

LIGHTBARS

RX2700™ CC - 27 SERIES

Dual Reflector Technology

The RX2700™CC offers advanced dual reflector LED technology that provides a brighter signal for superior visibility and safety. Its aerodynamic design improves fuel efficiency, and there are a full range of options that allow customization to meet specific requirements. Features include easy to operate central controller, 1000 series flash pattern software, dimming feature, cruise lights, built-in NarrowStik™ function, and adjustable mounting kit.

Features

- Multi-color capability that uses the latest LED reflector optic technology to provide intense light output that is 20% brighter than any competitive reflector technology
- Easy to operate central controller changes settings or flash patterns with a single touch
- Dual-color: 22 LED directional PriZm™ II lightheads
- Single-color: 12 LED, 8 LED, or 3 LED directional PriZm II lightheads
- SmartPro™ controller allows one touch setting/changing of flash patterns

Options

- Length options - 18", 22", 36", 44", 47", 52", 58", 69", 80", & 91"
- Upper lenses available in red, blue, amber, clear or black
- 795H Opticom or N-3Emitter
- Stop/turn/tail lights
- Quick disconnect

Adjustable Mounting Kits

MODEL	WEIGHT	VERTICAL ADJUSTMENT
ADMKIT	2.9 lbs	0.625"

- Universal, low-rise fit that allows a lightbar to be adjusted to perfectly match the contours of today's emergency vehicles
- The adjustable mounting feet are pursuit speed tested (extra brackets are not required to meet pursuit speed rating)
- The bracket system allows the lightbar to be adjusted for height and front/back angle to ensure the lightbar is perfectly level
