

## PERIMETER LIGHTING

## LED SCENE LIGHTS

### "Instant On" LED Scene Lights

Code 3's LED Scene Light has focused perimeter lighting without using angled bezels and the LED technology provides better scene lighting with far less amperage than halogen. It is designed as an "Instant-On" and does not require warm-up time. Features include standard industry mounting and dimensions, surface mounted, chrome bezel, and light angles down 8° to 32° from a horizontal position.
