The District of Columbia Awards V-Tech Solutions, Inc., Personal Care Assistants Contract

Washington, DC- V-Tech Solutions, Inc., received a Blanket Purchase Agreement (BPA) with the District of Columbia Department on Disability Services (DDS) to provide Personal Care Assistant Services for persons with physical and/or mental impairment. The focus of the program is to ensure District residents with disabilities or hardships have the assistance they need to gain employment with adequate accommodation to meet their personal and professional needs. The goal of supported employment is to assist people in finding and keeping employment in competitive jobs in integrated work settings.

V-Tech is excited to provide these services to District residents. The District's Supported Employment (SE) program is a service that is integrated into its Vocational Rehabilitation (VR) Program. The SE program services provide on-going support to assist individuals with the most significant disabilities to maintain competitive employment in an integrated work setting. Under the Employment First philosophy, competitive, integrated employment is the first and overwhelmingly preferred option for working-age youth and adults with disabilities.

This new project is particularly valued by V-Tech leadership as we continue to grow and expand our Health Services offerings. Victor P. Holt, V-Tech's President and CEO says, "V-Tech is proud of our most recent Health Services accomplishments and initiatives which allow us to give back to our community in a big way! As we continue to extend our portfolio of services to those in need, we know we are touching populations that are too often overlooked."

###
