IMPORTANT! Read all instructions before installing and using. Installer: This manual must be delivered to the end user.

WARNING! Failure to install or use this product according to manufacturers recommendations may result in property damage, serious injury, and/or death to those you are seeking to protect!

Do not install and/or operate this safety product unless you have read and understand the safety information contained in this manual.

1. Proper installation combined with operator training in the use, care, and maintenance of emergency warning devices are essential to ensure the safety of emergency personnel and the public.
2. Emergency warning devices often require high electrical voltages and/or currents. Exercise caution when working with live electrical connections.
3. This product must be properly grounded. Inadequate grounding and/or shorting of electrical connections can cause high current arcing, which can cause personal injury and/or severe vehicle damage, including fire.
4. Proper placement and installation is vital to the performance of this warning device. Install this product so that output performance of the system is maximized and the controls are placed within convenient reach of the operator so that s/he can operate the system without losing eye contact with the roadway.
5. It is the responsibility of the vehicle operator to ensure daily that all features of this product work correctly. In use, the vehicle operator should ensure the projection of the warning signal is not blocked by vehicle components (i.e., open trunks or compartment doors), people, vehicles or other obstructions.
6. The use of this or any other warning device does not ensure all drivers can or will observe or react to an emergency warning signal. Never take the right-of-way for granted. It is your responsibility to be sure you can proceed safely before entering an intersection, drive against traffic, respond at a high rate of speed, or walk on or around traffic lanes.
7. This equipment is intended for use by authorized personnel only. The user is responsible for understanding and obeying all laws regarding emergency warning devices. Therefore, the user should check all applicable city, state, and federal laws and regulations. The manufacturer assumes no liability for any loss resulting from the use of this warning device.

Specifications:

The MR6 Headliner Brackets for all models fit over the vehicle's headliner and provide a signal through the windshield. For MR6 light head specifications and operation see the MR6 installation manual.

Installation and Mounting:

Step-1. Pry open the small cover on the sun visor retaining clip with a small flat bladed screwdriver to gain access to the sun visor retaining clip screw. Remove the single Torx screw that holds each clip in place.

Step-2. Remove the plastic visor clips from the headliner fabric. Thread the Torx screw back into the plastic clip just slightly for easier assembly later.

Step-3. (For 2015+ RAM see Note**) Making sure the light head's cable is routed through the provided notch in the headliner bracket, Align the rectangular slot in the lower portion of the headliner bracket with the visor clip's rectangular hole in the vehicle's headliner. The bracket will be entirely visible as it is positioned over the headliner.

Step-4. Position the headliner and bracket back into position and reposition the visor clip through the rectangular opening in the headliner bracket and the vehicle's headliner and refasten it using the screw removed in step 2.

Step-5. Route and wire the light head wiring as desired.

NOTE** For 2015+ Dodge Ram headliner brackets: (2) Additional brackets are needed as light head must first be fastened to the additional brackets, then the additional brackets can be mounted to the headliner bracket.
