Award-winning care since 1923

Welcome to your Medical Home

It's not just a place; it's a partnership with your primary care physician.

For more than 100 years, Sharp Rees-Stealy Medical Group has put patients at the center of care. We work with you to create a personalized plan for reaching your goals. Need care on the go? You can reach your medical team by message, video chat, after-hours support, and through our Sharp app so you can stay on top of your health and medical history.

A patient-centered medical home means getting the right care at the right time.

Your primary care physician: Your health partner. Your primary care physician is not just a doctor but a partner in your health journey. They work with your care team, ensuring the best possible outcome for your health, including preventive care and lifestyle changes. Your primary care physician will order necessary tests and treatments and collaborate with Sharp Rees-Stealy specialists to meet your care needs.
