

Incorporating the Immediate Pro Arch Fixed Solution into your practice

Course Overview

This two-day program is designed for experienced surgical and/or restorative clinicians to showcase all the steps involved in the diagnosis, treatment planning, and execution of immediate provisionalization for the Pro Arch Fixed Solution. A combination of live surgeries and hands-on training will expose dentists to this remarkable same day solution for completely edentulous patients and those with a terminal dentition. Surgical and prosthodontic tips and tricks learned over the past two decades will be shared, as well as a discussion on how to best communicate the benefits of this transformative treatment solution to your patients.

Learning Objectives

- To identify patients that are good candidates for the Pro Arch Fixed Solution
- To identify the pre-operative, surgical and prosthodontic workflows for you and your team
- To experience the conversion of a removable complete denture into a fixed immediately inserted transitional prosthesis
- To learn how to communicate the remarkable benefits of the Pro Arch Fixed Solution with patients and your team
- To be able to understand, identify, treat and most importantly prevent common complications associated with this treatment approach.
- To learn the detailed steps (tips and tricks) involved in the planning and execution.

Two tracks for learning: Depending on your training/experience/preference there will be a unique opportunity to have this treatment presented to you from either the surgical or prosthodontic perspective.

A specifically designed program for dental assistants and treatment coordinators will be available on Saturday, December 7/19.

Faculty

Dr. Steven Bongard	Dr. Brian Freund
Ms. Suzie Maxwell	Dr. David Powell
Ms. Michelle Ryckman	Ms. Flora Santos
Dr. Phil Walton	Mr. Terry Xie
Dr. John Zarb	Dr. Jack Zosky

This course is intended for dentists with experience in implant dentistry.

Continuing Dental Education

Our Faculty...

Dr Steven Bongard obtained his DDS degree from the University of Toronto Faculty of Dentistry in 1986. His professional interest has been concentrated on all aspects of implant dentistry since 1995. He has extensive experience in implant placement, bone grafting procedures as well as the prosthetic component of implant restoration. He has published and lectured both nationally and internationally on implant placement, full arch rehabilitation and non-grafted immediate approaches to implant surgery. He presently maintains a dental practice in Toronto, Ontario that is exclusive to the placement and restoration of dental implants. His recent focus has been on developing a community resource and training centre that can provide access to innovation, technology and advanced infrastructure, as well as support and mentoring, to the dental implant community.

Dr. Brian Freund earned his honors B.Sc. in molecular biology in 1977 from McMaster University in Hamilton, Ontario. He subsequently studied Dentistry at the University of Toronto earning his DDS in 1985. Returning to McMaster University he completed his medical degree in 1989. His post-graduate training in Oral and Maxillofacial Surgery was carried out at the University of Toronto finishing in 1993 with the successful completion of his Fellowship examinations. Presently, Dr. Freund is semi-retired. However, he is still actively teaching dentists Botox, fillers, and oral surgery skills through his continuing education courses.

Ms. Suzie Maxwell graduated from the George Brown College Denturist program in 2002. She worked in private practice for four years before joining Chrysalis Dental Centres where she is now the head denturist. Suzie has been able to focus almost exclusively on the All-on-4® treatment and has participated in thousands of cases. She has extensive knowledge both on the clinical and laboratory side and is one of the profession's most experienced clinicians on the conversion and restoration of the All-on-4® treatment concept.

Dr. David Powell received his DDM degree from McGill University in 2011 and then completed a General Practice Residency at the Jewish General Hospital in Montreal. After practicing as a general dentist at the same hospital for a year, he pursued his Prosthodontics speciality training and Masters of Sciences at the University of Toronto. He currently practices at Barrie Dental Specialists and is a member of the restorative team at Chrysalis Dental Centres. He is also a lecturer and assistant professor of Prosthodontics at University of Toronto and a staff Prosthodontist at Mount Sinai Hospital. In addition, he is a fellow of the Royal College of Dentists of Canada, member of the Association of Prosthodontists of Canada and member of the American College of Prosthodontists.

Ms. Michelle Ryckman has extensive experience in consulting with patients regarding high-end dental implant treatment. Her approach is simple, no-pressure, comfortable and has proven to yield incredibly high case acceptance. It focuses on communicating with patients and building structured relationships. Ms. Ryckman has lectured extensively throughout North America and Europe on her common sense "team" approach that focuses on understanding patients, from a unique "outside" of dentistry perspective. Ms. Ryckman is currently responsible for the development and implementation of the "new patient journey" and consultations with potential implant patients every day in a large thriving dental implant practice.

Ms. Flora Santos is a NDAEB certified level II dental assistant with over 24 years of chairside experience. She has focused her career on dento-alveolar surgery and has assisted in more than ten thousand implant surgeries. She is now the Clinical Coordinator at Chrysalis Dental Centres, responsible for staff training, implant and prosthetic inventories and all aspects of aseptic surgical techniques. She has unparalleled experience in implant placement protocols and components as well as the complete armamentarium, including graft materials, necessary for successful implementation of the surgical and prosthetic aspects of implant care.

Dr. Philip Walton earned his DDS degree from the University of Toronto. He completed externships at the University of Michigan and overseas at King's College London School of Medicine and Dentistry in London, England and completed his Masters of Medical Sciences degree in Periodontology at the Harvard School of Dental Medicine. Dr. Walton is a Fellow of the Royal College of Canada. He is a member of the surgical team at Chrysalis Dental Centres in Toronto where he has been focusing on the placement and immediate loading of dental implants as well as enhancing techniques for the development and maintenance of predictable soft tissue results in relation to dental implant placement and restoration. Dr. Walton is a former Associate Professor at the Faculty of Dentistry at University of Toronto, where he participated in the clinical and didactic training of undergraduate dental students. He also continues to maintain a strong affiliation to Harvard as a past clinical instructor, admissions committee member and active alumnus.

Mr. Terry Xie graduated from George Brown Dental Technology program in 2011. After graduation, he held positions at two dental laboratories in Toronto working in Crown and Bridge, Dentures, Ceramics and Quality Control. He joined Chrysalis Dental Centres in 2013, as part of the All-on-4 team, completing over 200 All-on-4 cases, and is now the manager of the in-house laboratory. Terry has extensive knowledge of the All-on-4 Treatment Concept, Ceramic Implant Restorations and CAD/CAM design.

Dr. John P. Zarb earned his DDS at the University of Detroit Mercy in 1995. Upon graduation, he completed a one year General Practice Residency at the VA Hospital in Ann Arbor, MI, followed by graduate prosthodontic training at the University of Toronto, earning his MSc in 2002. Dr. Zarb is a staff prosthodontist in the Graduate Prosthodontic Department at the University of Toronto and at Mt Sinai Hospital in Toronto, and a Clinical Assistant Professor at the University of Rochester, Eastman Institute for Oral Health. Dr. Zarb joined Barrie Dental Specialists in 2003. He is a Fellow, examiner and Prosthodontic Director of the Royal College of Dentists of Canada, a Fellow in the Academy of Dentistry International, and Fellow in the Academy of Prosthodontics and a former Director of the American College of Prosthodontists.

Dr. Jack Zosky graduated from the University of Toronto and received specialty training in Oral and Maxillofacial surgery at Northwestern University. He is a Fellow of the International Association of Oral and Maxillofacial Surgeons and the Royal College of Dentists of Canada. He is a member of the International Congress of Oral Implantology and the American Academy of Implant Dentistry. Dr. Zosky has authored several implant related articles and a chapter in the W. B. Saunders textbook "Endosseous Implants in the Maxillofacial Reconstruction." He has lectured in North America and abroad. He is past president of the Canadian Association of Oral and Maxillofacial Surgeons, past President of the Academy of Osseointegration Foundation and has Fellowship status in the Academy of Osseointegration. Dr. Zosky was head of the Dental Services Department at Trillium Health Sciences Centre and served as an Associate in Dentistry, University of Toronto for many years where he taught in the Implant Prosthodontic/Surgical Unit.
