

EUROLUB EAP 120 Öl-Verluststopper

Description:	Reduces oil consumption by sealing smaller leaks in plastic and rubber seals. For use between oil changes, for all gasoline and diesel engines.
---------------------	---

Application:	Just add to the engine oil, let the engine warm up. The effect occurs after 100-200 km. 300 ml are sufficient for up to 6 liters of engine oil. Attention: Not suitable for clutches with oil bath (for example motorcycle)!
---------------------	--

EAN:	Art.Nr. 005533	300 ml	4025377005539
-------------	----------------	--------	---------------

Delivery:	Art.Nr. 005533	24 x 300 ml	tin can
------------------	----------------	-------------	---------

Technical Data:	
Chemical Base:	Mixture of highly refined mineral oils and additives.
Density:	ca. 0,86 g/cm ³
PH-Value:	n.a.
Labeling:	See section of the latest safety data sheet
