

Cyberplex Reports First Quarter 2013 Results

2.2000

TORONTO, ON --(**Marketwire** – **May 15, 2013**)- **Cyberplex Inc. (TSX: CX**) a leader in targeted mobile, social and online advertising, today announced its financial results for the first quarter ended March 31, 2013. The Company reported that first quarter financial results were within the range of guidance provided on May 3, 2013. Total revenue from continuing operations for the quarter was \$1.6 million, a decrease from the \$3.5 million recorded in the same quarter of 2012, and adjusted EBITDA loss for the quarter was approximately \$979,000 as compared to a loss of \$802,000 in the same period of 2012.

Highlights for the first Quarter ended March 31, 2013

- At March 31, the Company had cash on hand of \$4.7 million and no debt
- The Company transitioned away from its legacy technology development practice, reallocating resources to completing its core mobile and video real-time advertising platforms
- Social media targeting capabilities were significantly enhanced with the launch of social influence targeting, an industry first

"As reported earlier this month, our focus is now in line with our strength and what advertisers are demanding", said Geoffrey Rotstein, President and CEO. "Targeted advertising customer acquisition is where we are competing well in the market today and where we are investing for the future. Athough the change in focus has generated lower first quarter results, we are confident that the momentum we now have with agencies and large brands will be reflected in the coming quarters", added Rotstein. "2013 will be a milestone year for our organization, as we firmly establish ourselves as an innovator in the Canadian advertising and media industry."

Non-IFRS Financial Measures

This press release includes a discussion of "Adjusted EBITDA," which is a non-IFRS financial measure. The Company defines Adjusted EBITDA as net loss from operations before; (a) depreciation of property and equipment and amortization of domain properties and other intangibles; (b) share-based payments, (c) restructuring and acquisition costs, (d) impairments of goodwill and intangible assets and other items, net. Management uses Adjusted EBITDA as a measure of the Company's operating performance because it provides information related to the Company's ability to provide operating cash flows for acquisitions, capital expenditures and working capital requirements. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in its industry.

The non-IFRS financial measure is used in addition to and in conjunction with results presented in accordance with the Company's consolidated financial statements prepared in accordance with IFRS and should not be relied upon to the exclusion of IFRS financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-IFRS financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-IFRS financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-IFRS adjustments described above, and exclusion of these items

from the Company's non-IFRS measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

	Three months ended March		
(In thousands of Canadian dollars)		2013	2012
Net loss from operations	\$	(1,358) \$	(1,150)
Add:			
Depreciation of property and equipment		75	85
Amortization of domain properties and other intangibles		283	276
Share-based payments		21	(13)
Adjusted EBITDA	\$	(979) \$	(802)
