

## PURSUIT™ TWO LEVELS OF LIGHTING

The Pursuit™ provides two complete levels of lighting while retaining the height of a single-level lightbar. It features an integrated lens sealing system, encapsulated control electronics and internal wiring channels to protect internal components. The Pursuit's unique design enhances off-angle visibility to enhance driver- and passenger-side safety. The lightbar also features an auto-dimming capability with photocell, which includes selectable dimming levels for each light. The C3 Pro™ software interface allows for an unlimited number of flash pattern. Users can preview the customizations before programming the lightbar.
