

# WHAT TO BRING

The following list are suggestions to help you prepare for your stay. We recommend that you bring only the things which you cannot live without, as your room will fill up quickly. Unless you are in a single room, you will have a roommate(s) and will need to share your space accordingly. Items that interfere with fire safety equipment and laws are not permitted in the residence. Remember that you will be living in a city that has access to everything!
