Portfolio Composition

You can compose your portfolio from different building blocks of the radican investment universe. In addition to a broad global composition, you can focus on Swissness in the "Core". With our radiThemes we give you the possibility to set a further focus on certain SDGs that are particularly close to your heart with up to 2 "Satellites".

Investor profile (Core)

Equity / Bond weighting
(risk profile)

Optional Swiss Focus

(SDG-aligned certificates)

Resulting asset allocation (exemplary)

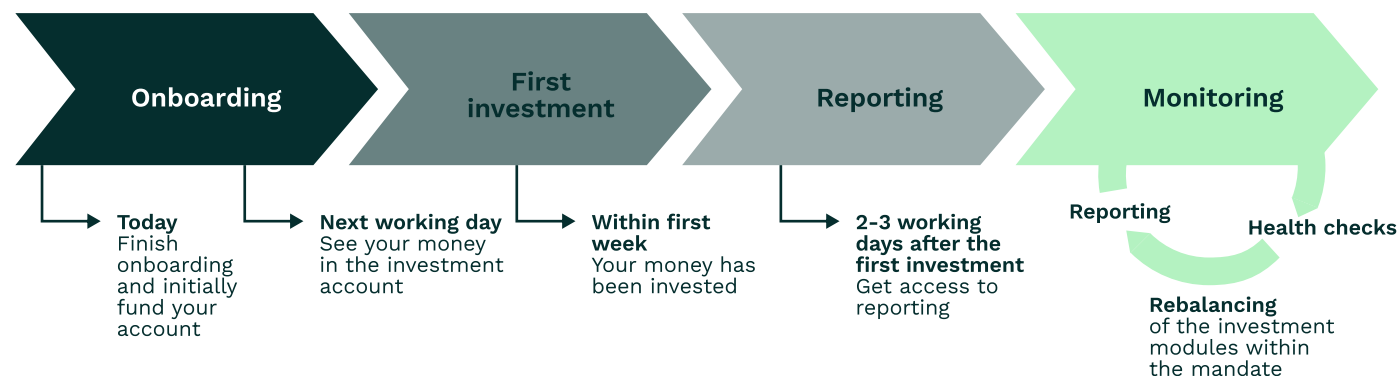

Investment Strategy and Asset Allocation

Based on your individual risk profile, we put together your personal investment strategy and determine the optimal mix of low-risk and higher-risk investments in a broad diversification for you. Of our 5 strategies, the equity component is allocated based on your risk profile and selection. The higher the equity component, the more risky but also potentially more lucrative the performance.

STRATEGY	OBJECTIVE & RISK	GLOBAL PORTFOLIO	PORTFOLIO WITH SWISSNESS
Cautious Very low risk	Your objective is to preserve your assets. You accept lower returns compared to riskier strategies.	<ul style="list-style-type: none"> Cash 2% Equity 20% Bonds 78% 	<ul style="list-style-type: none"> Cash 2% Equity World 15% Swissness 5% Bonds 78%
Conservative Low risk	Your objective is a steady increase in wealth. You accept small risks and fluctuations in your investments to achieve returns.	<ul style="list-style-type: none"> Cash 2% Equity 40% Bonds 58% 	<ul style="list-style-type: none"> Cash 2% Equity World 30% Swissness 10% Bonds 58%
Balanced Medium risk	Your objective is good returns with balanced risk-taking. You accept medium risks and short-term fluctuations in order to achieve your desired returns.	<ul style="list-style-type: none"> Cash 2% Equity 60% Bonds 38% 	<ul style="list-style-type: none"> Cash 2% Equity World 45% Swissness 15% Bonds 38%
Dynamic Medium to high risk	Your objective is primarily focused on high returns. You are willing to accept considerable risks and fluctuations to realize high returns in the long-term.	<ul style="list-style-type: none"> Cash 2% Equity 80% Bonds 18% 	<ul style="list-style-type: none"> Cash 2% Equity World 60% Swissness 20% Bonds 18%
Growth High risk	Your objective is geared towards highest possible returns. You accept high risks and significant fluctuations over time to maximize your return potential.	<ul style="list-style-type: none"> Cash 2% Equity 98% Bonds 0% 	<ul style="list-style-type: none"> Cash 2% Equity World 73% Swissness 25% Bonds 0%

Our Investment Process in Line with the SDGs

Our investment process begins with a rigorous construction of a radicant net positive impact investment universe based on our proprietary SDG Impact Rating. To ensure that all companies and bonds in the funds are of high quality and have a positive net impact on the SDGs, our model analyzes a wide range of financial metrics for each security in the radicant investment universe. radicant then creates a portfolio of selected stocks and bonds that is optimized for risk and return profile using modern portfolio theory. Lastly, it is your turn to fund your portfolio.

Fees

Investment amount	Wealth Management Fees	Product costs
CHF 1'000 - CHF 24'999	0.90% p.a.	0.40 - 0.47% p.a. (depending on the selected strategy and building blocks)
CHF 25'000 - CHF 99'999	0.80% p.a.	
CHF 100'000 - CHF 249'999	0.65% p.a.	
from CHF 250'000	0.50% p.a.
