

DONGPENG
VISION

At the beginning of our starting and undertaking, Dongpeng promptly showed the slogan of "In the multifarious building ceramics, Dongpeng will take the lead." Since implementing our brand strategy, great fame of ten years has been fully loaded, and we have been highly approved by the government and the society, and have successively obtained such top honors as a China's Famous Trademark, one of China's 500 most valuable brands.

Since 2003, we have become the single brand whose sales volume is the greatest in the building ceramic industry of China for 4 years in succession, and our market share has been promoted year by year. We obtained the special honor of an "Enterprises and Institution with Independent Brand and with the Most Growth Strength in China's Industry" for the two consecutively years of 2005 and 2006.

In 2006, Dongpeng Ceramic was chosen as a "Significant Brand of China's Building Ceramic Industry", having established the leading position of Dongpeng in the building ceramic industry of China.

In 2008, Dongpeng continued to hold a "Significant Brand of China's Building Ceramic Industry", having verified the significant status of the Dongpeng brand in the industry again.

In 2009, reappraised as "500 Most Valuable Brands of China" again, ranked on the 1st of building ceramics industry for its brand value at RMB 2.353 billion.

On 9th December, 2013, Dongpeng Holdings Company Limited was successfully listed in Hong Kong Main Board, and became the first ceramic tile company listed in Hong Kong. The Stock Code is 3386. HK. Today, Dongpeng has become a household brand representing the best quality ceramic tiles of China.

Dongpeng About Us

Founded in 1972, for over 47 years, Dongpeng remains a consistent pursuit to provide a low-carbon, eco-friendly and customized household solution for our customers. The core strategy of Dongpeng is to have a continuous innovation spirit with an eco-development direction.

Adhering to concept of "Working hand in hand with honesty and integrity", Dongpeng has transformed the role from a manufacturing enterprise to a service-oriented and ecological brand. Through creating value for customers and society, Dongpeng continues to enhance its own value and endeavor to become a leading player with sustainable growth.

With more than 47 year's development, Dongpeng has grown into an international company with more than 8000 employees, 3100 distributors all around the world, and has its products sold in more than 106 countries.

People grow great by dreams. We have a dream of letting Chinese ceramic being respected in the world; we have a dream of making consumers satisfied and letting employees live a prosperous and contented life. In the future, Dongpeng will be the same as always to create values for customers and make contributions to the society.

-  Dongpeng Overseas Distributors
-  New Showrooms in 2019 (Seven)
-  New Business Partners in 2019 (Eight)

With A Wide Coverage At
Home And Abroad

106 Countries
3,100 Distributors

Dongpeng Differences That Make The Difference

1 PRODUCTION LINE

With the most advanced and modern automatic production lines, Dongpeng can provide the high quality products that exceed the market expectations.

2 RAW MATERIAL

Using high aluminum materials with aluminum content of 21%, Dongpeng's tiles have higher rigidity.

3 INSPECTION

All raw materials will be inspected, so that the quality is controlled from the beginning.

4 BALL MILL

Dongpeng uses 60-ton ball mill, which is made by high quality aluminum, can provide stronger impact and better grinding.

5 DE-IRONING

Dongpeng uses high magnetic electric magnet to absorb the iron elements, and purify the tile body.

6 FEEDING SYSTEM

Dongpeng has the unique 32-tube feeding system, being exclusive in the industry, which helps Dongpeng to develop unique tile texture.

7 DRYING KILN

Dongpeng uses automatic 5 layer drying kiln, which reaches 250 meters. This will dehydrate tiles, ensuring moisture content below 0.6%.

8 STORAGE SYSTEM

Dongpeng has the unique laser-controlled automatic storage system, which improves the protection of each piece of tile.

9 FIRING TIME

Dongpeng extends the firing time to ensure the tiles' high hardness and resistance.

10 POLISHING

Dongpeng ceramic has longer polishing time, and higher brightness, which ensure longer product lifespan.

11 TESTING

Every piece of tiles produced by Dongpeng will pass machine inspection and manual inspection.

AINOS

FLOOR: YG996255 90x90/35.4"x35.4"

Description:

The naming of Ainos draws inspiration from the Mount Ainos located in Cephallinia in Greece. This Island ever depicted by Homer's Epic is believed to be the birthplace of Odysseus, who was hailed as the king of local people and used stones from Mount Ainos to build up fortresses in defense of territory security. As time goes by, this unique silver grey building material featured pureness, nature and mythology makes it possible for numerous designers and architects to stimulate their ideas. With the well-proportioned grains which look like slopes on hillside, the entire residential or public spaces can be endowed with retro and dynamic effect.

Description:

Named after Kona, one of most beautiful islands in Hawaii as a result of its charming shore. Dongpeng's Kona reproduces the perfect match between crystal blue ocean and argenteous sand beach with blue-and-white veins presenting horizontal extension to create simple but steady, plane but dignified, rough but unique contour, which pours a sense of vigour for high-class commercial and residential spaces.

Description:

Surrounded by myriad eye-catching rocks and limpid water featured emerald green, the Marble Caves, one of the Seven Caves wonders of the world, in Patagonia, Chile, is hailed as a splendid paradise on earth. Be inspired by this, Dongpeng Marble+ Miro serves to create an atmosphere of elegance, dignity, and tranquility. This pure grey white color carrying traces of noble family and the vivid grains characterized by smooth and tenuous lines, are the favorite of designers and architects as they can inject infinite vitality into luxurious residential and commercial areas.

Description:

The Rosetta stone, carved in black granodiorite during the Hellenistic period, is believed to have originally been displayed within a temple. It was probably moved during the early medieval period, and was eventually used as building material in the construction of Fort Julien near the town of Rashid (Rosetta) in the Nile Delta. Dongpeng Marble+ Rosetta was exactly born in this context. The distinctive high-class dark grey, accompanied by the white curving grains disorderly scattered on the surface, injects a sense of dynamic effect into spaces. Sophisticated Marble techniques also enhance all performances of Rosetta like the excellent abrasion resistance. Besides, its modern and minimalist style attracts wide attention of designers and architects.
