

MR6 SERIES MULTI-MOUNT

The MR6 and MR24 deliver exceptional straight-on and off-angle performance with Total Internal Reflector (TIR) or linear optics technology. These versatile LEDs offer the flexibility of four mounting options – surface mount, tilt bracket, self-adhesive mount, and edge mount – to mount virtually anywhere on police, fire and other emergency vehicles. They're available in single-, dual- and quad-color LED configurations with up to five color options. Features include a water-resistant design, phase syncing and sync function with other Code 3 warning lights.
