Improving's Microsoft Cloud Solution Provider (CSP) Program

Unlock the Full Potential of Your Microsoft Cloud Services

WHY CHOOSE IMPROVING AS YOUR MICROSOFT CSP?

Moving to the cloud is just the beginning of your digital transformation journey. While the initial transition is crucial, many organizations struggle to fully realize the benefits that cloud services promise.

Improving's Microsoft Cloud Solution Provider (CSP) program is designed to maximize the value of your existing Microsoft investments and empower your employees to do their best work. With our expertise and support, your business will thrive in today's competitive landscape.

Why Choose Improving as your Microsoft CSP?

- **Superior Support:** With our single support tier of Senior and Architect-level deployment consultants, you reach technical expertise faster, resulting in quicker time to resolution.
- **Comprehensive Tech Capabilities:** We have extensive expertise and specializations across Microsoft's technology stack – Azure, Business Applications, Data & AI, Digital App & Innovation and Modern Work.
- **Security-Focused Approach:** At Improving, we lead with security in everything we do. Every design and decision is rooted in ensuring your company, data and employees are protected.
- **Trusted Advisor Relationship:** We define our success based on the success of our clients. You gain a partnership with a proven Trusted Advisor, not just a transactional relationship.

IMPROVING'S MICROSOFT CSP PROGRAM

Licensing is just a part of our Microsoft CSP Program, not the foundation of our offering.
Our program benefits include:

- Monthly Advisory Reviews
- Quarterly Cloud Security Assessments
- Technical Skilling Opportunities
- Exclusive CSP Customer Events
- License Optimization
- Annual Review of Cloud Enablement Strategy*

* Benefit requires completing Improving's Cloud Enablement Strategy Workshop.
