.S. or to U.S. persons, nor held in the U.S. or by U.S. Persons at any time. The Securities may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), any individual retirement account or plan subject to Section 4975 of the United States Internal Revenue Code of 1986, or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

C.2	<i>Where will the Securities be traded?</i>
------------	---

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the Luxembourg Stock Exchange's Regulated Market and to be listed on the official list of the Luxembourg Stock Exchange with effect from on or around the Issue Date.

C.3	<i>Is there a guarantee attached to the Securities?</i>
------------	---

C.3.1	<i>Nature and scope of the Guarantee</i>
--------------	--

The payment obligations of MSBV in respect of the Securities are unconditionally and irrevocably guaranteed by Morgan Stanley (the "Guarantor" or "Morgan Stanley") pursuant to a guarantee dated as of 14 July 2023 (the "Guarantee") which is governed by New York law. The Guarantor's obligations under the Guarantee constitute direct, general and unsecured obligations of the Guarantor which rank without preference among themselves and *pari passu* with all other outstanding, unsecured and unsubordinated obligations of the Guarantor, present and future, but in the event of insolvency only to the extent permitted by laws affecting creditors' rights.

C.3.2	<i>Brief description of the Guarantor</i>
--------------	---

Morgan Stanley is incorporated and has its registered address in the U.S.A. Its legal entity identifier is IGJSJL3JD5P30I6NJZ34. C.3.4 Most material risk factors pertaining to the Guarantor

The most material risk factors pertaining to Morgan Stanley are listed under section B.3 “*What are the key risks that are specific to the Issuer?*” above.

C.4 What are the key risks that are specific to the Securities?

- The Securities are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.
- The terms of the Securities differ from those of ordinary debt securities because the Securities, on maturity and depending on the performance of the worst performing Share, may return less than the amount initially invested.
- Unless otherwise stated in the terms and conditions applicable to the Securities, the securities issued by MSBV and MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV, MSFL or Morgan Stanley (as applicable). In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an event of default with respect to any securities issued by MSBV or MSFL.
- An Issuer may amend the terms and condition of the Securities, the Guarantee and the deed of covenant dated 17 July 2013 (as amended or supplemented from time to time) in relation to, amongst others, the Securities, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders.
- It is impossible to predict how the level of the Basket Shares will vary over time. The historical performance (if any) of the Basket Shares does not indicate the future performance of the Basket Shares. Factors such as volatility, interest rates, remaining term of the Securities or exchange rates will influence the price investors will receive if an investor sells its Securities prior to maturity.
- Amounts payable in respect of the Securities are linked to the value/performance of the worst performing Share, irrespective on the value/performance of the other Basket Shares.
- The Securities will be redeemed early if the Relevant Underlying Value of the worst performing Share on any Automatic Early Redemption Valuation Date is greater than or equal to a specified barrier value.
- Payment of interest, redemption and early redemption amounts on the Securities is conditional on the value or performance of the relevant Share being greater than or equal to a specified barrier value, and if such condition (a “barrier condition”) is not satisfied, then a lower amount is payable than would otherwise have been payable on the Securities.
- No issuer of a Share has participated in the preparation of the Final Terms or in establishing the terms of the Securities. Macroeconomic factors affecting the performance of the Basket Shares may adversely affect the value of the Securities. Holders have no claim against any Share Issuer(s) or recourse to the Basket Shares.

B.3**Vilka nyckelrisker är specifika för Emittenten?**

- Risker relaterade till Emittenten och Garanten**

Innehavare av Värdepapper emitterade av Emittenten bär kreditrisken för den relevanta Emittenten och/eller Garanten, som är risken att den relevanta Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, oavsett huruvida sådana Värdepapper är kapitalskyddade eller principalskyddade eller hur kapitalbelopp, räntebelopp eller andra betalningar enligt sådana Värdepapper ska beräknas. Om Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, kommer det ha en betydande negativ påverkan på investerarens avkastning på Värdepapperen och en investerare kan förlora hela sin investering.

Samtliga betydande tillgångar för MSBV är åtaganden för (eller värdepapper emitterade av) ett eller flera företag inom Morgan Stanley-Koncernen. Om något av dessa företag inom Morgan Stanley-Koncernen drabbas av förluster avseende någon av dess verksamheter (oavsett om dessa verksamheter är relaterade till MSBV eller inte) kan förmågan hos sådant företag att fullgöra sina åtaganden gentemot MSBV, försämrans och därigenom exponera innehavare av värdepapper emitterade av MSBV mot risk för förlust.

De följande nyckelriskerna påverkar Morgan Stanley, och eftersom Morgan Stanley är det yttersta holdingmoderbolaget för MSBV, påverkar de även MSBV:

- Risker relaterade till Morgan Stanleys finansiella ställning**

Morgan Stanleys verksamhetsresultat kan väsentligen påverkas av marknadsfluktuationer och av globala och ekonomiska händelser och andra faktorer, inklusive förändringar i tillgångsvärdering. Att inneha stora och koncentrerade positioner exponerar Morgan Stanley för stora förluster. Dessa faktorer kan resultera i förluster för en position eller portfölj som ägs av Morgan Stanley. Morgan Stanleys verksamhetsresultat kan påverkas negativt av COVID-19-pandemin.

Morgan Stanley är exponerat för risken att tredje parter som är skuldsatta till företaget inte kommer uppfylla sina åtaganden, såväl som att ett förfall av en stor finansiell institution negativt kan påverka finansiella marknader. Sådana faktorer ger upphov till risken för förlust som uppstår när en låntagare, motpart eller emittent inte uppfyller sina finansiella åtaganden gentemot Morgan Stanley.

Likviditet är essentiellt för Morgan Stanleys verksamhet och Morgan Stanley förlitar sig på externa källor för att finansiera en betydande del av sin verksamhet. Morgan Stanleys lånekostnader och tillgång till skuldkapitalmarknader är beroende av dess kreditbetyg. Morgan Stanley är ett holdingbolag, har ingen verksamhet och är beroende av dess utdelning, distribution och andra betalningar från dess dotterföretag. Vidare har Morgan Stanleys likviditet och finansiella ställning historiskt varit, och kan i framtiden vara, negativt påverkad av amerikanska och internationella marknader och ekonomiska händelser. Som en följd av det föregående, finns det en risk att Morgan Stanley kan vara oförmöget att finansiera sin verksamhet på grund av förlorad tillgång till kapitalmarknaderna eller svårigheter att avyttra sina tillgångar.

- Risker relaterade till bedrivandet av Morgan Stanleys verksamhet**

Morgan Stanley är föremål för operationella risker, inklusive misslyckande, avbrott eller annan störning av dess verksamhet eller säkerhetssystem eller de för Morgan Stanleys tredje parter (eller dess tredje parter), vilket negativt kan påverka dess verksamhet eller rykte. En cyberattack, informations- eller säkerhetsavbrott eller teknisk störning kan negativt påverka Morgan Stanleys förmåga att utöva sin verksamhet, hantera sin riskexponering eller resultera i avslöjande eller olaglig användning av konfidentiell eller proprietär information och i övrigt negativt påverka dess verksamhetsresultat, likviditet och finansiella ställning, såväl som orsaka en skada på dess rykte.

Morgan Stanleys riskhanteringsstrategier, modeller och processer kanske inte är till fullo effektiva vad avser lindring av dess riskeponering i alla marknadsmiljöer eller mot alla typer av risk. Vidare kan förväntat utbyte av London Interbank Offered Rate och utbyte eller reformering av andra räntesatser negativt påverka Morgan Stanleys verksamhet, finansiella ställning och verksamhetsresultat.

- **Juridisk, regulatorisk och regelefterlevnadsrisk**

Morgan Stanley är föremål för risker avseende juridiska eller regulatoriska sanktioner, betydande finansiella förluster inklusive böter, straff, domar, skadestånd och/eller förlikning, eller förlust av rykte som det kan lida som ett resultat av dess oförmåga att efterleva lagar, förordningar och regler, relaterade till självregleringsorganisationers standarder och uppförandekoder tillämpliga på dess verksamhet. Morgan Stanley är även föremål för kontraktuell och kommersiell risk, såsom risken att en motparts prestationsåtaganden inte kommer vara möjliga att verkställa. Vidare är Morgan Stanley föremål för regler och förordningar för att motverka penningtvätt, korruption och terroristfinansiering.

- **Andra risker relaterade till Morgan Stanleys verksamhet**

Morgan Stanley möter stark konkurrens från andra bolag som erbjuder finansiella tjänster, vilket kan leda till prissättningspress som kan påverka dess avkastning och lönsamhet betydande negativt. Vidare kan automatiserade handelsplatser negativt påverka Morgan Stanleys verksamhet och kan öka konkurrensen.

Morgan Stanley är föremål för åtskilliga politiska, legala, skatterättsliga, franchise och andra risker som ett resultat av dess internationella verksamhet (inklusive risker avseende nationalisering, expropriation, priskontroller, kapitalkontroller, börskontroller, ökad beskattning och avgifter samt andra restriktiva myndighetsåtgärder, såväl som utbrott av fientlighet eller politiskt och myndighetsrelaterad instabilitet) vilken negativt kan påverka dess verksamhet på många sätt. Storbritanniens utträde ur EU kan negativt påverka Morgan Stanley.

Morgan Stanley kan vara oförmöget att till fullo fånga det förväntade värdet från avyttringar, joint ventures, minoritetsposter eller strategiska allianser.

Tillämpningen av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att främja en ordnad upplösning av stora finansiella institutioner kan utgöra en större risk för förlust för Morgan Stanleys Värdepappersinnehavare och för Morgan Stanley för andra restriktioner.

C.3.4 De mest väsentliga riskfaktorerna som hänför sig till Garanten

De mest väsentliga riskfaktorerna som hänför sig till Morgan Stanley finns angivna i avsnitt B.3 "Vilka nyckelrisker är specifika för Emittenten?" ovan.

C.4 Vilka nyckelrisker är specifika för Värdepapperen?

Värdepapperen är inte insättningar eller sparkonton och är inte försäkrade av vare sig det amerikanska bolaget för insättningsförsäkring (U.S. Federal deposit insurance corporation) UK Financial Services Compensation Scheme eller något annat regeringsorgan eller -funktion eller insättningsskyddsarrangemang någonstans. Värdepapperen utgör inte heller något åtagande för, och garanteras inte heller, av någon bank.

Villkoren för vissa Obligationer kan skilja sig från de för vanliga skuldinstrument eftersom Obligationerna kanske inte betalar ränta och, vid förfallodagen, beroende på utvecklingen för den sämst presterande Aktien, kan återbetala mindre än det investerade beloppet.

Såvida inte annat anges i villkoren tillämpliga på Värdepapperen, kommer Värdepapperen emitterade av MSBV och MSFL inte att dra fördel av någon uppsägnings- eller accelerationsgrund hänförlig till acceleration eller uppsägning av annan skuldsättning för MSBV, MSFL eller Morgan Stanley (beroende på vad som är tillämpligt). Dessutom, en överträdelse av ett villkorsåtagande av Morgan Stanley, som garant, eller inträffandet av konkurs, insolvens eller rekonstruktion av Morgan Stanley, som garant, utgör inte en uppsägningsgrund avseende något värdepapper emitterat av MSBV eller MSFL.

En Emittent kan justera villkoren för Obligationerna, Garantin och deed of covenant daterad den 17 juli 2013 (så som justerad eller förändrad från en tid till en annan) avseende, bl.a., Obligationerna utan Obligationsinnehavarens samtycke om, enligt dess uppfattning, sådana justeringar som inte är betydande till nackdel för Obligationsinnehavare.

Det är omöjligt att förutsäga hur nivån på Korgaktierna kommer att variera över tid. Den historiska utvecklingen (om det finns någon) för Korgaktierna indikerar inte det framtida resultatet för Korgaktierna. Faktorer som volatilitet, räntesatser, återstående löptid för Värdepapperen eller valutakurser kommer att påverka priset som investerarna får om en investerare säljer sina Värdepapper före förfallodagen.

Belopp som ska betalas avseende Värdepapperen är kopplade till värdet/utvecklingen av den sämst presterande Aktien, oavsett värdet/utvecklingen av övriga Korgaktier.

Värdepappererna kommer att lösas in i förtid om det Relevanta Underliggande Värdet av den sämst presterande Aktien på någon Automatisk Värderingsdag för Förtida Inlösen är större än eller lika med ett angivet barriärvärde.

Betalning av ränta, inlösen och förtida inlösen av Värdepapperen är villkorad av att värdet eller utvecklingen av den relevanta Aktien är större än eller lika med ett angivet barriärvärde, och om ett sådant villkor (ett "barriärvillkor") inte är uppfyllt ska ett lägre belopp betalas än vad som annars skulle ha betalats för S-värdepapperen.

<p>Ingen emittent av en Aktie har deltagit i upprättandet av de Slutliga Villkoren eller i fastställandet av villkoren för Värdepapperen. Makroekonomiska faktorer som påverkar Korgaktiernas utveckling kan påverka Värdepapperens värde negativt. Innehavare har ingen fordran på någon Aktieemittent eller utnyttjande av Korgaktierna.</p>
