COOKIE POLICY

_____

We respect your privacy and are committed to providing you with the information and tools you need to manage your cookies. We are committed to keeping your personal information safe. For more information on how we use your personal information, please refer to the Nadex Privacy Policy and GDPR Informational Guide.

WHAT ARE COOKIES?

Cookies are small pieces of text stored on your computer when you visit a website.

They are not programs and cannot be executed as code or deliver viruses – instead cookies act more like a passport, which the site checks and updates whenever you visit.

Almost every site on the internet uses cookies and their functions include:

- verifying your identity for security purposes
- determining the type of browser and settings you are using
- allowing site owners and third-party advertisers to tailor content to your preferences

WHAT TYPES OF COOKIES DOES NADEX USE?

There are three types of cookies Nadex uses to provide its services to you:

1) **Essential cookies** are necessary for the vital functions of our site and trading platform. If these are disabled, you won't be able to access the platform or other important parts of the site.

2) **Behavioral and analytical cookies** help us understand the way visitors and clients use our website so that we can provide you with better service. We use the data from behavioral and analytical cookies to improve our site, provide you with individually tailored content, and/or remember your saved settings. Some of the systems we use to track web traffic and site usage are provided by third-party companies such as Google. If you are a Nadex Member, there are certain behavioral cookies that you will need to accept in order to use our trading platform.

3) **Marketing cookies** enable you to experience more relevant online content and see advertisements which are aligned with your interests, as indicated by your activity on our site.

HOW CAN I CHANGE MY COOKIE SETTINGS?

You can manage cookies by changing the settings in the web browser on your computer or mobile device. From your web browser settings, you will be able to enable all cookies, disable all cookies, or allow only first-party cookies. Note that certain portions of the Nadex website and platform require essential and behavioural/analytical cookies in order to function.
