

EXODUS PROGRAM

BPC MIGRATION TO SAC - xP&A

Be Ahead of the Competition!

- Create Simulations & Forecast Scenarios
- Compare Planning Versions
- Integrated Budget Cycle
- AI Availability
- Data Governance
- Innovation with SAP BTP

PREPARE FOR DEPARTURE, WITH EXODUS

Migrating from SAP BPC to SAP Analytics Cloud Planning is a strategic move to enhance reporting, planning, budgeting, and forecasting.

Improving's Exodus Program offers a streamlined transition to SAC Planning, enabling advanced analytics and increased business agility in today's dynamic market.

Do I need to start over to begin?

Improving can help define the best migration approach, in alignment with your organization's strategy.

Depending on the migration approach, a comprehensive Explore phase may not be required.

Pain points and challenges of still using SAP BPC

End Of Maintenance – SAP's strategic focus is on SAC, driving product innovation

Intractable - Requires consulting expertise to enhance or adjust configuration

Low Integration - Limited Integration and connectivity

Scalability & Maintenance - High costs of maintaining servers and applications

EXODUS PROGRAM

BPC MIGRATION TO SAC - xP&A

“
Choosing the right **migration approach** depends on your organization's specific needs, resources, and **strategic goals**. Whether you opt for a quick lift-and-shift, a balanced hybrid approach, or a comprehensive transformational migration, transitioning to SAP Analytics Cloud Planning can **drive significant improvements** in your planning and decision-making capabilities
”

LET'S SOAR TO THE CLOUD!

Innovation - Quarterly updates support continuous improvement

Time & TCO Reduction - Subscription-based platform is easy to maintain and scale for any planning or reporting requirements.

Connectivity & UX - Enhanced end user experience and easy to adopt. Data connection ready with access to real-time data.

Re-use Current Development - Depending on the chosen strategy it is possible to reuse existing objects and definitions

LET'S GET STARTED!

Exodus Program can offer 3 primary strategies to migrate your SAP BPC to SAC Planning:

Assessment - Evaluate the current processes, environment and architecture

Digital Transformation - Reengineering of planning processes

Lift & Shift - Transfer with minimal changes

Hybrid - Running SAP BPC and SAC Planning in parallel, gradually transitioning functions and data to SAC
