

Bank CEO announces that Monument achieves full banking licence

I am delighted to share that Monument has just achieved the lifting of restrictions on our banking licence. We are now a fully-licensed bank with the authority to take public deposits which are FSCS insured - a very significant moment for everyone involved.

A special thanks to our team members, Board, Shareholders, and Partners, without whom we couldn't have achieved this milestone. Over

the past several months, we have worked tirelessly to create a bank worthy of the clients we can now serve: people who deserve better.

We are looking forward to every opportunity to differentiate ourselves in the eyes of our clients. With our leading-edge technology and high-calibre team, we will deliver services that delight our clients, but we are also certain that we will need to be responsive and evolve with the growing demands and opportunities we will face. We are committed to facing these prospects with a genuine commitment to establishing a new, high standard in banking.

Yours

Mintoo Bhandari

Chief Executive Officer
Monument Bank Limited
