

EVERYDAY AIR MOBILITY. FUELED BY HYDROGEN. POWERED BY SIMPLICITY.

Skai is a radically simple air mobility system designed to go from A to Anywhere. It is the first hydrogen powered eVTOL (electric vertical take off and landing) vehicle and service. Skai uses an energy source that's truly clean from end to end. It eliminates complexity for the most reliable and safe solution. Skai provides everyday transportation that is accessible to everyone.

Base Capabilities

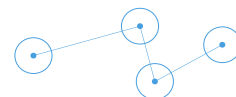

**All Electric Vertical Take Off
and Landing**

**Hydrogen fuel cell powered,
with zero pollution**

**Piloted, Ground-Piloted
and Fully Autonomous Flight**

**Point-to-Any-Point
Transportation**

Performance Goals

UP TO 4 HRS

Flight duration

UP TO 1000 LBS

Payload

UP TO 400 MILES

Range

FOR URBAN AND REGIONAL TRANSPORTATION

UP TO 118 MPH

Speed

UP TO 5

Passengers

<10 MIN

Refueling Time

Safety

**Fault-Tolerant
By Design**

3x

**Triple Redundant
Autopilot System**

6x

**Redundant 6-Rotor
Propulsion System**

**Redundant Hydrogen
Fuel Cell System**

**Fly-By-Light fiber optics based controls
for EMI and lightning protection**

1,2,3...

**Simplified Flight Control
Systems And Pilot Interface**

Airframe Parachute

Environmentally Friendly

**Clean Zero Emissions &
Carbon Free Travel**

**Hydrogen Made From Water,
With Emissions
Of Only Water**

**Fuel cell
95% reusable
99% recyclable**

**Hydrogen Fuel
Cell-Powered Electric**

**Efficient, Long-Lasting Fuel Cells:
Projected to Last Decades
at Normal Use Rates**

**Hydrogen Fuel Is Produced From
Renewable Energy Sources**

Craft Design

4+1

**Four Passenger Seats
Plus Pilot, with Ample Cargo
Space for Luggage**

**DESIGN
WORKS**

**Skai Craft is Designed
in Collaboration with
Designworks, a BMW Group
Company**

**Simple and Safe Design
Principles for an Easily
Scalable Solution**

**Luxury Cabin Interior,
Designed for Quiet, Smooth
and Comfortable Travel**

Applications

**skai
CAB**

**skai
MED**

**skai
CARGO**

**skai
CRAFT**

Multiple Business, Personal and Government Applications
