V. In all Prospectuses, Element D.2 of the Summary shall be amended as follows:

1. The section "Strategic Risks" should be replaced by the following:

Strategic Risks

There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

2. The section "Risks from Bank-Specific Regulation" should be replaced by the following:

Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee

transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

VI. In all Prospectuses (except the Base Prospectus CLN Programme), Element D.6 of the Summary shall be amended as follows:

1. In section "Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities" the first paragraph should be replaced by the following:

The Act on the Recovery and Resolution of Institutions and Financial Groups (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen* – SAG) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "**Bank Recovery and Resolution Directive**" or "**BRRD**") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "**Regulatory Bail-in**". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

2. The section "U.S. Foreign Account Tax Compliance Act Withholding" should be replaced by the following:

U.S. Foreign Account Tax Compliance Act Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".

VII. In Section "Risk factors relating to the Securities" of all Prospectuses (except the Base Prospectus CLN Programme), Sub-Section "Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities" the first paragraph should be replaced by the following:

Die sich ständig verschärfenden aufsichtsrechtlichen Eigenkapital- und Liquiditätsstandards sowie Prozess- und Reporting-Anforderungen könnten das Geschäftsmodell für verschiedene Aktivitäten des Konzerns in Frage stellen, die Wettbewerbsposition des Konzerns negativ beeinflussen, die Profitabilität des Konzerns verringern, oder die Aufnahme zusätzlichen Eigenkapitals notwendig machen. Sonstige aufsichtsrechtliche Reformvorschläge infolge der Finanzmarktkrise, z.B. Belastungen wie die Bankenabgabe, eine mögliche Finanztransaktionssteuer, die Trennung des Eigenhandels vom Einlagengeschäft oder verschärzte Offenlegungs- und Organisationspflichten, können das Geschäftsmodell und das Wettbewerbsumfeld des Konzerns wesentlich beeinflussen.

XVII. In the Base Prospectus CLN Programme, Element D.6 of the German Summary shall be amended as follows:

1. In section "Risiken im Zusammenhang mit dem Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen, der EU-Verordnung über einen Einheitlichen Abwicklungsmechanismus sowie dem Vorschlag für eine neue EU-Verordnung über die obligatorische Abtrennung bestimmter Handelsgeschäfte von Banken" the first paragraph should be replaced by the following:

Aufgrund des Gesetzes zur Sanierung und Abwicklung von Instituten und Finanzgruppen (Sanierungs- und Abwicklungsgesetz – SAG), das den EU-Rahmen für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen (Richtlinie 2014/59/EU, die "**Bankenabwicklungsrichtlinie**" oder "**BRRD**") in deutsches Recht umsetzt, kann die zuständige Abwicklungsbehörde u.a. die Bedingungen der Wertpapiere ändern (z.B. die Laufzeit verlängern oder bestehende Kündigungsrechte aufheben) und Ansprüche aus den Wertpapieren auf Zahlung von Kapital, Zinsen oder sonstigen Beträgen in eines oder mehrere zum harten Kernkapital der Emittentin zählende Instrumente (wie beispielsweise Stammaktien) umwandeln oder dauerhaft bis auf null herabsetzen (nachfolgend zusammenfassend als "Aufsichtsrechtlicher Bail-in" bezeichnet). Die Inhaber der Wertpapiere können daraus keine Ansprüche gegen die Emittentin herleiten, und es besteht insoweit keine Verpflichtung der Emittentin zur Leistung von Zahlungen auf die Wertpapiere. Ein solcher Fall kann dann eintreten, wenn die Emittentin (nach Maßgabe der gesetzlichen Definition) „in ihrem Bestand gefährdet“ ist bzw. von der zuständigen Aufsichtsbehörde als „in ihrem Bestand gefährdet“ angesehen wird und ohne eine solche Umwandlung bzw. Herabschreibung oder staatliche Stützungsmaßnahmen nicht länger imstande wäre, ihrer beaufsichtigten Geschäftstätigkeit nachzugehen. Die Abwicklungsbehörde hat ihre Befugnisse dahingehend auszuüben, dass (i) zunächst Instrumente des harten Kernkapitals (wie beispielsweise Stammaktien der Emittentin) zwecks Verlusttragung heruntergeschrieben werden, (ii) sodann der Nennwert der sonstigen (zum zusätzlichen Kernkapital oder Ergänzungskapital zählenden) Eigenkapitalinstrumente dauerhaft herabgeschrieben oder entsprechend ihrer Rangfolge in Instrumente des harten Kernkapitals umgewandelt wird und (iii) schließlich berücksichtigungsfähige Verbindlichkeiten, wie beispielsweise Verbindlichkeiten aus den Wertpapieren, in Instrumente des harten Kernkapitals umgewandelt oder entsprechend einer festgelegten Rangfolge dauerhaft herabgeschrieben werden. Der Umfang, in dem die Wertpapiere einem Aufsichtsrechtlichen Bail-in unterliegen können, hängt von einer Reihe von Faktoren ab, die außerhalb des Einflussbereiches der Emittentin liegen, und es ist schwer einschätzbar, ob – wenn überhaupt – ein Aufsichtsrechtlicher Bail-in eintreten wird. Anlageinteressenten sollten beachten, dass im Falle eines Aufsichtsrechtlichen Bail-in das Risiko eines Totalverlusts ihrer Anlage besteht. Staatliche Stützungsmaßnahmen kommen grundsätzlich erst nach weitestgehender Anwendung von Maßnahmen im Sinne der BRRD – einschließlich des aufsichtsrechtlichen Bail-in – in Betracht. Das Abwicklungsmechanismusgesetz („**AbwMechG**“) sieht unter anderem vor, dass im Falle eines Insolvenzverfahrens Zahlungen auf bestimmte nicht nachrangige, unbesicherte Schuldtitle (wie die Wertpapiere) (mit Ausnahme von Schuldtitlen, deren Rückzahlung (i) vom Eintritt oder Nichteintritt eines zukünftigen, noch unsicheren Ereignisses, ausgenommen die Entwicklung eines Referenzzinssatzes, abhängig ist oder (ii) auf andere Weise als durch Geldzahlung erfolgt) kraft Gesetzes erst nach vollständiger Erfüllung sämtlicher sonstigen nicht

nachrangigen Verbindlichkeiten der Emittentin erfolgen. Folglich wird diesen Schuldtiteln im Falle einer Insolvenz oder eines Bail-in ein größerer Verlustanteil zugewiesen. Diese Änderung in Bezug auf die Haftungskaskade im Fall einer Insolvenz oder eines Bail-in tritt zwar erst zum 1. Januar 2017 in Kraft, soll jedoch Rückwirkung entfalten und würde somit für alle zu diesem Zeitpunkt ausstehenden Wertpapiere gelten. Gläubiger haben einen Anspruch auf Entschädigung, wenn sie im Rahmen einer Abwicklung eine weniger günstige Behandlung erfahren, als dies im Rahmen eines regulären Insolvenzverfahrens der Fall gewesen wäre. Diese Einschätzung ist auf der Grundlage einer unabhängigen Bewertung durch die Emittentin zu treffen. Etwaige Entschädigungszahlungen werden unter Umständen erst erheblich nach den vertraglich vereinbarten Zahlungsterminen geleistet (wie auch im Insolvenzfall ausstehende Forderungen möglicherweise erst mit Verspätung erfüllt werden). Potenzielle Anleger sollten zudem berücksichtigen, dass die Liquidität des Sekundärmarkts für unbesicherte Schuldtitle möglicherweise sensibel auf Entwicklungen an den Finanzmärkten reagiert und bestehende Liquiditätsmaßnahmen (wie z. B. Repo-Vereinbarungen der Emittentin) die Anleger möglicherweise nicht davor schützen, diese Instrumente zu einem wesentlich unter ihrem Nennwert liegenden Kurs veräußern zu müssen, wenn die Emittentin in finanzielle Schwierigkeiten gerät. Im Falle einer Abwicklung kann die Fähigkeit der Emittentin zur Erfüllung ihrer Rückzahlungspflichten auch infolge einer Übertragung von Vermögenswerten auf ein Brückeninstitut oder im Rahmen einer Unternehmensveräußerung eingeschränkt sein.

2. The section "Steuereinbehalt nach dem US-amerikanischen Gesetz zur Regelung des US-Steuer-Reportings ausländischer Finanzinstitute (*Foreign Account Tax Compliance Act; "FATCA"*)" should be replaced by the following:

Steuereinbehalt nach dem US-amerikanischen Gesetz zur Regelung des US-Steuer-Reportings ausländischer Finanzinstitute (*Foreign Account Tax Compliance Act; "FATCA"*)

Die Emittentin ist möglicherweise verpflichtet, gemäß bestimmter Vorschriften, die auch als FATCA bezeichnet werden, Steuern in Höhe von 30 % auf alle oder einen Teil der Zahlungen einzubehalten, die (i) auf Wertpapiere geleistet werden, die mehr als sechs Monate nach dem Tag, an dem die endgültigen für "ausländische durchgeleitete Zahlungen" (*foreign passthru payments*) anwendbaren Vorschriften beim *Federal Register*, dem Mitteilungsblatt der US-Behörden für amtliche Bekanntmachungen, eingereicht werden, begeben oder wesentlich geändert werden, (ii) auf Wertpapiere geleistet werden, die mehr als sechs Monate nach dem Tag, an dem Verbindlichkeiten derselben Art erstmals als zu Dividendenäquivalenten führend behandelt werden, begeben oder wesentlich geändert werden, oder (iii) auf Wertpapiere geleistet werden, die unabhängig vom Tag ihrer Begebung für US-Steuerzwecke als Eigenkapital behandelt werden.
