# Introducing the 2024 Students Rebuild Extraordinary Earth Project!

This year, we're inviting students from around the world to learn about our environment and what we can do to protect our local and global ecosystems.

1

**Learn** about how we can protect our extraordinary earth through tackling global environmental issues like climate change. We provide the lessons, content guides, and other website resources.

2

**Create** art that helps deepen connections with the following environmental themes: Repurposing Waste, Deforestation, Clean Air and Ecosystems.

3

**Share** your artwork with us!

For each piece of art received, the Bezos Family Foundation will make a \$5 donation to organizations tackling environmental issues and the global climate crisis.

**The Extraordinary Earth Project runs from August 2023 to June 2024.**

For free registration, resources and more information, visit [studentsrebuild.org/earth](https://studentsrebuild.org/earth).
