John Viega

John Viega is the co-founder and Chief Executive Officer at **Crash Override**, a venture backed security startup founded in 2022. Viega is a well known security expert, author, and public speaker.

He has more than 25 years of experience in the security and software development fields holding executive leadership and technical leadership roles. He has published eight books on software and information security including the first ever book on software security, as well as a number of widely used open source tools like mailman and co-created GCM, a cryptographic algorithm standardized by NIST.

Prior to Crash Override he was the co-founder and CEO of Capsule (acquired by Sophos in 2021), EVP for products at Silversky (acquired by Raytheon) and the Chief Security Architect at McAfee.

He has a Masters degree in computer science from the University of Virginia, and is an adjunct professor at NYU where he teaches cryptography.

John lives in New York City.
