Asian sensibility, timeless craft.

ABOUT US

Stellar Works stands for a renaissance of refined culture and Asian aesthetics. Inspired by the long standing craft and industry of traditional cultures, it represents a commitment to bridging the gap between old and new, east and west – in attitude, form and application.

Stellar Works seeks to reintroduce past collections of classics, alongside culturally-inspired contemporary signatures. It infuses freshness into heritage and grounds innovation with enduring craftsmanship.

IN 2012

We established Stellar Works as a way to bring ideas together: East and West, heritage and modernity, craft and industry – bringing the best of the past into the light of the present. Our aim was to inspire a renaissance in Asian aesthetics, taking the forms, styles and motifs that have characterised Japanese design across the centuries and filtering them through the lens of the European tradition to create something new and timeless.

***We bridge the gap
Between east and west***

Neri&Hu

Creative Directors of Stellar Works

Stellar Works' creative direction is overseen by the Neri&Hu Design and Research Office. Founded in 2004, the design practice is based in Shanghai and London and led by architects Lyndon Neri and Rossana Hu. The company's diverse, multicultural team strives to reinvent classic craft, adding a fresh, contemporary touch to their projects and collaborations all over the world.

Neri&Hu's interdisciplinary approach to architecture and interior, graphic and product design is rooted in context, never formulaic or conventional, and built around a commitment to creating forms with meaning. The studio's work has earned a lot of awards internationally. In 2013, Lyndon Neri and Rossana Hu were inducted into the U.S. Interior Design Hall of Fame. The practice was selected as the 2011 INSIDE Festival Overall Winner, won AR Awards for Emerging Architecture 2010 by Architectural Review (UK) and selected as one of the Design Vanguards in 2009 by Architectural Record.

Studio Stefan Scholten

Stefan Scholten (1972) has become one of the defining voices in world-renowned Dutch Design after graduating from the Design Academy Eindhoven in 1995. He is known for his reductionist design style combined with a unique use of colour. His designs are functional and applicable, but always expressive.

Scholten's approach is also known as the atelier-method-of-working. During the design process, he thinks with his hands as much as possible. He will keep on sketching, drawing and mixing colours until an original and new design emerges.

Based in Amsterdam, the studio has produced highly coveted objects in furniture, lighting, textiles, and tableware. Their clients include a variety of well-respected brands.

Inter

by Neri&Hu

The Inter collection harness the inherent beauty of simple materials, blending them into pieces that seamlessly balance sculpture and furniture, art, and function. The interplay of vertical and horizontal elements defines each component's function, with deliberate dualistic contrasts—wood versus metal, tube versus plank. This not only enriches visual appeal but also enhances the collection's versatility for a wide range of spaces.

Two distinct pieces within the collection echo this design spirit: one stands tall as an open coat hanger, while the other, with a lower profile, serves as a console.

Lyrical

by Neri&Hu

The Lyrical collection is an homage to the artistry of woodcraft. At first glance the round side tables are deceptively simple, a solid wood top with a wooden structure support. Details such as the subtle curvature of the edge profile, the foot that slightly elevates the frame, the asymmetrical offset of the secondary legs, the lip on the edge of the table top - these reveal a certain level of craftsmanship and bring a touch of sophistication.

Along with a selection of color finishes and sizes, the minimal yet refined design makes the lyrical side table an everyday table for many settings: commercial or domestic, casual or luxe, playful or neutral.

Mr.B

by Neri&Hu

Inspired by Shanghai's iconic Bund, where the old seamlessly merges with the new and where rich history coexists with modern life, the Mr. B collection reflects a harmonious blend of Eastern and Western cultures. The modern aesthetic is evident, yet the influence of traditional old culture is intricately woven into the details. The collection showcases a fusion between the robust wood structure derived from traditional carpentry heritage and the metal details that speak to an industrial influence. The well-tailored upholstery provides clean lines as well as a comfortable seating experience.

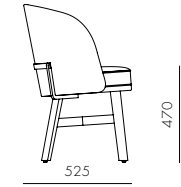

The Mr. B collection is comprised of a dining chair, lounge chair, swivel bar chair, and a two-seater, each bringing an understated touch of sophistication. Suitable for both residential and hospitality spaces, these pieces embody the subtle elegance that captures the essence of Shanghai's spirit.

Qi

by Neri&Hu

Named after the traditional Chinese concept of a "small sleep" at noon, the Qi Sofa draws inspiration from the Luohan Chuang - a dual - purpose bench for sitting and sleeping. Blending modern versatility with the minimal style of Jean-Michel Frank, it combines a wooden structural base with a padded platform and cushions for comfort in both seated and reclined positions.

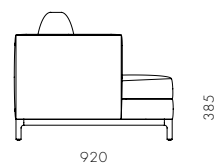

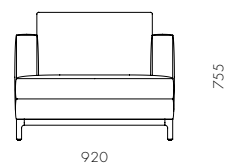

The collection comprises one, two, and three-seater sofas in wood with textile upholstery, suitable for diverse living spaces. Qi seamlessly infuses a subtle Asian aesthetic into contemporary contexts.

Taiko

by Studio Stefan Scholten

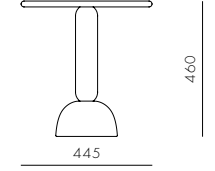

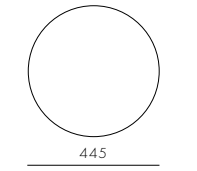

Inspired by Stellar Works' commitment to East-West harmony, the Taiko side tables draw from the iconic Taiko drums. Their rounded aesthetics and commanding presence influence the carefully crafted shapes, blending cultural elements for visually striking and functional design.

Available in three sophisticated terrazzo combinations - ice white, color gold, and carbon black - the Taiko side tables seamlessly combine form and function. The Taiko side tables stand as a testament to the successful fusion of innovation and functionality in contemporary furniture design.
