

Landing Zones for Regulated Industries on Google Cloud

Secure & Scalable Foundation For Your Enterprise Cloud Platform

SECURE YOUR ENTERPRISE CLOUD PLATFORM ON GOOGLE CLOUD

Organizations in regulated industries, including the public sector, healthcare, and finance, often face complex security and compliance requirements when adopting cloud services. Establishing a secure and compliant foundation is a critical first step to leveraging the power of the cloud and beginning your cloud journey. Improving has a demonstrated track record of successfully deploying secure, compliant, and scalable cloud foundations for organizations with stringent regulatory needs.

Our Google Cloud Platform (GCP) **Landing Zone for Regulated Industries** provides a robust, pre-configured environment that establishes a secure and well-governed foundation for your cloud workloads. This solution accelerates cloud adoption by providing a secure baseline, allowing your organization to focus on delivering its core mandate while adhering to its compliance obligations.

KEY FEATURES OF OUR LANDING ZONES ON GOOGLE CLOUD

Improving's Landing Zone for Regulated Industries has the following features:

-  **Adaptable Compliance:** Built to meet Canada's Protected B (PBMM) profile, with flexibility to align with NIST 800-53, PCI-DSS, PHIPPA, and more.
-  **Security-First Architecture:** Comprehensive controls across identity, network, and data layers.
-  **IAM:** Fine-grained, role-based access control.
-  **Network Security:** VPC segmentation, firewalls, and secure connectivity.
-  **Data Protection:** Encryption at rest and in transit.
-  **Automated Deployment:** Infrastructure as Code (IaC) ensures consistent, repeatable, and rapid provisioning.
-  **Centralized Visibility:** Unified logging and monitoring for compliance, auditing, and incident response.
-  **Policy Enforcement:** Organization-wide guardrails to maintain governance and operational control.
-  **Scalable & Flexible:** Designed to grow with your workloads and adapt to evolving regulatory needs.

Landing Zones for Regulated Industries on Google Cloud

Secure & Scalable Foundation For Your Enterprise Cloud Platform

OUR PROVEN TRACK RECORD IN REGULATED LANDING ZONES

Improving has a strong track record of delivering secure, scalable cloud landing zones tailored for regulated industries. Our solutions are built with a security-first mindset and align with key compliance frameworks such as PBMM, NIST 800-53, PCI-DSS, and PHIPPA. Leveraging Infrastructure as Code, we ensure rapid, consistent deployments that reduce risk and accelerate time-to-value. Our approach emphasizes centralized governance, automated policy enforcement, and deep integration with cloud-native services, enabling organizations across regulated industries, such as the public sector, to modernize legacy systems, maintain continuous compliance, and scale confidently across diverse workloads and regulatory environment on Google Cloud.

WHY CHOOSE IMPROVING AS YOUR CLOUD PARTNER

Improving is a trusted partner to organizations in regulated industries. We have a proven track record of successfully delivering secure and compliant cloud landing zones to a diverse range of clients, including:

Our team of certified cloud experts understands the unique challenges and requirements of operating in a regulated environment. We work collaboratively with our clients to ensure a smooth and successful cloud adoption journey. With our deep expertise in both Google Cloud Platform and industry-specific security standards, we can help your organization unlock the full potential of the cloud while maintaining the highest standards of security and compliance.

SECURING & ACCELERATING YOUR CLOUD JOURNEY ON GOOGLE CLOUD

Our Landing Zones for Regulated Industries are purpose-built to help organizations such as yours confidently adopt Google Cloud, securely, compliantly, and at scale. Whether your organization is navigating complex regulatory frameworks or modernizing legacy systems, our proven approach delivers a **secure foundation**, **automated governance**, and **rapid time-to-value**.
