VIVATICKET

COOKIE POLICY

What are cookies?

Cookies are small text strings that websites visited by user send to his/her terminal (usually the browser), where they are stored before being transmitted back to the same websites at the next visit of the same user. While browsing a website, the user's terminal may receive cookies sent by different websites or web servers (so-called "third party cookies"), which may contain certain elements (for example, images, maps, sounds, specific links to pages on other domains) present on the website that the user is visiting. Cookies, usually present in users' browsers in very large numbers and sometimes even with long temporal persistence, are used for different purposes: IT authentication, browsing session monitoring, storing information on specific configurations regarding users who access the server, etc..

1. WHAT TYPES OF COOKIES ARE USED IN THIS WEBSITE?

TYPE OF COOKIES	USED BY	PURPOSE	COOKIE NAME
XSRF-TOKEN	Cloudflare	This cookie has been written to increase the website security, by preventing attacks based on falsification of requests between websites.	This cookie is written by the website
laravel_session	Vivaticket	Technical cookie served by the php framework. This cookie is used to navigate the site.	Technical cookie necessary for the proper functioning of the site
__cfduid	Cloudflare	The _cfduid cookie is used to identify individual clients behind a shared IP	Technical cookie necessary for the proper functioning of the

		address and apply client-based security settings. It does not match any user ID in your web application and does not store any personally identifiable information.	site
_hp2_id.xxx	Cloudflare	Cloud Flare technical cookies	HTTP cookie
optimizelyEndUserId	Cloudflare	Third-party cookie set by the optimization platform called Optimizely for the website. This cookie is a unique user identifier.	HTTP cookie
trvv.uid	Cloudflare	These cookies are used to analyze and track the visitor behavior, in order to display personalized content based on the user's choices.	HTTP cookie

2. AUTHORIZATION, BLOCKING AND CANCELLATION OF COOKIES

Each user can freely decide whether to install our cookies or to receive an on-screen warning for each cookie (individually considered) and then decide, on a case by case basis, whether to install it or not in the following way:

2.1. The configuration of browser navigation options

- For more information on the Google Chrome browser, please click [here](#)
- For more information on the Explorer browser, please click [here](#)
- For more information on the Mozilla Firefox browser, please click [here](#)
- For more information on the Safari browser, please click [here](#)
- For more information on the Opera browser, please click [here](#)

2.2 Use of third-party tools available online

Certain third-party tools available online allow the user to detect cookies in each website that he/she visits and to manage their deactivation, e.g.: if the user does not wish to be tracked by “Google Analytics” through all websites, he/she may access: <http://tools.google.com/dlpage/gaoptout>.

If the user configures his/her browser to reject all cookies or expressly rejected the cookies specifically of this website, he/she may have difficulties in completing the online purchase process in our Portal. Therefore, the user’s browsing on our website may be slower or experience some type of error.

The acceptance of the use of cookies in this Portal by the Users may be revoked at any time through your browser’s configuration options (mentioned above).

COMPLETE INFORMATION

Pursuant to art. 13 of the EU Regulation. 2016/679, for more information on the processing of personal data, please read the privacy policy on the website <http://www.vivaticket.com>.
