

# INTERIOR LIGHTING

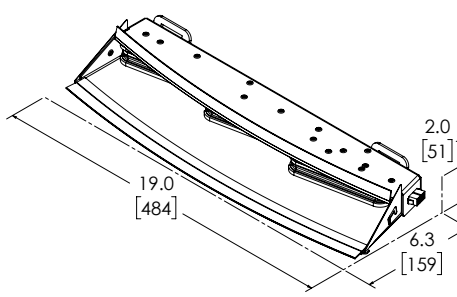

## SUPERVISOR™ FLEX - 37 SERIES

### Windshield Mounted Interior Light

Code 3's Supervisor™ Flex is designed to fit all police pursuit vehicles, special service vehicles, and many others. The quick disconnect allows users to install driver and passenger side separately and connect together when complete making installation easy and efficient. The expertly designed gaskets minimizes flashbacks, and it is installed with existing visor hardware so it looks like part of the vehicle against the upper interior of the windshield. It is available in Torus™ multicolor and single color LEDs. The single color model has 32 flash patterns, and the multicolor model has 32 flash sequences and 12 flash patterns.

MODEL	LENGTH	CHASSIS DIAGRAM
