

Javier Polit

Chief Information Officer

Javier Polit leads Information Technology, a global organization focused on harnessing data and analytics and artificial intelligence to drive top- and bottom-line growth while better serving consumers, customers and employees.

Since joining P&G as Chief Information Officer in 2017, Javier has overseen an unprecedented investment in IT by the company, underscoring the critical nature of technology in growing and protecting P&G’s business and delivering connected products that improve everyday life. He is focused on building an industry-leading organization and is responsible for the infrastructure and platforms (supply chain, global sales, etc.), information security and data and analytics used in the research, production, shipping, and marketing of our products and in the collecting, transferring, storing and processing of consumer, customer, employee, vendor and investor information.

Javier, who was born in Ecuador, is a global technology thought leader with strong commercial acumen. Prior to joining P&G, he held C-suite and executive-level positions at The Coca-Cola Company, Nations Bank and Office Depot. Outside of P&G, Javier serves on several advisory boards and lends his leadership and support to many philanthropic organizations.
