V-Tech Solutions Receives Certification as a Certified Business Enterprise (CBE) for the District of Columbia

Washington, DC ...November 16,2018 (“V-Tech”) a rapidly growing IT and professional services company specializing in Analytics, Cyber and Technical Services/Solutions announced today the District of Columbia has certified the company as one of its newest CBEs.

The CBE certification allows V-Tech to receive preferred procurement and contracting opportunities. The District directs spending to DC-based businesses that support and contribute to job creation and the city tax base, which in turn results in a stronger local economy. Each agency, including an agency that contracts or procures through the Office of Contracting and Procurement (OCP), must exercise its contracting and procurement authority. It must meet, on an annual basis, the goal of procuring and contracting 50 percent of the dollar volume of its goods and services, including construction goods and services, to Small Business Enterprises (SBEs).

In addition to the CBE certification, V-Tech has attained the categories of Local Business Enterprise (LBE), Small Business Enterprise (SBE), Disadvantaged Business Enterprise (DBE), Resident-owned Business Enterprise (ROB), Development Enterprise Zone (DZE), Longtime Resident Business Enterprise (LRB) and Veteran-owned Business Enterprise (VOB). These categories allow V-Tech to receive additional preference points or percentages (12) under the terms of the contract when bidding, which is discounted from our overall pricing model.

V-Tech’s President and CEO Victor P. Holt commented: “As a native Washingtonian, I am proud of the opportunity to support the city that I grew up in while attending DC Public Schools K-12. V-Tech looks forward to working with the District and developing a long-term *“Partnership in Excellence”* with the City!”
