Compact wireless technology for access to crop data

Get Connected. Improve crop performance and reduce errors with the power of data and remote monitoring. Receive wireless monitoring data from all Bluelab Connect devices to your computer and smartphone or tablet. Receive important push notifications on your mobile device so you can respond immediately to changes, support growing decisions and improve crop performance. Send wireless data 100m/330ft to and from Connect devices within the growing environment and up to 400m/1312ft in open space (line-of-sight). Only one Connect™ Stick 2 required to receive wireless data from up to 50 Connect™ devices.

Features:

• Send wireless data 100m/330ft to and from Connect devices within the growing environment.*
• Send wireless data 400m/1312ft to and from Connect devices in open space (line-of-sight).*
• USB connection plugs directly into a computer for fast setup.
• Long 3m/10ft cable for position high for best signal performance.
• Long-range external antenna for increased wireless range performance.
• Wall or surface mount options.
• Works with Connect Range Extender 2 for extra-long wireless range - up to 700m/2300ft*.
• Uses Zigbee wireless - not wifi or Bluetooth.
• Installation instructions included.
For use with:
• Bluelab® Guardian Monitor Connect™
• Bluelab® Guardian Monitor In-line Connect™
• Bluelab® pH Controller Connect™
• Bluelab® Pro Controller Connect™
• Bluelab® Connect™ Range Extender 1 and 2
*Wireless range can be affected by walls and plant canopies which can deteriorate range performance
