Timeless craft for cultured hospitality.

ABOUT US

Stellar Works stands for a renaissance of refined culture and Asian aesthetics. Inspired by the long standing craft and industry of traditional cultures, it represents a commitment to bridging the gap between old and new, East and West – in attitude, form and application.

Stellar Works seeks to reintroduce past collections of classics, alongside culturally-inspired contemporary signatures. It infuses freshness into heritage and grounds innovation with enduring craftsmanship.

IN 2012

We established Stellar Works as a way to bring ideas together: East and West, heritage and modernity, craft and industry – bringing the best of the past into the light of the present.

Our aim was to inspire a renaissance in Asian aesthetics, taking the forms, styles and motifs that have characterised Japanese design across the centuries and filtering them through the lens of the European tradition to create something new and timeless.

Marea

by Alessandro Munge

Rooted in Alessandro Munge’s Italian heritage and shaped by a contemporary Canadian sensibility, this collection is an ode to the beauty of contrasts. Each piece tells a story where softness meets strength, function embraces artistry, and organic forms blend seamlessly with modern refinement. Inspired by nature’s quiet and soft grace in contrast with the straight and strong lines made by artisan craftsmanship, the collection transforms spaces with sculptural elegance.

The wooden profiles are more than structural — they are poetic. Subtle curves and clean lines flow harmoniously, while floating seat designs and thoughtfully integrated details, like metal back handles, add a sense of lightness and sophistication. By blending traditional woodworking techniques with innovative methods, the collection celebrates craftsmanship and durability.

With its timeless appeal and designs that unify residential comfort with hospitality finesse, it invites you to linger, connect, and experience beauty that endures across changing design landscapes.

Ynez

by Yabu Pushelberg

The Ynez collection introduces a sofa series where sculptural lines meet classic design, capturing the essence of romance through its curved silhouettes and soft geometric forms. Its name, meaning “Pure” in ancient Greek, reflects this purity in design, offering a range of pieces from One Seater Sofa to Two Seater Sofa and Ottoman that feel both modern and nostalgic.

This collaboration between Stellar Works and Yabu Pushelberg draws on their shared ability to create pieces that resonate across cultures, blending rich materials and precise construction methods to honor both Eastern craft traditions and Western design sensibilities. Achieving an elegant posture that also provides comfort was a challenge, evolving from hand sketches to multiple prototypes to ensure every angle delivers both visual impact and genuine care for the sitter.

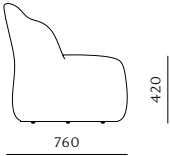

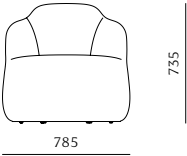

Whether beside a fireplace, in a library, or as the anchor of a lobby vignette, the Ynez collection fosters intimacy and conversation. Its diverse formats, distinct yet complementary, allow for unity in large-scale settings without repetition.
