What is Ted's Woodworking?

Ted's Woodworking is a complete woodworking resource designed to make complex woodworking projects simple and accessible.

With a library of more than 16,000 plans, it provides everything needed to create furniture, outdoor structures, and decorative woodworking projects.

Each plan includes comprehensive instructions, precise material lists, and detailed schematics, allowing users to follow projects step-by-step without confusion.

The program emphasizes efficiency by helping woodworkers avoid unnecessary waste and reduce project costs.

In addition to plans, the program provides video tutorials, diagrams, and multiple views of finished projects, allowing users to visualize outcomes before starting.

Ted's Woodworking is suitable for a wide range of skill levels, making it ideal for beginners, hobbyists, and intermediate woodworkers.

Its focus on clarity, precision, and accessibility ensures that users can confidently tackle projects that might otherwise seem intimidating.

Lifetime access and regular updates mean the program remains current, continuously offering new plans and techniques to keep woodworking projects fresh and engaging.

About the Creator

The mastermind behind this comprehensive woodworking program is **Ted McGrath**, a certified master woodworker with over 25 years of hands-on experience.

Ted is not only a skilled craftsman but also a trainer, author, and active member of the Architectural Woodwork Institute (AWI). His passion for woodworking is matched by his dedication to making woodworking accessible to everyone.

Early in his career, Ted noticed that many existing resources, such as magazines or online plans, were incomplete, assumed access to expensive tools, and often lacked critical instructions for beginners.

Frustrated with these limitations, he created **Ted's Woodworking** to provide precise, step-by-step guidance for all types of projects.

Ted's extensive experience ensures that each plan is practical, achievable, and designed with efficiency in mind. His mission is to empower woodworkers to succeed at every skill level, offering clear instructions, material lists, and visual schematics.

With Ted's expertise driving the program, users gain access to professional knowledge and techniques that enhance both their skills and confidence in woodworking.
