Just Press J!

And Defend The Planet

Story

The planet is being attacked by angry space blobs, and you are given the only spacecraft capable of defeating them. There is however one problem , the engineers gave you all the necessary info to pilot this ship, but they left out one crucial detail... They didn't tell you how to fire your super awesome extremely deadly laser projectiles.

Just Press J!

And Defend The Planet

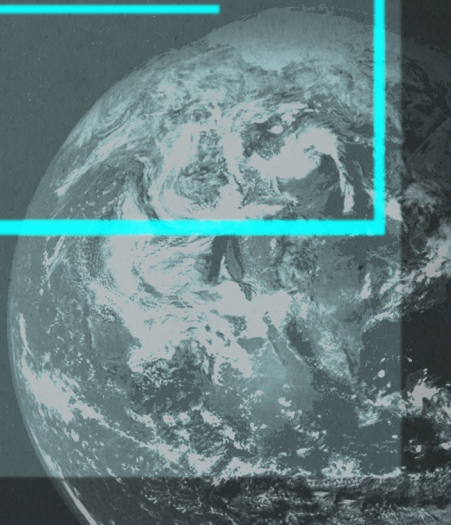

Controls

General movement , notice that the built-in ship AI prevents you from leaving the 'Battlefield'

More precise movement

Just press it, really

Just Press J!

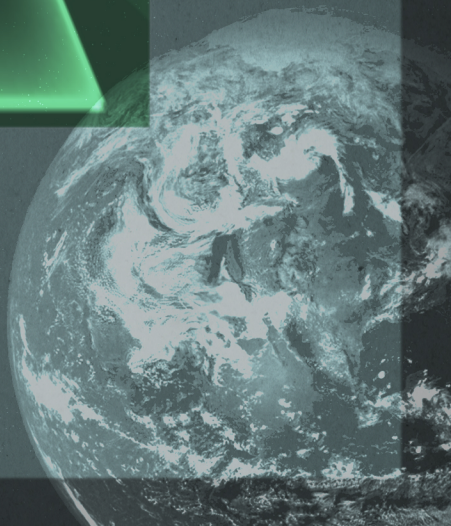

And Defend The Planet

The Game World

Aproximates
the arrival
of the next
wave.

Your ship automatically
generates this 'Battle-
field' , you will not
be allowed to leave.

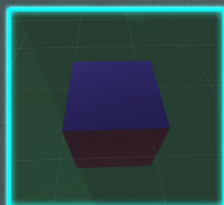

Just Press J!

And Defend The Planet

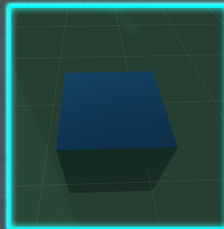

Units

Your ship , the J-Fighter .
Very powerful and especially
expensive . Do not crash it!

An alien blob Spreader ,
fires in all directions , be
very carefull when dealing
with multiple blobs.

An alien blob Tracker
, they can precisely
generate your position
and fire at it. Keep
moving!

There is no intel available on the
other blob species , be on your guard.
