Join the Dairy Manager School
October 23-25 2018 - Sturgeon Bay, WI

VAS Dairy Management School will increase your leadership and management knowledge and capabilities, improve your dairy diagnostics and decision making skills, and enhance your ability to identify the unrealized potential on your dairy.

- ✓ **Milk Quality and Drug Residue**
- ✓ **Employee Management**
- ✓ **Parlor Management and Reporting**

"No one should be judged on their education or position, or how many papers that they have published. They should only be judged on what the audience does differently after being at the meeting..."

- Steve Eicker, DairyComp founder

Employee Management - Training, Recruitment and Safety

David Reid

David A. Reid, DVM owns and operates Rocky Ridge Dairy Consulting, LLC based in Hazel Green Wisconsin. The company is dedicated to providing dairy producers with information and services designed to maximize the production of quality milk. Dr. Reid has 44 years of experience as a practicing dairy veterinarian, dairy consultant, 8 plus years as an industry consultant and since 2011 again as an independent dairy consultant.

Dr. Reid owned Rocky Ridge Veterinary Service, S.C. His practice goal was to provide quality milk production management and consultation to dairy producers. Dr. Reid spent most of his time evaluating milk systems on dairy farms in all areas of the United States and has consulted with dairy producers and practitioners in Canada, Mexico, Hungary, Brazil and England. Dr. Reid is a member of the AVMA, KVMA, WVMA, Southwest WVMA, Grant County Veterinary Medical Association, and the National Mastitis Council.

Brandon Treichler

Brandon Treichler, DVM, Select Milk Producers. Dr. Brandon Treichler grew up on a family dairy farm in eastern Pennsylvania. Prior to veterinary school, Brandon worked for a major milking equipment manufacturer, troubleshooting milk quality concerns on commercial dairies.

After graduating from the University of Minnesota's College of Veterinary Medicine in 2012, he joined a 13-doctor, all-dairy practice in Eastern Wisconsin, where he specialized in milk quality consulting within veterinary practice. Today, Brandon is a quality control veterinarian with Select Milk Producers, primarily working with large dairies in Western Texas and Eastern New Mexico on the areas of animal welfare, milk quality, residue avoidance and human resource management.

Brandon is very active within the NMC (formerly National Mastitis Council) and the AABP (American Association of Bovine Practitioners), where he serves on the animal welfare committee.

Liz Griffith

Liz Griffith is currently the Director of Safety and Employee Recruitment for Tuls Dairies of Nebraska and Wisconsin. Tuls Dairies operates 5 milking sites, 1 calf site and 1 feedlot with over 300 employees total. Liz helps design and implement safety training, leadership training and improved on-boarding systems to help all employees acclimate to their positions within the company. She has worked in the dairy industry for over 30 years, both as a producer/manager and as a consultant. Her passion is helping dairy producers succeed with the people piece in order to maintain the success of their business. Liz was honored to receive the 2010 WDE Dairy Woman of the Year Award as well as the 2010 Ag Woman of the Year.
