

OUTLINER™ - MATRIX® ENABLED

TRI-COLOR WARNING FOR RUNNING BOARDS

The Outliner™ Matrix® distributes a bright output to increase visibility on running boards for side and intersection warning. The tri-color LED lighthead can be customized with the Matrix software to produce an unlimited number of flash patterns that can be synchronized across vehicles. Units include a simple to install CAT5 cable and power/ground cable. The Outliner features high-grade, powder-coated aluminum housing and sealed weather-resistant lighthead. Choose between 60" or 72" lengths.

VOLTS AMPS	12V 1.5A (OL60), 1.8A (OL72)
DIMS	0.6" H x 2" D 16mm H x 53mm D
FLASH PATTERNS	Unlimited
CERTS	[CLASS II (SAE J595) A, R, W only], [CLASS III (SAE J595) B only], CA T13 (R only), IP67, RoHS

- DETAILS**
- Customize any flash pattern using the Matrix software
 - Synchronize flash patterns across the vehicle
 - CAT5 cable allows plug-and-play with any Matrix siren or SIB
 - 60" and 72" lengths available
 - Each 12" section offers tri-color
 - Universal surface mount capability
 - Powder coated aluminum frame
 - Polycarbonate durable lens
 - Vehicle brackets sold separately
