

MEGA THIN™ STIK SERIES - MATRIX® ENABLED

LOW-PROFILE, VERSATILE COMBINATION LIGHT

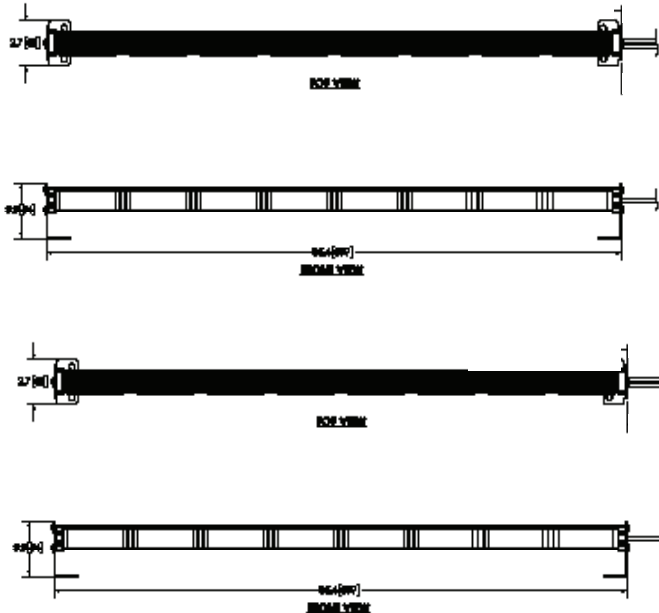

MTS26RBW-CM

The Mega Thin™ Stik delivers ultra-thin performance at just 1.6 inches high. Its waterproof, compact design mounts easily on upper and rear decks, behind the grille or on push bumpers. It offers 6 or 8 LED lightheads available in tri-color and customizable flash patterns through the Matrix® software. The plug-and-play setup works seamlessly with our Matrix siren or SIB. Curved optics improve off-angle visibility and it functions as a warning light, ArrowStik® traffic advisor, reverse light or steady-burn scene light. Vehicle brackets sell separately.
