

THE EXCHANGE

Welcome to The Exchange:
Where conversations start
and communities are built.

Built in 1930 by the John Graham Company to house the Seattle Stock Exchange, The Exchange is crafted for connection. Today, this premier art-deco building has been modernized to support Seattle's most innovative companies and house the city's most ambitious people. It is a place for those with a point of view and a passion for building community and their business.

Pioneers of a new era

This LEED-EB Platinum Certified and Energy Star-rated building is all about form and function. There is inspiration in the spaces with the lingering presence of great innovators that once occupied the hallways - from Edison Lamp Works, to General Electric, and Standard Oil. Now occupied by forward-thinking teams that will change their industries from within these walls - this is the home for you.
