

The Profit Sharing Feature & 2019 Scale

The Kimberly-Clark 401(k) & Profit Sharing Plan (K-C 401(k) & PSP) has a profit sharing feature that allows you to share in the company's success. The annual discretionary profit sharing contribution is based on the Earnings Per Share (EPS) goal and any extraordinary circumstances that may have occurred during the year.

The profit sharing scale ranges between 0% and 8% of your eligible earnings, with a target of 4%. The scale below shows the EPS goal for this year with the corresponding scale range:

2019 Profit Sharing Scale					
EPS	\$3.31	\$4.96	\$6.61	\$8.26	\$9.92
Profit Sharing Contribution	0.0%	2.0%	4.0%	6.0%	8.0%

Eligibility & Timing

You'll receive an annual discretionary profit sharing contribution if:

- you're employed on December 31,
- you leave K-C during the year at or after age 55, or
- your employment ends due to death.

If eligible, the profit sharing contribution is invested into your 401(k) account during the first quarter of each year. The contribution amount is a percentage of your eligible earnings for the prior year. The percentage is determined based on the profit sharing scale to the nearest tenth of a percent (e.g., 3.9%).

Payout Example

Let's say you're an eligible employee who received \$60,000 in eligible earnings for 2019. K-C reaches an EPS of \$6.61 and approves the annual discretionary profit sharing contribution. Your 2019 profit sharing contribution would be invested into your 401(k) account during the first quarter of 2020.

Profit Sharing Investment

Your profit sharing contribution will be invested based on your investment elections in effect at the time the contribution is made. Be sure to review your contributions and investment elections regularly to see how they stack up against your retirement goals. To review your election, log in to netbenefits.com and select *View Summary*.

If you're currently not making employee contributions to the Plan, you're still eligible to receive the profit sharing contribution. Call Fidelity for more information on how the contribution will be invested and to learn how to start building your retirement savings.

Don't miss out.

In addition to the profit sharing contribution, K-C provides a Company match dollar-for-dollar on the first 4% of the eligible earnings you contribute to your 401(k).

The Scale and example outline the 2019 EPS target and corresponding profit sharing payout scale. These are guidelines for K-C to use, but the final profit sharing contribution is discretionary and will be determined at the end of the year. Contributions will be made and payable in accordance with the terms of the K-C 401(k) & PSP.
