Your wireless earbuds

Step 1: Charge up & power on

Note: Before use, charge until the status light turns green.

Step 2: Pair with Bluetooth™

1

Turn on Bluetooth on your device.

2

Turn on your wireless earbuds.

Light blinks blue.

3

On your device, go to the Bluetooth menu to pair & connect.
Enter 0000 if prompted.

4

When the device and earbuds connect, you'll hear a tone.

Light is solid blue.

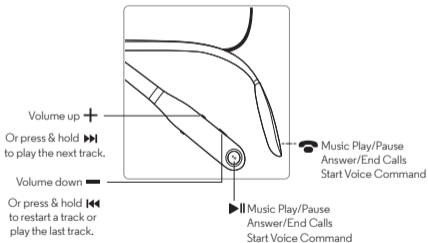

Step 3: Download App

Download **Hubble Connect for VerveLife** from The App Store® or Google Play™ to enjoy some extra functionality such as Battery Meter and last known location of your headset.

Calls, Voice & Music Control

The buttons at the ends of your earbuds perform the same functions. Press either button to control calls, voice commands, and music.

Note: Voice control may not work on some devices or in all languages.

Note: Some features are phone/network dependent

Music	
play/pause	press  or 
volume down/up	press  or 
next/previous track	press and hold  or  Note: Depends on your phone's music controls.
change EQ settings	press  and  at the same time to go to the next sound profile
Calls	
answer/end call	press  or 
mute during call	press  and 
reject a call	press and hold  or 
Voice	
to issue a voice command	press and hold  or  then say the command

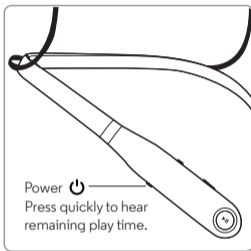

Advanced

Status Lights

Pairing mode	blinking blue
Connected	steady blue
Low battery	blinking red
Charging	steady red
Full charge	steady green
Charge level check	steady green for 2 seconds
Power off	fading in/out blue

Charge Level Check

Note: Not available on all models.

Note: Your battery is designed to last the life of the product. It should only be removed by a recycling facility. Any attempt to remove or replace your battery may damage the product and void your warranty.

Reset

Turn off Bluetooth for all connected devices. Turn on the wireless earbuds, then press and hold **▶||** and both volume buttons until the status light shows alternating red and blue. You'll hear a tone.

Note: This product contains exposed magnets and may damage magnetic information, such as credit card strips and ID cards.

Second device

Do you use a phone and a tablet? Or two phones?
Connect with both of them at the same time.

- 1 Pair with your first device using the steps in “Pair with Bluetooth™” on page 3.
- 2 Turn off Bluetooth on your first device (your phone, tablet, or computer).
- 3 Turn off the wireless earbuds. Then turn them back on
- 4 Pair with your second device using the steps in “Pair with Bluetooth™” on page 3.
- 5 On your first device, turn Bluetooth back on to connect to it simultaneously. You’ll hear a tone when the first device connects.

Tip: To switch and play audio from the second connected device, pause the current music device, then press play on the second device.
