Fitbit, Google, and related marks and logos are trademarks of Google LLC. ¹Maximum battery life is approximate and is based on testing conducted in California in 2025 on pre-production hardware and software, using default settings with a median Pixel user battery usage profile across a mix of talk, data, standby, and the use of features that are default in Battery Saver mode. Battery life depends on features enabled, usage, environment and many other factors. Use of certain features will decrease battery life. Actual battery life may be lower. Over time, Pixel software will manage battery performance to help maintain battery health as your battery ages. See g.co/pixelwatch/batteryhealth for more information on battery life. ²The Fitbit ECG app is only available in select countries and with select products. Not intended for use by people under 22 years old. See fitbit.com/ecg for more details. ³Health Metrics are not available in all countries. These features should not be relied on to diagnose or treat any medical condition or for any other medical purpose. They are intended to provide information that can help you manage your well-being. Significant changes in ambient temperature may negatively impact skin temperature tracking. ⁴Safety Check and Fall Detection require location enabled and 4G LTE or internet connection; are dependent on network connectivity and other factors; and may not be reliable for emergency communications, to detect all incidents, or be available in all countries or languages. ⁵Available when phone is nearby or phone free using LTE. ⁶Google Assistant and some related features are not available in all languages. Data rates may apply. See [here](#) for updates to language availability. ⁷Amazon, Alexa and all related marks are trademarks of Amazon.com, Inc. or its affiliates. Alexa is not available in all languages and countries. Alexa features and functionality may vary by location. ⁸New and returning Premium users only. Requires valid payment. T&C apply. After 6-month period, subscription renews at a regular charge. Cancel anytime. ⁹YouTube Music controls require a compatible phone within Bluetooth range and a paid YouTube Music Premium subscription. YouTube Music streaming (non-Premium version) is currently available only in Canada and the U.S. ¹⁰Google apps and services are not available in all countries or languages. Data rates may apply. ¹¹Compatible with workout machines that support the Bluetooth Heart Rate Profile. ¹²Fitbit Premium content and features may change. Content recommendations are not available in all locales and may be in English only. With eligible device purchase. ¹³New and returning Fitbit Premium members only. Must activate membership within 60 days of device activation. Valid form of payment required. After the 6-month period, subscription will renew at \$9.99 monthly or \$79.99 annually (based on your registration designation). Cancel anytime. Membership cannot be gifted. Content and features may change. ¹⁴For Mindfulness Sessions - only available in English, Spanish, Portuguese, French, German, and Japanese. ¹⁵For Sleep Score & Sleep Details - requires compatible Android or iOS device. ¹⁶For Blood Glucose Tracking - the Blood Glucose feature is not a replacement for medical advice and is not intended to diagnose or treat any medical condition. It is intended to simply help you monitor and keep track of your information. You should talk to your healthcare provider for more guidance on blood glucose management. If you believe you are experiencing a medical emergency, call 911.
