

What Our Community Says...

We are 100% committed to providing a refreshingly different experience when it comes to helping people manage their larger healthcare costs.

But, don't just take our word for it.

"You're definitely friendlier on the phone [than insurance]. I want to call you just to talk to you. And you gave me all the information I needed in 5 minutes. To get through to someone in health insurance takes forever. You addressed all my issues and I have two hours back in my day. I would put that in your marketing material."

"This whole process has been a lot to learn, but I love how I am always connected to a person and never an automated voice thing. She always knows who I am. I don't have to re-explain everything and that is amazing."

"This experience with you and Sedera, concerning my Need requests, has been the polar opposite [in a very good way] of the "normal" insurance process and is such a welcomed relief."

"My first experience utilizing the Sedera community came when I had an emergency c-section with my second son and then he spent ten days in the NICU. Throughout the sharing of our Need, I saw how the community works through a compassionate team at Sedera. I was completely shocked at how easy it was and how much I liked being part of the process. This was so significant, I asked Sedera if I could come work for them."
