

Future-proof your management of high-risk pregnancy

High-Risk Pregnancy

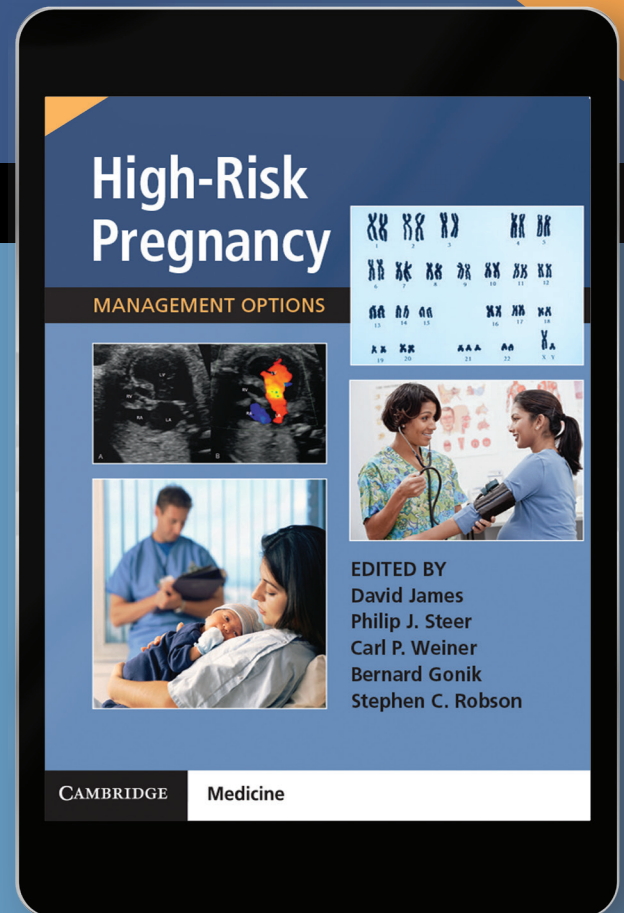

MANAGEMENT OPTIONS

High-Risk Pregnancy: Management Options is the leading authority on the evidence-based management of high-risk pregnancy.

Published by Cambridge and reviewed by experts in the field, it provides users with up-to-date national and international guidelines and good practice. It offers practical answers to the questions: What are the risks of this problem in pregnancy; How do I manage a patient with this problem; How do I perform this procedure?

Every section features a "Summary of Management Options" box, including a simplified evidence-based scoring system for each management strategy proposed: giving users a choice on which option to choose.

It also includes multimedia features, including video-clips and links to other websites and reference abstracts - making learning dynamic.

**Editors: David James,
Philip J. Steer, Carl P. Weiner,
Bernard Gonik &
Stephen C. Robson**

Associate Editors: Zarko Alfirevic,
Leanne Bricker, Aaron Caughey,
Edwin Chandraharan, Ken Chiang,
Jan Dickinson & George A. Macones
